

FEDERAL HOME LOAN BANKS

Combined Financial Report for the Quarterly Period Ended September 30, 2019

This Combined Financial Report provides financial information on the Federal Home Loan Banks. The Federal Home Loan Banks issue consolidated bonds and consolidated discount notes (collectively referred to as consolidated obligations). Consolidated obligations are joint and several obligations of all Federal Home Loan Banks, which means that each individual Federal Home Loan Bank is responsible for the payment of principal and interest on all consolidated obligations. Each Federal Home Loan Bank is a separately chartered entity with its own board of directors and management. There is no centralized, system-wide management or oversight by a single board of directors of the Federal Home Loan Banks.

Federal Home Loan Bank consolidated obligations are not obligations of the United States and are not guaranteed by the United States. No person other than the Federal Home Loan Banks will have any obligations or liability with respect to consolidated obligations.

The Securities Act of 1933, as amended, does not require the registration of consolidated obligations; therefore, no registration statement with respect to consolidated obligations has been filed with the U.S. Securities and Exchange Commission. Neither the U.S. Securities and Exchange Commission, nor the Federal Housing Finance Agency, nor any state securities commission has approved or disapproved of these consolidated obligations or determined if this report is truthful or complete.

Carefully consider the risk factors provided in this and other Combined Financial Reports of the Federal Home Loan Banks (collectively referred to as Combined Financial Reports). Neither the Combined Financial Reports nor any offering materials provided by, or on behalf of, the Federal Home Loan Banks describe all the risks of investing in consolidated obligations. Investors should consult with their financial and legal advisors about the risks of investing in consolidated obligations.

The financial information contained in this Combined Financial Report is for the quarterly period ended September 30, 2019. This Combined Financial Report should be read in conjunction with the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, issued on March 27, 2019. Combined Financial Reports are available on the Federal Home Loan Banks Office of Finance web site at fhlb-of.com. This web site address is provided as a matter of convenience only, and its contents are not made part of or incorporated by reference into this report.

Investors should direct questions about consolidated obligations or the Combined Financial Reports to the Federal Home Loan Banks Office of Finance at (703) 467-3600.

This Combined Financial Report was issued on November 13, 2019.

EXPLANATORY STATEMENT ABOUT FEDERAL HOME LOAN BANKS COMBINED FINANCIAL REPORT

The Federal Home Loan Banks (FHLBanks) are government-sponsored enterprises (GSEs), federally-chartered but privately capitalized and independently managed. The FHLBanks together with the Federal Home Loan Banks Office of Finance (Office of Finance) comprise the FHLBank System.

The Office of Finance is responsible for preparing the Combined Financial Reports of the FHLBanks. Each FHLBank is responsible for the financial information and underlying data it provides to the Office of Finance for inclusion in the Combined Financial Reports. The Office of Finance is responsible for combining the financial information it receives from each of the FHLBanks.

The Combined Financial Reports are intended to be used by investors in consolidated obligations (consolidated bonds and consolidated discount notes) of the FHLBanks as these are joint and several obligations of all FHLBanks. This Combined Financial Report is provided using combination accounting principles generally accepted in the United States of America. This combined presentation in no way indicates that these assets and liabilities are under joint management and control as each individual FHLBank manages its operations independently. Therefore, each FHLBank's business, risk profile, financial condition, and results of operations will vary from FHLBank to FHLBank.

Because of the FHLBank System's structure, the Office of Finance does not prepare consolidated financial statements. Consolidated financial statements are generally considered to be appropriate when a controlling financial interest rests directly or indirectly in one of the enterprises included in the consolidation, which is the case in a typical holding company structure where there is a parent corporation that owns, directly or indirectly, one or more subsidiaries. However, the FHLBanks do not have a parent company that controls each of the FHLBanks. Instead, each of the FHLBanks is owned by its respective members and certain former members.

Each FHLBank is a separately chartered cooperative with its own board of directors and management and is responsible for establishing its own accounting and financial reporting policies in accordance with accounting principles generally accepted in the United States of America (GAAP). Although the FHLBanks work together in an effort to achieve consistency on significant accounting policies, the FHLBanks' accounting and financial reporting policies and practices may vary because alternative policies and presentations are permitted under GAAP in certain circumstances. Statements in this report may be qualified by a term such as "generally," "primarily," "typically," or words of similar meaning to indicate that the statement is generally applicable, but may not be applicable to all FHLBanks or their transactions as a result of their different business practices and accounting and financial reporting policies under GAAP.

An investor may not be able to obtain easily a system-wide view of the FHLBanks' business, risk profile, and financial information because there is no centralized, system-wide management or centralized board of director oversight of the individual FHLBanks. This decentralized structure is not conducive to preparing disclosures from a system-wide view in the same manner as is generally expected of U.S. Securities and Exchange Commission (SEC) registrants. For example, a conventional Management's Discussion and Analysis is not provided in this Combined Financial Report; instead, this report includes a "Financial Discussion and Analysis" prepared by the Office of Finance using information provided by each FHLBank.

Each FHLBank is subject to the reporting requirements of the Securities Exchange Act of 1934, as amended, and must file periodic reports and other information with the SEC. Each FHLBank prepares an annual financial report, filed on SEC Form 10-K, quarterly financial reports, filed on SEC Form 10-Q, and current reports, filed on SEC Form 8-K. Those reports contain additional information that is not contained in this Combined Financial Report. An investor should review those reports and other available information on individual FHLBanks to obtain additional detail on each FHLBank's business, risk profile, financial condition, results of operations, and accounting and financial reporting policies. Periodic reports and other information filed by each FHLBank with the SEC are made available on its web site and on the SEC's web site at sec.gov. References to web sites and to reports and other information filed by individual FHLBanks with the SEC are provided as a matter of convenience only, and their contents are not made part of or incorporated by reference into this report.

FEDERAL HOME LOAN BANKS
COMBINED STATEMENT OF CONDITION
(Unaudited)

<i>(dollars in millions, except par value)</i>	September 30, 2019	December 31, 2018

The accompanying notes are an integral part of these combined financial statements.

NOTES TO COMBINED FINANCIAL STATEMENTS (Unaudited)

Background Information

These financial statements present the combined financial position and combined results of operations of the Federal Home Loan Banks (FHLBanks). The FHLBanks are government-sponsored enterprises (GSEs) that were organized under the Federal Home Loan Bank Act of 1932, as amended (FHLBank Act), to serve the public by enhancing the availability of credit for residential mortgages and targeted community development. They are financial cooperatives that provide a readily available, competitively-priced source of funds to their member institutions. Each FHLBank operates as a separate entity with its own management, employees, and board of directors. The FHLBanks do not have any special purpose entities or any other type of off-balance sheet conduits.

The Federal Housing Finance Agency (FHFA) is the independent Federal regulator of the FHLBanks, Federal Home Loan Mortgage Corporation (Freddie Mac), and Federal National Mortgage Association (Fannie Mae). The FHFA's stated mission is to ensure that the housing GSEs operate in a safe and sound manner so that they serve as a reliable source of liquidity and funding for housing finance and community investment.

The Office of Finance is a joint office of the FHLBanks established to facilitate the issuance and servicing of the debt instruments of the FHLBanks, known as consolidated obligations (consolidated bonds and consolidated discount notes), and to prepare the quarterly and annual combined financial reports of the FHLBanks. As provided by the FHLBank Act, and applicable regulations, consolidated obligations are backed only by the financial resources of the FHLBanks. Consolidated obligations are the primary source of funds for the FHLBanks in addition to deposits, other borrowings, and capital stock issued to members. The FHLBanks primarily use these funds to provide advances to members. Certain FHLBanks also use these funds to acquire mortgage loans from members (acquired member assets) through their respective FHLBank's Mortgage Purchase Program (MPP) or the Mortgage Partnership Finance® (MPF®) Program. "Mortgage Partnership Finance" and "MPF" are registered trademarks of the FHLBank of Chicago. In addition, some FHLBanks offer correspondent services to their member institutions, including wire transfer, security safekeeping, and settlement services.

Unless otherwise stated, dollar amounts disclosed in this Combined Financial Report represent values rounded to the nearest million. Dollar amounts rounding to less than one million are not reflected in this Combined Financial Report.

Note 1 - Summary of Significant Accounting Policies

These unaudited quarterly combined financial statements do not include all disclosures associated with annual combined financial statements, and therefore should be read in conjunction with the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. In addition, the results of operations for interim periods are not necessarily indicative of the results to be expected for the year ending December 31, 2019.

Basis of Presentation

These combined financial statements include the financial statements and records of the FHLBanks that are prepared in accordance with generally accepted accounting principles in the United States of America (GAAP). The information contained in these combined financial statements is not audited. Each FHLBank's financial statements, in the opinion of its management, contain all the necessary adjustments for a fair statement of its interim financial information.

Principles of Combination. Transactions between the FHLBanks have been eliminated in accordance with combination accounting principles similar to consolidation under GAAP. The more significant transactions between the FHLBanks are:

1. *Purchases of Consolidated Bonds.* These purchases occur when consolidated bonds issued on behalf of one FHLBank are purchased by another FHLBank in the open market. All purchase transactions occur at market prices with third parties and the purchasing FHLBanks treat these consolidated bonds as investments. Under combination accounting principles, the investment and the consolidated bonds, and related contractual interest income and expense, are eliminated in combination.
2. *Lending Activity.* From time to time, the FHLBanks loan short-term funds to one another. Under combination accounting, inter-company adjustments are made to eliminate these amounts.

No other transactions among the FHLBanks had a material effect on operating results. (See the [Condensed Combining Schedules](#) for the combining adjustments, consisting of interbank eliminations and rounding adjustments, made to the combined financial statements.)

Segment Reporting. FHFA regulations consider each FHLBank to be a segment. However, there is no single chief operating decision maker because there is no centralized, system-wide management or centralized board of director oversight of the individual FHLBanks. (See the [Condensed Combining Schedules](#) for segment information.)

Reclassifications and Revisions to Prior Period Amounts. Cash flow amounts in the Combined Statement of Cash Flows for the prior period were reclassified to reflect short-term investment security purchases and proceeds on a gross, rather than net, basis. These reclassifications, made to properly present gross investment security cash flows and to conform to the financial statement presentation for the nine months ended September 30, 2019, were not material.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires each FHLBank's management to make subjective assumptions and estimates that may affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of income and expense. The most significant of these estimates include those used in conjunction with other-than-temporary impairments for investment securities, fair value estimates, derivative hedging relationships, amortization of premiums and accretion of discounts on investment securities and purchased mortgage loans, and calculation of allowance for credit losses for each identified portfolio segment of financing receivables. Actual results could differ from these estimates significantly.

Fair Value. The fair value amounts, recorded on the Combined Statement of Condition and in the footnotes for the periods presented, have been determined by the FHLBanks using available market and other pertinent information, and reflect each FHLBank's best judgment of appropriate valuation methods. Although an FHLBank uses its best judgment in estimating the fair value of these financial instruments, there are inherent limitations in any valuation technique. Therefore, these fair values may not be indicative of the amounts that would have been realized in market transactions at the reporting dates. (See [Note 15 - Fair Value](#) for more information.)

Financial Instruments Meeting Netting Requirements

The FHLBanks present certain financial instruments on a net basis when they have a legal right of offset and all other requirements for netting are met (collectively referred to as the netting requirements). For these financial instruments, each of the affected FHLBanks has elected to offset its asset and liability positions, as well as cash collateral received or pledged, when it has met the netting requirements.

The net exposure for these financial instruments can change on a daily basis; therefore, there may be a delay between the time this exposure change is identified and additional collateral is requested, and the time when this collateral is received or pledged. Likewise, there may be a delay for excess collateral to be returned. For derivative instruments that meet the netting requirements, any excess cash collateral received or pledged is recognized as a derivative liability or derivative asset. (See [Note 10 - Derivatives and Hedging Activities](#) for additional information regarding these agreements.)

At September 30, 2019 and December 31, 2018, the FHLBanks had \$52,597 million and \$45,325 million in securities purchased under agreements to resell. Based on the fair value of the related collateral held, the securities purchased under agreements to resell were fully collateralized for the periods presented. There were no offsetting liabilities related to these securities at September 30, 2019 or December 31, 2018.

Investment Securities

Available-for-Sale. Securities that are not classified as held-to-maturity (HTM) or trading are classified as available-for-sale (AFS) and are carried at fair value. Generally, the FHLBanks record changes in the fair value of these securities in other comprehensive income (loss) (OCI) as net unrealized gains (losses) on available-for-sale securities. Beginning January 1, 2019, the FHLBanks adopted new hedge accounting guidance, which, among other things, impacts the presentation of gains (losses) on derivatives and hedging activities for qualifying hedges, including fair value and cash flow hedges of AFS securities. For AFS securities in hedge relationships that qualify as fair value hedges, the FHLBanks record the portion of the change in the fair value of the investment related to the risk being hedged in interest income on AFS securities together with the related change in the fair value of the derivative, and record the remainder of the change in the fair value of the investment in OCI as net

unrealized gains (losses) on available-for-sale securities. For AFS securities in hedge relationships that qualify as cash flow hedges, the FHLBanks record the entire change in the fair value of the derivative related to the risk being hedged in OCI as net unrealized gains (losses) relating to hedging activities.

Prior to January 1, 2019, for AFS securities in hedge relationships that qualify as a fair value hedge, the FHLBanks recorded the portion of the change in the fair value of the investment related to the risk being hedged in non-interest income as net gains (losses) on derivatives and hedging activities together with the related change in the fair value of the derivative, and recorded the remainder of the change in the fair value of the investment in OCI as net unrealized gains (losses) on available-for-sale securities. For AFS securities in hedge relationships that qualify as a cash flow hedge, the FHLBanks recorded the effective portion of the change in the fair value of the derivative related to the risk being hedged in OCI as net unrealized gains (losses) relating to hedging activities. The ineffective portion was recorded in non-interest income and presented as net gains (losses) on derivatives and hedging activities.

Advances

If a new advance qualifies as a modification of an existing advance, any prepayment fee, net of hedging adjustments, is deferred, recorded in the basis of the modified advance, and amortized using a level-yield methodology over the life of the modified advance to advance interest income. If the modified advance is hedged and meets hedge accounting requirements, the modified advance is marked to fair value, depending on the risk being hedged, and subsequent fair value changes that are attributable to the hedged risk are recorded in interest income on advances effective January 1, 2019. Prior to January 1, 2019, subsequent fair value changes were recorded in non-interest income.

Derivatives and Hedging Activities

Accounting for Fair Value or Cash Flow Hedges. If hedging relationships meet certain criteria, including, but not limited to, formal documentation of the hedging relationship and an expectation to be highly effective, they qualify for fair value or cash flow hedge accounting. For cash flow hedges, the FHLBanks measure effectiveness using the hypothetical derivative method, which compares the cumulative change in fair value of the actual derivative designated as the hedging instrument to the cumulative change in fair value of a hypothetical derivative having terms that identically match the critical terms of the hedged forecasted transaction.

Two approaches to hedge accounting include:

- *Long-haul hedge accounting.* The application of long-haul hedge accounting requires an FHLBank to assess (both at the hedge's inception and at least quarterly) whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the fair value or cash flows of hedged items or forecasted transactions attributable to the hedged risk and whether those derivatives may be expected to remain highly effective in future periods.
- *Short-cut hedge accounting.* Transactions that meet certain criteria qualify for the short-cut method of hedge accounting in which an assumption can be made that the change in fair value of a hedged item, due to changes in the benchmark rate, exactly offsets the change in fair value of the related derivative. Under the short-cut method, the entire change in fair value of the interest-rate swap is considered to be highly effective at achieving offsetting changes in fair values or cash flows of the hedged asset or liability.

Derivatives are typically executed at the same time as the hedged item, and each FHLBank designates the hedged item in a qualifying hedge relationship at the trade date. In many hedging relationships, an FHLBank may designate the hedging relationship upon its commitment to disburse an advance or trade a consolidated obligation in which settlement occurs within the shortest period of time possible for the type of instrument based on market settlement conventions. An FHLBank then records the changes in fair value of the derivative and the hedged item beginning on the trade date.

Beginning January 1, 2019, the FHLBanks adopted new hedge accounting guidance, which, among other things, impacts the presentation of gains (losses) on derivatives and hedging activities for qualifying hedges. Changes in the fair value of a derivative that is designated and qualifies as a fair value hedge, along with changes in the fair value of the hedged asset or liability that are attributable to the hedged risk, are recorded in net interest income in the same line as the earnings effect of the hedged item. Changes in the fair value of a derivative that is designated and qualifies as a cash flow hedge are recorded in OCI. These amounts remain in accumulated other comprehensive income (AOCI) until earnings are affected by the variability of the cash flows of the hedged transaction, at which time these amounts are reclassified from AOCI to the same income

statement line as the earnings effect of the hedged item. Net gains (losses) on derivatives and hedging activities for qualifying hedges recorded in net interest income include unrealized and realized gains (losses), which include net interest settlements.

Prior to January 1, 2019, for both fair value and cash flow hedges, any hedge ineffectiveness (which represented the amount by which the change in the fair value of the derivative differed from the change in the fair value of the hedged item or the variability in the cash flows of the forecasted transaction attributable to the hedged risk) was recorded in non-interest income as net gains (losses) on derivatives and hedging activities. Additionally, changes in the fair value of a derivative that was designated and qualified as a cash flow hedge, to the extent that the hedge was highly effective, were recorded in OCI. These amounts remained in AOCI until earnings were affected by the variability of the cash flows of the hedged transaction, at which time these amounts were reclassified from AOCI to the same income statement line as the earnings effect of the hedged item.

Note 2 - Recently Issued and Adopted Accounting Guidance

The following tables provide a summary of recently issued and adopted accounting standards which may have an effect on the combined financial statements.

Recently Issued Accounting Guidance, Not Yet Adopted:

Accounting Standards Update (ASU)	Description	Effective Date	Effect on the Combined Financial Statements or Other Significant Matters
Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract (ASU 2018-15)	This guidance aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license).	This guidance becomes effective for the FHLBanks for the interim and annual periods beginning on January 1, 2020. Early adoption is permitted.	The FHLBanks do not intend to adopt this guidance early. The adoption of this guidance is not expected to have a material effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Changes to the Disclosure Requirements for Defined Benefit Plans (ASU 2018-14)	This guidance modifies the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans to improve disclosure effectiveness.	This guidance becomes effective for the FHLBanks for the annual period ended December 31, 2020, and the annual periods thereafter. Early adoption is permitted.	The FHLBanks do not intend to adopt this guidance early. The adoption of this guidance may affect the FHLBanks' disclosures but it will not have any effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Changes to the Disclosure Requirements for Fair Value Measurement (ASU 2018-13)	This guidance modifies the disclosure requirements for fair value measurements to improve disclosure effectiveness.	This guidance becomes effective for the FHLBanks for the interim and annual periods beginning on January 1, 2020. Early adoption is permitted.	The FHLBanks do not intend to adopt this guidance early. The adoption of this guidance may affect the FHLBanks' disclosures but it will not have any effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Measurement of Credit Losses on Financial Instruments, as amended (ASU 2016-13)	The guidance replaces the current incurred loss model and requires entities to measure expected credit losses based on consideration of a broad range of relevant information, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount.	This guidance becomes effective for the FHLBanks for the interim and annual periods beginning on January 1, 2020. Early adoption is permitted.	The FHLBanks do not intend to adopt this guidance early. Upon adoption, the FHLBanks expect to recognize zero credit losses on advances, U.S. obligations, and GSE investments, and immaterial credit losses on the FHLBanks' remaining financial instruments given the specific terms, issuer guarantees, and collateralized/secured nature of these instruments. Although not expected to be material, the ultimate effect on the FHLBanks' combined financial condition, combined results of operations, and combined cash flows will depend upon the composition of financial assets held by the individual FHLBanks at the adoption date, as well as the economic conditions and forecasts at that time.

Recently Adopted Accounting Guidance:

ASU	Description	Effective Date	Effect on the Combined Financial Statements or Other Significant Matters
Inclusion of the Secured Overnight Financing Rate (SOFR) Overnight Index Swap (OIS) Rate as a Benchmark Interest Rate for Hedge Accounting Purposes (ASU 2018-16)	This guidance permits the OIS rate based on SOFR as an eligible U.S. benchmark interest rate for hedge accounting purposes, to facilitate the London Interbank Offered Rate (LIBOR) to SOFR transition.	This guidance became effective for the FHLBanks for the interim and annual periods beginning on January 1, 2019, concurrent with the adoption of ASU 2017-12.	This guidance was adopted prospectively for qualifying new or re-designated hedging relationships entered into on or after January 1, 2019. However, the adoption of this guidance did not have a material effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Targeted Improvements to Accounting for Hedging Activities, as amended (ASU 2017-12)	This guidance amends the accounting for derivatives and hedging activities to better portray the economic results of an entity's risk management activities in its financial statements.	This guidance became effective for the FHLBanks for the interim and annual periods beginning on January 1, 2019.	This guidance was applied to all existing hedging relationships as of January 1, 2019. Upon adoption, the FHLBanks modified the presentation of fair value and cash flow hedge results on the FHLBanks' Combined Statements of Income and Comprehensive Income, as well as relevant disclosures, prospectively. The FHLBanks also transferred \$1.6 billion from HTM securities to AFS securities upon adoption. The adoption of this guidance did not have a material effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Premium Amortization on Purchased Callable Debt Securities (ASU 2017-08)	This guidance shortens the amortization period for certain purchased callable debt securities held at a premium by requiring the premium to be amortized to the earliest call date rather than contractual maturity. This guidance does not require an accounting change for securities held at a discount, which continue to be amortized to their contractual maturity.	This guidance became effective for the FHLBanks for the interim and annual periods beginning on January 1, 2019.	This guidance was adopted on a modified retrospective basis as of January 1, 2019. However, the adoption of this guidance did not have a material effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.
Leases, as amended (ASU 2016-02)	This guidance amends the accounting for lease arrangements. In particular, it requires a lessee of operating and financing leases to recognize on the statement of condition, a right-of-use asset and a lease liability for leases.	This guidance became effective for the FHLBanks for the interim and annual periods beginning on January 1, 2019.	This guidance was adopted on a modified retrospective basis as of January 1, 2019. Upon adoption, the FHLBanks recognized right-of-use assets of \$198 million and lease liabilities of \$215 million on their existing leases. However, the adoption of this guidance did not have a material effect on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.

(1) Amortized cost of HTM securities includes adjustments made to the cost basis of an investment for accretion, amortization, and/or OTTI recognized in earnings.

(2) Carrying value of HTM securities represents amortized cost after adjustment for the non-credit-related OTTI recognized in AOCI.

(3) Gross unrecognized holding gains (losses) represent the difference between fair value and carrying value.

Table 5.2 presents the HTM securities with unrealized losses, which are aggregated by major security type and length of time that individual securities have been in a continuous unrealized loss position.

Total	\$ 81,042	\$ 80,818	\$ 81,789	\$ 90,681	\$ 90,413	\$ 90,658

- (1) Carrying value of HTM securities represents amortized cost after adjustment for non-credit-related OTTI recognized in AOCI.
(2) MBS are not presented by contractual maturity because their expected maturities will likely differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment fees.

Realized Gains and Losses

Certain FHLBanks sold securities out of their respective HTM portfolio that were near enough to their maturity date (for example, within three months of maturity) that changes in market interest rates would not have a significant effect on the security's fair value or had less than 15% of the acquired principal outstanding at the time of the sale. These sales are considered maturities for purposes of security classification.

Table 5.4 - Proceeds from Sale and Gains and Losses on HTM Securities

Net realized gains (losses) from sale of HTM securities	\$ —	\$ 3	\$ —	\$ 3

Note 6 - Other-than-Temporary Impairment Analysis

Each FHLBank evaluates its individual AFS and HTM investment securities holdings in an unrealized loss position for OTTI on a quarterly basis. A description of the OTTI evaluation process is disclosed in *Note 1 - Summary of Significant Accounting Policies*, page F-15, of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. The FHLBanks' uniform framework is disclosed in *Note 7 - Other-than-Temporary Impairment Analysis*, pages F-31 to F-32, of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018.

Certain Private-label MBS

Each FHLBank performed a cash flow analysis using third-party models to assess whether the entire amortized cost basis of its private-label MBS will be recovered. The projected cash flows are based on a number of assumptions and expectations, and the results of these models can vary significantly with changes in assumptions and expectations. The projected cash flows, determined based on the model approach, reflect a best estimate scenario and include a base case housing price forecast and a base case housing price recovery path.

The FHLBanks' system-wide governance committee developed a short-term housing price forecast with geographically projected changes ranging from a decrease of 6.0% to an increase of 10.0% over the twelve-month period beginning July 1, 2019. For the vast majority of markets, the projected short-term housing price changes range from an increase of 2.0% to an increase of 6.0%. Thereafter, a unique path is projected for each geographic area based on an internally developed framework derived from historical data.

Table 6.1 presents the September 30, 2019 balance of the total HTM and AFS MBS with OTTI charges during the life of the security, which represents securities other-than-temporarily impaired prior to and at September 30, 2019, based on each individual FHLBank's impairment analyses of its investment portfolio.

Table 6.1 - Total MBS Other-than-Temporarily Impaired during the Life of the Security at September 30, 2019(1)
(dollars in millions)

- (1) Table 6.1 does not include all HTM and AFS securities that are in an unrealized loss position as of September 30, 2019. This table includes only HTM and AFS MBS with OTTI charges during the life of the security.
- (2) The FHLBanks classify securities as prime, Alt-A, and subprime based on the originator's classification at the time of origination or based on classification by a nationally recognized statistical rating organization upon issuance of the securities.

Table 6.2 - Rollforward of the Amounts Related to Credit Losses Recognized into Earnings
(dollars in millions)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Balance, at beginning of period	\$ 2,404	\$ 2,599	\$ 2,495	\$ 2,749
Additions				
Additional OTTI credit losses for securities upon which an OTTI charge was previously recognized	7	5	16	12
Reductions				
Securities sold or matured during the period	(7)	(8)	(11)	(51)
Increases in cash flows expected to be collected (accrued as interest income over the remaining lives of the applicable securities)	(48)	(54)	(144)	(168)
Balance, at end of period	<u>\$ 2,356</u>	<u>\$ 2,542</u>	<u>\$ 2,356</u>	<u>\$ 2,542</u>

All other AFS and HTM Investment Securities

At September 30, 2019, the FHLBanks held certain other AFS and HTM securities in unrealized loss positions. These unrealized losses are due primarily to interest rate volatility and/or illiquidity. These losses are considered temporary as each FHLBank expects to recover the entire amortized cost basis on its remaining AFS and HTM securities in unrealized loss positions and neither intends to sell these securities nor considers it more likely than not that it will be required to sell these securities before its anticipated recovery of each security's remaining amortized cost basis. As a result, each FHLBank does not consider these other AFS and HTM investment securities to be other-than-temporarily impaired at September 30, 2019.

Note 7 - Advances

The FHLBanks offer a wide range of fixed- and variable-rate advance products with different maturities, interest rates, payment characteristics, and optionality. Fixed-rate advances generally have maturities ranging from one day to 30 years. Variable-rate advances generally have maturities ranging from less than 30 days to 20 years, where the interest rates reset periodically at a fixed spread to LIBOR or other specified indices, or consolidated obligation yields.

Table 7.1 - Advances by Redemption Term
(dollars in millions)

Redemption Term	September 30, 2019		December 31, 2018	
	Amount	Weighted-Average Interest Rate	Amount	Weighted-Average Interest Rate

Discounts	(49)		(44)	
Hedging adjustments	3,769		(681)	
Fair value option valuation adjustments	138		(41)	
Total	\$ 658,756		\$ 728,767	

The FHLBanks offer advances to members and housing associates that provide the right, based upon predetermined option exercise dates, to call the advance prior to maturity without incurring prepayment or termination fees (callable advances). The FHLBanks also offer certain floating-rate and/or amortizing advances that may be contractually prepaid by the borrower on specified dates without incurring prepayment or termination fees (prepayable advances). Other advances may only be prepaid by paying a fee to the FHLBank (prepayment fee) that makes the FHLBank financially indifferent to the prepayment of the advance.

Some advances contain embedded options allowing an FHLBank to offer puttable and convertible advances. A member either can sell an embedded option to an FHLBank or can purchase an embedded option from an FHLBank. With a puttable advance to a member, an FHLBank effectively purchases a put option from the member that allows that FHLBank to put or extinguish the fixed-rate advance to the member on predetermined exercise dates. Generally, these put options are exercised when interest rates increase relative to contractual rates.

Convertible advances allow an FHLBank to convert an advance from one interest-payment term structure to another. Fixed-rate to variable-rate convertible advances have a defined lockout period after which they convert to the current market rate or another structure. A convertible advance generally carries a lower initial interest rate than a comparable-maturity fixed-rate advance without the conversion feature. Variable- to fixed-rate convertible advances have a defined lockout period during which the interest rates adjust based on a spread to LIBOR or other specified indices. At the end of the lockout period, these advances may convert to fixed-rate advances. The fixed rates on the converted advances are determined at origination.

Table 7.2 - Advances by Redemption Term or Next Call Date and Next Put or Convert Date*(dollars in millions)*

	Redemption Term or Next Call Date(1)		Redemption Term or Next Put or Convert Date	
	September 30, 2019	December 31, 2018	September 30, 2019	December 31, 2018

Total variable-rate	246,379	317,153
Total principal amount	<u>\$ 654,890</u>	<u>\$ 729,501</u>

Credit Risk Exposure and Security Terms

The FHLBanks' potential credit risk from advances is concentrated in commercial banks. The FHLBanks' advances outstanding that were greater than or equal to \$1.0 billion per borrower were \$471.2 billion and \$529.7 billion at September 30, 2019 and December 31, 2018. These advances were made to 112 and 113 borrowers (members and non-members), and represented 71.9% and 72.6% of total advances outstanding at September 30, 2019 and December 31, 2018. (See [Note 9 - Allowance for Credit Losses](#) for information related to the FHLBanks' credit risk on advances and allowance methodology for credit losses.)

Note 8 - Mortgage Loans**Mortgage Loans Held for Portfolio**

Mortgage loans held for portfolio consist of loans obtained through the MPP and MPF Program and are either conventional mortgage loans or government-guaranteed or -insured mortgage loans. Under the MPP and MPF Program, the FHLBanks purchase single-family mortgage loans that are originated or acquired by participating financial institutions. These mortgage loans are credit-enhanced by participating financial institutions or are guaranteed or insured by Federal agencies.

Table 8.1 - Mortgage Loans Held for Portfolio*(dollars in millions)*

	September 30, 2019	December 31, 2018
Fixed-rate, long-term single-family mortgage loans	\$ 63,051	\$ 56,256
Fixed-rate, medium-term(1) single-family mortgage loans	5,097	5,138
Total unpaid principal balance	68,148	61,394

Discounts	(34)	(39)
Hedging adjustments	69	42
Total mortgage loans held for portfolio	<u>\$ 69,432</u>	<u>\$ 62,549</u>

(1) Medium-term is defined as a term of 15 years or less.

Table 8.2 - Mortgage Loans Held for Portfolio by Collateral/Guarantee Type
(dollars in millions)

	September 30, 2019	December 31, 2018
Conventional MPF/MPP mortgage loans	\$ 64,787	\$ 57,862
Government-guaranteed or -insured mortgage loans	3,361	3,532
Total unpaid principal balance	<u>\$ 68,148</u>	<u>\$ 61,394</u>

Note 9 - Allowance for Credit Losses

Each FHLBank has established an allowance methodology for its applicable portfolio segments:

- credit products (advances, letters of credit, and other extensions of credit to borrowers);
- government-guaranteed or -insured mortgage loans held for portfolio;
- conventional MPF loans held for portfolio and conventional MPP loans held for portfolio;
- term federal funds sold; and
- term securities purchased under agreements to resell.

See *Note 1 - Summary of Significant Accounting Policies* and *Note 10 - Allowance for Credit Losses* on pages F-18 to F-19 and pages F-35 to F-39 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for a description of allowance methodologies related to the FHLBanks' portfolio segments as well as the FHLBanks' policies for impairing financing receivables, placing them on non-accrual status, and charging them off when necessary.

Credit Products

Using a risk-based approach and taking into consideration each borrower's financial strength, the FHLBanks consider the types and level of collateral to be the primary indicator of credit quality on their credit products. At September 30, 2019 and December 31, 2018, each FHLBank had rights to collateral on a borrower-by-borrower basis with an estimated value equal to, or greater than, its outstanding extensions of credit.

Each FHLBank continues to evaluate and make changes to its collateral guidelines, as necessary, based on current market conditions. At September 30, 2019 and December 31, 2018, none of the FHLBanks had any credit products that were past due, on non-accrual status, or considered impaired. In addition, there were no troubled debt restructurings related to credit products at any FHLBank during the three and nine months ended September 30, 2019 and 2018.

Based on the collateral held as security, each FHLBank management's credit extension and collateral policies and repayment history on credit products, no FHLBank has incurred any losses on its credit products. Accordingly, at September 30, 2019 and December 31, 2018, no FHLBank recorded any allowance for credit losses on these credit products, and no FHLBank recorded any liability to reflect an allowance for credit losses for off-balance sheet credit exposures. (See [Note 16 - Commitments and Contingencies](#) for additional information on the FHLBanks' off-balance sheet credit exposure.)

Government-Guaranteed or -Insured Mortgage Loans Held for Portfolio

An FHLBank invests in fixed-rate mortgage loans that are insured or guaranteed by the Federal Housing Administration, the Department of Veterans Affairs, the Rural Housing Service of the Department of Agriculture, and/or the Department of Housing and Urban Development. The servicer provides and maintains insurance or a guarantee from the applicable government agency. The servicer is responsible for compliance with all government agency requirements and for obtaining the benefit of the applicable guarantee or insurance with respect to defaulted government-guaranteed or -insured mortgage loans. Any losses incurred on these loans that are not recovered from the issuer or the guarantor are absorbed by the servicer. Therefore, each FHLBank only has credit risk for these loans if the servicer fails to pay for losses not covered by the guarantee or insurance. Based on each FHLBank's assessment of its servicers, no FHLBank established an allowance for credit losses for its government-guaranteed or -insured mortgage loan portfolio at September 30, 2019 and December 31, 2018. Furthermore, none of these mortgage loans has been placed on non-accrual status because of the U.S. government guarantee or insurance on these loans and the contractual obligation of the loan servicer to repurchase the loans when certain criteria are met.

Conventional MPF and Conventional MPP Mortgage Loans Held for Portfolio

Allowance for Credit Losses on Mortgage Loans. Each FHLBank has established an allowance for credit losses on its conventional mortgage loans held for portfolio. Table 9.1 presents a rollforward of the allowance for credit losses on mortgage loans for the three and nine months ended September 30, 2019 and 2018.

Table 9.1 - Rollforward of Allowance for Credit Losses on Conventional MPF/MPP Mortgage Loans
(dollars in millions)

	Three Months Ended September 30,		Nine Months Ended September 30,

Balance, at beginning of period	\$ 16	\$ 16	\$ 15	\$ 16
Charge-offs, net of recoveries	(2)	(1)	(2)	(2)
Provision (reversal) for credit losses	1	—	2	1
Balance, at end of period	<u>\$ 15</u>	<u>\$ 15</u>	<u>\$ 15</u>	<u>\$ 15</u>

Table 9.2 presents the recorded investment in mortgage loans by impairment methodology at September 30, 2019 and December 31, 2018. The recorded investment in a loan is the unpaid principal balance of the loan, adjusted for accrued interest, net deferred loan fees or costs, unamortized premiums or discounts, fair value hedge adjustments, and direct write-downs. The recorded investment is not net of any valuation allowance.

Table 9.2 - Allowance for Credit Losses and Recorded Investment by Impairment Methodology on Conventional MPF/MPP Mortgage Loans
(dollars in millions)

	September 30, 2019	December 31, 2018
Allowance for credit losses		
Individually evaluated for impairment	\$ 6	\$ 7
Collectively evaluated for impairment	9	8
Total allowance for credit losses	<u>\$ 15</u>	<u>\$ 15</u>
Recorded investment		
Individually evaluated for impairment	\$ 202	\$ 211
Collectively evaluated for impairment	66,126	59,024
Total recorded investment	<u>\$ 66,328</u>	<u>\$ 59,235</u>

Credit Quality Indicator and Other Delinquency Statistics. The key credit quality indicator for mortgage loans is payment status. Table 9.3 presents the payment status of mortgage loans based on recorded investment as well as other delinquency statistics at September 30, 2019 and December 31, 2018.

Table 9.3 - Credit Quality Indicator and Other Delinquency Statistics of Mortgage Loans
(dollars in millions)

Payment status	September 30, 2019		
	Conventional MPF/MPP	Government-Guaranteed or -Insured(1)	Total
Past due 30-59 days	\$ 342	\$ 123	\$ 465
Past due 60-89 days	79	34	113
Past due 90 days or more	124	53	177
Total past due mortgage loans	545	210	755
Total current mortgage loans	65,783	3,222	69,005
Total mortgage loans(2)	<u>\$ 66,328</u>	<u>\$ 3,432</u>	<u>\$ 69,760</u>
Other delinquency statistics			
In process of foreclosure, included above(3)	\$ 48	\$ 16	\$ 64
Serious delinquency rate(4)	0.19%	1.54%	0.26%
Past due 90 days or more and still accruing interest	\$ 25	\$ 53	\$ 78
Loans on non-accrual status	<u>\$ 127</u>	<u>\$ —</u>	<u>\$ 127</u>

Payment status	December 31, 2018		
	Conventional MPF/MPP	Government-Guaranteed or -Insured(1)	Total
Past due 30-59 days	\$ 318	\$ 134	\$ 452
Past due 60-89 days	78	41	119
Past due 90 days or more	135	60	195
Total past due mortgage loans	531	235	766
Total current mortgage loans	58,704	3,372	62,076
Total mortgage loans(2)	\$ 59,235	\$ 3,607	\$ 62,842
Other delinquency statistics			
In process of foreclosure, included above(3)	\$ 59	\$ 22	\$ 81
Serious delinquency rate(4)	0.23%	1.69%	0.32%
Past due 90 days or more and still accruing interest	\$ 30	\$ 60	\$ 90
Loans on non-accrual status	\$ 134	\$ —	\$ 134

- (1) Any losses incurred on these loans that are not recovered from the issuer or the guarantor are absorbed by the servicer.
- (2) The difference between the recorded investment and the carrying value of total mortgage loans of \$328 million and \$293 million at September 30, 2019 and December 31, 2018, relates primarily to accrued interest. (See [Note 8 - Mortgage Loans](#) for details on the carrying values of total mortgage loans.)
- (3) Includes loans where the decision of foreclosure or a similar alternative, such as pursuit of deed-in-lieu, has been reported. Loans in the process of foreclosure are included in past due or current loans depending on their delinquency status.
- (4) Represents seriously delinquent loans as a percentage of total mortgage loans. Seriously delinquent loans are comprised of all loans past due 90 days or more delinquent or loans that are in the process of foreclosure (including past due or current loans in the process of foreclosure).

Credit Enhancements. An FHLBank's allowance for credit losses considers the credit enhancements associated with conventional mortgage loans under the MPF Program and MPP. These credit enhancements apply after a homeowner's equity is exhausted. Credit enhancements may include primary mortgage insurance, supplemental mortgage insurance, the credit enhancement amount plus any recoverable performance-based credit enhancement fees (for certain MPF loans), and Lender Risk Account (for MPP loans). The credit risk analysis of all conventional loans is performed at the individual master commitment level to determine the credit enhancements available to recover losses on loans under each individual master commitment. The amount of credit enhancements estimated to protect an FHLBank against credit losses, within an FHLBank's risk tolerance, is determined through the use of a validated model. Any incurred losses that would be recovered from the credit enhancements are not reserved as part of an FHLBank's allowance for credit losses on mortgage loans. (See [Note 10 - Allowance for Credit Losses](#) on pages F-38 to F-39 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for additional information on credit enhancements for the Mortgage Partnership Finance Program and Mortgage Purchase Program.)

At September 30, 2019 and December 31, 2018, the amounts of First Loss Account remaining to cover the losses under the MPF program were \$496 million and \$454 million. This balance excludes amounts that may be recovered through the recapture of performance-based credit enhancement fees. The First Loss Account represents the first layer or portion of credit losses that each FHLBank participating in the MPF program (MPF FHLBank) absorbs with respect to its MPF loans after considering the borrower's equity, primary mortgage insurance, and recoverable credit enhancement fees. An FHLBank records credit enhancement fees paid to the participating financial institutions as a reduction to mortgage interest income.

At September 30, 2019 and December 31, 2018, the amounts of the Lender Risk Account remaining to cover future potential losses under the MPP were \$407 million and \$389 million. The Lender Risk Account is funded by an FHLBank participating in the MPP (MPP FHLBank) either upfront as a portion of the purchase proceeds or through a portion of the net interest remitted monthly by the borrower in an amount sufficient to cover expected losses on the pool of mortgages.

Troubled Debt Restructurings. A troubled debt restructuring is considered to have occurred when a concession is granted to a borrower for economic or legal reasons related to the borrower's financial difficulties and that concession would not have been considered otherwise. An FHLBank has granted a concession when it does not expect to collect all amounts due to the FHLBank under the original contract as a result of the restructuring. Loans that are discharged in Chapter 7 bankruptcy and have not been reaffirmed by the borrowers are also considered to be troubled debt restructurings, except in certain cases where supplemental mortgage insurance policies are held or where all contractual amounts due are still expected to be collected as a result of certain credit enhancements or government guarantees. (See *Note 10 - Allowance for Credit Losses* on page F-39 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for additional information on trouble debt restructurings.)

Term Federal Funds Sold and Term Securities Purchased Under Agreements to Resell

Term federal funds sold and term securities purchased under agreements to resell are generally short-term, their recorded balance approximates fair value, and they are generally transacted with counterparties that are considered by an individual FHLBank to be of investment quality. FHLBank investments in term federal funds are evaluated for purposes of a reserve for credit losses only if the investment is not paid when due. All investments in term federal funds sold are unsecured and were repaid or expected to be repaid according to the contractual terms as of September 30, 2019 and December 31, 2018. Term securities purchased under agreements to resell are considered collateralized financing arrangements and effectively represent short-term loans. The terms of these loans are structured such that if the market value of the underlying securities decreases below the market value required as collateral, the counterparty must place an equivalent amount of additional securities as collateral or remit an equivalent amount of cash. If an agreement to resell is deemed to be impaired, the difference between the fair value of the collateral and the amortized cost of the agreement is charged to earnings. Based upon the collateral held as security, each FHLBank determined that no allowance for credit losses was needed for its term securities purchased under agreements to resell at September 30, 2019 and December 31, 2018.

Note 10 - Derivatives and Hedging Activities

Nature of Business Activity

The FHLBanks are exposed to interest-rate risk primarily from the effect of interest rate changes on their interest-earning assets and their interest-bearing liabilities that finance these assets. The goal of each FHLBank's interest-rate risk management strategy is not to eliminate interest-rate risk, but to manage it within appropriate limits. To mitigate the risk of loss, each FHLBank has established policies and procedures, which include guidelines on the amount of exposure to interest rate changes it is willing to accept. In addition, each FHLBank monitors the risk to its interest income, net interest margin, and average maturity of interest-earning assets and interest-bearing liabilities. (See *Note 11 - Derivatives and Hedging Activities* on pages F-40 to F-48 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for a description of the application of derivatives and the types of derivatives and hedged items.)

Each FHLBank reevaluates its hedging strategies periodically and may change the hedging techniques it uses or may adopt new strategies. Each FHLBank transacts most of its derivatives with large banks and major broker-dealers. Some of these banks and broker-dealers, or their affiliates, buy, sell, and distribute consolidated obligations. Derivative transactions may be either executed with a counterparty (uncleared derivatives) or cleared through a Futures Commission Merchant (i.e., clearing agent) with a Derivative Clearing Organization (cleared derivatives). Once a derivative transaction has been accepted for clearing by a Derivative Clearing Organization (Clearinghouse) the executing counterparty is replaced with the Clearinghouse. The FHLBanks are not derivative dealers and do not trade derivatives for short-term profit.

Financial Statement Effect and Additional Financial Information

Derivative Notional Amounts. The notional amount of derivatives serves as a factor in determining periodic interest payments or cash flows received and paid. However, the notional amount of derivatives reflects the FHLBanks' involvement in the various classes of financial instruments and represents neither the actual amounts exchanged nor the overall exposure of the FHLBanks to credit and market risk; the overall risk is much smaller. The risks of derivatives can be measured meaningfully on a portfolio basis that takes into account the counterparties, the types of derivatives, the items being hedged, and any offsets between the derivatives and the items being hedged.

Table 10.1 presents the notional amount, fair value of derivative instruments, and total derivative assets and liabilities. Total derivative assets and liabilities include the effect of netting adjustments and cash collateral. For purposes of this disclosure, the derivative values include the fair value of derivatives and the related accrued interest.

Table 10.1 - Fair Value of Derivative Instruments
(dollars in millions)

	September 30, 2019			December 31, 2018		
	Notional Amount of Derivatives	Derivative Assets	Derivative Liabilities	Notional Amount of Derivatives	Derivative Assets	Derivative Liabilities
Derivatives designated as hedging instruments						
Interest-rate swaps	\$ 392,945	\$ 665	\$ 2,857	\$ 378,352	\$ 873	\$ 1,680
Derivatives not designated as hedging instruments						
Interest-rate swaps	172,097	359	433	143,326	364	354
Interest-rate swaptions	7,670	48	—	4,335	18	—
Interest-rate caps or floors	13,751	2	1	15,481	11	4
Interest-rate futures or forwards	1,241	2	1	338	—	4
Mortgage delivery commitments	3,611	6	5	992	4	1
Other	1,371	18	6	1,315	6	11
Total derivatives not designated as hedging instruments	199,741	435	446	165,787	403	374
Total derivatives before netting and collateral adjustments	\$ 592,686	1,100	3,303	\$ 544,139	1,276	2,054
Netting adjustments and cash collateral(1)		654	(3,176)		(238)	(1,609)
Total derivative assets and total derivative liabilities		\$ 1,754	\$ 127		\$ 1,038	\$ 445

(1) Amounts represent the application of the netting requirements that allow an FHLBank to settle positive and negative positions, and also cash collateral and related accrued interest held or placed by that FHLBank with the same clearing agent and/or counterparty. Cash collateral posted and related accrued interest was \$3,688 million and \$1,737 million at September 30, 2019 and December 31, 2018. Cash collateral received and related accrued interest was \$419 million and \$254 million at September 30, 2019 and December 31, 2018.

With the adoption of the new hedge accounting guidance, beginning on January 1, 2019, changes in fair value of the derivative and the hedged item attributable to the hedged risk for designated fair value hedges are recorded in net interest income in the same line as the earnings effect of the hedged item. For designated cash flow hedges, the entire change in the fair value of the derivative (assuming it is included in the assessment of hedge effectiveness) is reported in OCI until the hedged transaction affects earnings. At that time, this amount is reclassified from AOCI and recorded in net interest income in the same income statement line as the earnings effect of the hedged item. Prior to January 1, 2019, for both fair value and cash flow hedges, any hedge ineffectiveness (which represented the amount by which the change in the fair value of the derivative differed from the change in the fair value of the hedge item or the variability in the cash flows of the forecasted transaction attributable to the hedged risk) was recorded in non-interest income as net gains (losses) on derivatives and hedging activities.

Table 10.2 presents the net gains (losses) on qualifying and discontinued fair value and cash flow hedging relationships. Beginning on January 1, 2019, gains (losses) on derivatives include unrealized changes in fair value, as well as net interest settlements. (See [Note 14 - Accumulated Other Comprehensive Income \(Loss\)](#) for more details on the effect of cash flow hedges on AOCI.)

Reclassified from AOCI into interest income (expense)	\$ 1	\$ —	\$ (13)	\$ (2)		
Recognized in non-interest income for hedge ineffectiveness					\$ 1	
Recognized in OCI for hedge effectiveness						\$ 248

- (1) Includes changes in fair value and excludes the interest income (expense) of the respective hedged item.
- (2) Includes changes in fair value and amortization and accretion of basis adjustments on active and discontinued hedge relationships.
- (3) Includes changes in fair value, net interest settlements and amortization and accretion of basis adjustments on active and discontinued hedge relationships. Excludes the interest income (expense) of the respective hedged item.
- (4) Prior period amounts were not conformed to the new hedge accounting guidance adopted January 1, 2019.
- (5) Includes changes in fair value.
- (6) Includes net interest settlements and excludes amortization and accretion of basis adjustments on discontinued hedge relationships of \$(7) million and \$(15) million for the three and nine months ended September 30, 2018.
- (7) Includes changes in fair value. Excludes the interest income (expense) of the respective hedged item and \$(13) million and \$(82) million for the effect of net interest settlements reclassified from AOCI to net interest income attributable to open cash flow hedges for the three and nine months ended September 30, 2018.

For the three and nine months ended September 30, 2019 and 2018, no material amounts were reclassified from AOCI into earnings as a result of discontinued cash flow hedges because the original forecasted transactions occurred by the end of the originally specified time period or within a two-month period thereafter. At September 30, 2019, \$11 million of deferred net losses on derivative instruments in AOCI is expected to be reclassified to earnings during the next twelve months. At September 30, 2019, the maximum length of time over which an FHLBank is hedging its exposure to the variability in future cash flows for forecasted transactions is thirteen years, excluding those forecasted transactions related to the payment of variable interest on existing financial instruments.

Table 10.3 presents the cumulative basis adjustments on hedged items designated in fair value hedging relationships and the related amortized cost of the hedged items.

Table 10.3 - Cumulative Basis Adjustments for Fair Value Hedges
(dollars in millions)

Line item in statement of condition of hedged item	September 30, 2019			
	Amortized Cost of Hedged Asset or Liability(1)	Basis Adjustments for Active Hedging Relationships Included in Amortized Cost	Basis Adjustments for Discontinued Hedging Relationships Included in Amortized Cost	Cumulative Amount of Fair Value Hedging Basis Adjustments
Advances	\$ 191,094	\$ 3,731	\$ 38	\$ 3,769
Available-for-sale securities	66,467	3,280	1	3,281
Mortgage loans	726	—	13	13
Consolidated bonds	138,237	825	131	956
Consolidated discount notes	6,225	1	—	1

(1) Includes only the portion of amortized cost representing the hedged items in active or discontinued fair value hedging relationships.

Table 10.4 presents net gains (losses) related to derivatives and hedging activities recorded in non-interest income. For fair value and cash flow hedging relationships, the portion of net gains (losses) representing hedge ineffectiveness were recorded in non-interest income for periods prior to January 1, 2019.

Table 10.4 - Net Gains (Losses) on Derivatives and Hedging Activities Recorded in Non-interest Income
(dollars in millions)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018

Net gains (losses) on derivatives and hedging activities recorded in non-interest income	\$ (137)	\$ 24	\$ (611)	\$ 116

(1) Consists of interest-rate swaps.

(2) This amount is for derivatives for which variation margin is characterized as a daily settled contract.

Managing Credit Risk on Derivatives

Each FHLBank is subject to credit risk due to the risk of non-performance by counterparties to its derivative transactions, and manages credit risk through credit analysis, collateral requirements, and adherence to the requirements set forth in its policies, U.S. Commodity Futures Trading Commission regulations, and FHFA regulations.

Uncleared Derivatives. For uncleared derivatives, the degree of credit risk depends on the extent to which master netting arrangements are included in these contracts to mitigate the risk. Each FHLBank requires collateral agreements on its uncleared derivatives. Additionally, collateral related to derivatives with member institutions includes collateral assigned to an FHLBank, as evidenced by a written security agreement and held by the member institution for the benefit of that FHLBank.

Certain of the FHLBanks' uncleared derivative instruments contain provisions that require an FHLBank to post additional collateral with its counterparties if there is deterioration in that FHLBank's credit rating. If an FHLBank's credit rating is lowered by a nationally recognized statistical rating organization, that FHLBank may be required to deliver additional collateral on uncleared derivative instruments in net liability positions, unless the collateral delivery threshold is set to zero. The aggregate fair value of all uncleared derivative instruments with credit-risk-related contingent features that require an FHLBank to deliver additional collateral due to a credit downgrade and were in a net liability position (before cash collateral and related accrued interest) at September 30, 2019, was \$931 million, for which the FHLBanks have posted collateral with a fair value of \$901 million in the normal course of business. If each FHLBank's credit rating had been lowered from its current rating to the next lower rating that would have triggered additional collateral to be delivered, the FHLBanks would have been required to deliver an additional \$10 million of collateral at fair value to their uncleared derivatives counterparties at September 30, 2019.

Cleared Derivatives. For cleared derivatives, a Derivative Clearing Organization (Clearinghouse) is an FHLBank's counterparty. The Clearinghouse notifies the clearing agent of the required initial and variation margin and the clearing agent in turn notifies the FHLBank. Each FHLBank utilizes one or two Clearinghouses for all cleared derivative transactions, LCH Ltd. and/or CME Clearing. At both Clearinghouses, variation margin is characterized as daily settlement payments and initial margin is considered collateral. The requirement that an FHLBank post initial and variation margin, through the clearing agent to the Clearinghouse, exposes an FHLBank to credit risk if the clearing agent or the Clearinghouse fails to meet its obligations. The use of cleared derivatives is intended to mitigate credit risk exposure because a central counterparty is substituted for individual counterparties and collateral/payments for changes in the fair value of cleared derivatives is posted daily through a clearing agent.

The Clearinghouse determines initial margin requirements and generally credit ratings are not factored into the initial margin. However, clearing agents may require additional initial margin to be posted based on credit considerations, including, but not limited to, credit rating downgrades. None of the FHLBanks were required to post additional initial margin by its clearing agents, based on credit considerations, at September 30, 2019.

Offsetting of Derivative Assets and Derivative Liabilities

An FHLBank presents derivative instruments, related cash collateral received or pledged, and associated accrued interest, on a net basis by clearing agent and/or by counterparty when it has met the netting requirements.

Each FHLBank has analyzed the enforceability of offsetting rights incorporated in its cleared derivative transactions and determined that the exercise of those offsetting rights by a non-defaulting party under these transactions should be upheld under applicable law upon an event of default including a bankruptcy, insolvency, or similar proceeding involving the Clearinghouse or that FHLBank's clearing agent, or both. Based on this analysis, each FHLBank presents a net derivative receivable or payable for all of its transactions through a particular clearing agent with a particular Clearinghouse.

Table 10.5 presents separately the fair value of derivative instruments meeting or not meeting netting requirements, with and without the legal right of offset, including the related collateral received from or pledged to counterparties.

Table 10.5 - Offsetting of Derivative Assets and Derivative Liabilities
(dollars in millions)

	September 30, 2019							
	Derivative Instruments Meeting Netting Requirements			Derivative Instruments Not Meeting Netting Requirements(1)	Total Derivative Assets and Total Derivative Liabilities	Non-cash Collateral Received or Pledged Not Offset		Net Amount(2)

Cleared	514	(439)	—	75	37	9	29	
Total				\$ 445			\$ 156	

(1) Represents derivatives that are not subject to an enforceable netting agreement (e.g., mortgage delivery commitments and certain interest-rate futures or forwards).

(2) Any overcollateralization at an FHLBank's individual clearing agent and/or counterparty level is not included in the determination of the net amount. At September 30, 2019 and December 31, 2018, the FHLBanks had additional net credit exposure of \$1,608 million and \$1,175 million due to instances where an FHLBank's non-cash collateral to a counterparty exceeded the FHLBank's net derivative position.

Note 11 - Deposits

The FHLBanks offer demand and overnight deposit programs to members and to qualifying non-members. In addition, certain FHLBanks offer short-term interest-bearing deposit programs to members, and in certain cases, to qualifying non-members. A member that services mortgage loans may deposit in its FHLBank funds collected in connection with the mortgage loans, pending disbursement of these funds to the owners of the mortgage loans. The FHLBanks classify these funds as other deposits. Deposits classified as demand, overnight, or other pay interest based on a daily interest rate. Term deposits pay interest based on a fixed rate determined at the issuance of the deposit.

Table 11.1 - Deposits
(dollars in millions)

	September 30, 2019	December 31, 2018
Interest-bearing		
Demand and overnight	\$ 9,529	\$ 6,795
Term	363	393
Other	12	9
Total interest-bearing	9,904	7,197
Non-interest-bearing		
Demand and overnight	249	138
Other	620	225
Total non-interest-bearing	869	363
Total deposits	\$ 10,773	\$ 7,560

Note 12 - Consolidated Obligations

Consolidated obligations consist of consolidated bonds and consolidated discount notes, which are joint and several obligations of all FHLBanks. The FHLBanks issue consolidated obligations through the Office of Finance as their agent. In connection with each debt issuance, an FHLBank specifies the amount of debt it wants issued on its behalf. The Office of Finance tracks the amount of debt issued on behalf of each FHLBank. In addition, each FHLBank records as a liability its specific portion of consolidated obligations for which it is the primary obligor.

The FHFA and the Secretary of the Treasury oversee the issuance of FHLBank debt through the Office of Finance. Consolidated bonds may be issued to raise short-, intermediate-, or long-term funds for the FHLBanks and are not subject to any statutory or regulatory limits on their maturity. Consolidated discount notes are issued primarily to raise short-term funds and have original maturities of up to one year. These notes generally sell below their face value and are redeemed at face value when they mature.

Although each FHLBank is primarily liable for its portion of consolidated obligations, each FHLBank is also jointly and severally liable with the other FHLBanks for the payment of principal and interest on all consolidated obligations of the FHLBanks. The principal amount of the FHLBanks' outstanding consolidated obligations, including consolidated obligations held by other FHLBanks, was \$1,010 billion and \$1,032 billion at September 30, 2019 and December 31, 2018.

Table 12.1 - Consolidated Discount Notes Outstanding
(dollars in millions)

	Book Value	Principal Amount	Weighted-Average Interest Rate(1)
September 30, 2019	\$ 388,380	\$ 389,189	2.02%
December 31, 2018	\$ 426,034	\$ 427,367	2.33%

(1) Represents yield to maturity excluding concession fees.

Table 12.2 - Consolidated Bonds Outstanding by Contractual Maturity
(dollars in millions)

Year of Contractual Maturity	September 30, 2019		December 31, 2018	
	Amount	Weighted-Average Interest Rate	Amount	Weighted-Average Interest Rate
Due in 1 year or less	\$ 393,855	1.99%	\$ 359,133	2.19%
Due after 1 year through 2 years	100,862	2.05%	103,887	2.31%

Total	<u>\$ 622,398</u>		<u>\$ 603,491</u>	

Consolidated bonds outstanding were issued with either fixed-rate coupon payment terms or variable-rate coupon payment terms that are indexed primarily to LIBOR or SOFR. To meet the specific needs of certain investors in consolidated obligations, both fixed-rate consolidated bonds and variable-rate consolidated bonds may contain features that result in complex coupon payment terms and call options. When these consolidated bonds are issued, an FHLBank may enter into derivatives containing features that offset the terms and embedded options, if any, of the consolidated bond obligations.

Table 12.3 - Consolidated Bonds Outstanding by Call Features
(dollars in millions)

Principal Amount of Consolidated Bonds	September 30, 2019	December 31, 2018
Non-callable/non-putable	\$ 507,676	\$ 500,416
Callable	113,295	103,725

Due after 1 year through 2 years	83,029	91,049
Due after 2 years through 3 years	26,835	28,948
Due after 3 years through 4 years	14,081	13,477
Due after 4 years through 5 years	10,829	9,756
Thereafter	18,445	17,161
Total principal amount	<u>\$ 620,971</u>	<u>\$ 604,141</u>

Note 13 - Capital

Each FHLBank is subject to three capital requirements under its capital plan and the FHFA rules and regulations. Regulatory capital does not include AOCI, but does include mandatorily redeemable capital stock.

1. *Risk-based capital.* Each FHLBank must maintain at all times permanent capital, defined as Class B stock and retained earnings, in an amount at least equal to the sum of its credit risk, market risk, and operations risk capital requirements, all of which are calculated in accordance with the rules and regulations of the FHFA.
2. *Total regulatory capital.* Each FHLBank must maintain at all times a total capital-to-assets ratio of at least four percent. Total regulatory capital is the sum of permanent capital, Class A stock, any general loss allowance, if consistent with GAAP and not established for specific assets, and other amounts from sources determined by the FHFA as available to absorb losses.
3. *Leverage capital.* Each FHLBank must maintain at all times a leverage capital-to-assets ratio of at least five percent. Leverage capital is defined as the sum of permanent capital weighted 1.5 times and all other capital without a weighting factor.

The FHFA may require an FHLBank to maintain greater minimum capital levels than are required based on FHFA rules and regulation. At September 30, 2019, each FHLBank was in compliance with FHFA regulatory capital requirements.

Table 13.1 - Risk-Based Capital Requirements at September 30, 2019

San Francisco	5.0%	9.3%	5,208	9,660

Each FHLBank is a cooperative whose member financial institutions own most of the FHLBank's capital stock. Former members (including certain non-members that own FHLBank capital stock as a result of merger or acquisition, relocation, charter termination, voluntary termination, or involuntary termination of an FHLBank member) own the remaining capital stock to support business transactions still carried on an FHLBank's statement of condition. Shares of capital stock cannot be purchased or sold except between an FHLBank and its members at its \$100 per share par value, as mandated by each FHLBank's capital plan. Members can redeem Class A stock by giving six-months written notice, and members can redeem Class B stock by giving five-years written notice, subject to certain restrictions. An FHLBank's board of directors may declare and pay dividends in either cash or capital stock, assuming the FHLBank is in compliance with FHFA rules.

Restricted Retained Earnings

The Joint Capital Enhancement Agreement, as amended (Capital Agreement), is intended to enhance the capital position of each FHLBank. The Capital Agreement provides that each FHLBank will allocate 20% of its net income each quarter to a separate restricted retained earnings account until the balance of that account equals at least one percent of that FHLBank's average balance of outstanding consolidated obligations for the previous quarter. These restricted retained earnings are not available to pay dividends.

Mandatorily Redeemable Capital Stock

An FHLBank generally reclassifies capital stock subject to redemption from capital to the mandatorily redeemable capital stock liability upon expiration of a grace period, if applicable, after a member exercises a written redemption right, or gives notice of intent to withdraw from membership, or attains non-member status by merger or acquisition, relocation, charter termination, or involuntary termination from membership. Shares of capital stock meeting these definitions are reclassified to mandatorily redeemable capital stock at fair value. Dividends related to capital stock classified as mandatorily redeemable capital stock are accrued at the expected dividend rate and reported as interest expense on the Combined Statement of Income. For the three months ended September 30, 2019 and 2018, dividends on mandatorily redeemable capital stock of \$21 million and \$17 million were recorded as interest expense. For the nine months ended September 30, 2019 and 2018, dividends on mandatorily redeemable capital stock of \$54 million and \$51 million were recorded as interest expense.

A member may cancel or revoke its written notice of redemption or its notice of withdrawal from membership prior to the end of the applicable redemption period. Each FHLBank's capital plan provides the terms for cancellation fees that may be incurred by the member upon cancellation.

Table 13.4 presents capital stock subject to mandatory redemption. Payment is contingent on each FHLBank's waiting period and the FHLBank's ability to meet its minimum regulatory capital requirements. These amounts have been classified as a liability on the Combined Statement of Condition.

Table 13.4 - Mandatorily Redeemable Capital Stock Rollforward
(dollars in millions)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Balance, beginning of period	\$ 1,237	\$ 1,206	\$ 1,062	\$ 1,272
Net capital stock subject to mandatory redemption reclassified (to)/ from capital	327	289	771	1,066

Other(1)	8	—	10	—
Balance, end of period	<u>\$ 1,390</u>	<u>\$ 1,078</u>	<u>\$ 1,390</u>	<u>\$ 1,078</u>

(1) Represents a direct purchase of mandatorily redeemable capital stock by a member and rounding adjustments.

Table 13.5 presents the amount of mandatorily redeemable capital stock by contractual year of redemption. The year of redemption in the table is the end of the appropriate redemption period applicable to each FHLBank's capital plan. An FHLBank is not required to redeem membership stock until either five years or six months, depending on the type of capital stock issuable under its capital plan, after the membership is terminated or the FHLBank receives notice of withdrawal. However, for certain membership terminations such as mergers, consolidations, terminations related to insolvency, or out-of-district relocations, the FHLBank may recalculate the former member's stock requirement following that termination and the stock may be deemed excess stock subject to repurchase at the FHLBank's discretion. An FHLBank is not required to redeem activity-based stock until the later of the expiration of the notice of redemption or until the activity to which the capital stock relates no longer remains outstanding. If activity-based stock becomes excess stock as a result of an activity no longer remaining outstanding, an FHLBank may repurchase those shares, at its sole discretion, subject to the statutory and regulatory restrictions on excess capital stock redemption.

Table 13.5 - Mandatorily Redeemable Capital Stock by Contractual Year of Redemption
(dollars in millions)

	September 30, 2019	December 31, 2018
Year 1	\$ 158	\$ 34
Year 2	15	230
Year 3	22	18
Year 4	40	19
Year 5	507	78
Thereafter(1)	610	641
Past contractual redemption date due to remaining activity(2)	38	42
Total	<u>\$ 1,390</u>	<u>\$ 1,062</u>

- (1) Represents mandatorily redeemable capital stock resulting from an FHFA rule effective February 19, 2016, that made captive insurance companies ineligible for FHLBank membership. Captive insurance company members that were admitted as FHLBank members prior to September 12, 2014, will have their memberships terminated no later than February 19, 2021. Captive insurance company members that were admitted as FHLBank members on or after September 12, 2014, had their memberships terminated no later than February 19, 2017. The related mandatorily redeemable capital stock is not required to be redeemed until five years after the member's termination.
- (2) Represents mandatorily redeemable capital stock that is past the end of the contractual redemption period because there is activity outstanding to which the mandatorily redeemable capital stock relates.

Excess Capital Stock

Excess capital stock is defined as the amount of stock held by a member (or former member) in excess of that institution's minimum stock ownership requirement. FHFA rules limit the ability of an FHLBank to create member excess capital stock under certain circumstances. An FHLBank may not pay dividends in the form of capital stock or issue new excess capital stock to members if that FHLBank's excess capital stock exceeds one percent of its total assets or if the issuance of excess capital stock would cause that FHLBank's excess capital stock to exceed one percent of its total assets. At September 30, 2019, the FHLBank of Cincinnati had excess capital stock outstanding totaling more than one percent of its total assets.

Capital Classification Determination

The FHFA determines each FHLBank's capital classification on at least a quarterly basis. If an FHLBank is determined to be other than adequately capitalized, that FHLBank becomes subject to additional supervisory authority by the FHFA. Before implementing a reclassification, the Director of the FHFA is required to provide that FHLBank with written notice of the

proposed action and an opportunity to submit a response. Each FHLBank was classified by the FHFA as adequately capitalized as of the date of the FHFA's most recent notification to each FHLBank.

Note 14 - Accumulated Other Comprehensive Income (Loss)

Table 14.1 presents a summary of changes in accumulated other comprehensive income (loss) for the three and nine months ended September 30, 2019 and 2018.

Note 15 - Fair Value

The fair value amounts recorded on the Combined Statement of Condition and presented in the note disclosures for the periods presented have been determined by the FHLBanks using available market and other pertinent information and reflect each FHLBank's best judgment of appropriate valuation methods. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). Although each FHLBank uses its best judgment in estimating the fair value of its financial instruments, there are inherent limitations in any valuation technique. Therefore, the fair values may not be indicative of the amounts that would have been realized in market transactions at September 30, 2019 and December 31, 2018. Additionally, these values do not represent an estimate of the overall market value of the FHLBanks as going concerns, which would take into account future business opportunities and the net profitability of assets and liabilities.

Fair Value Hierarchy

GAAP establishes a fair value hierarchy and requires an entity to maximize the use of significant observable inputs and minimize the use of significant unobservable inputs when measuring fair value. The inputs are evaluated and an overall level for the fair value measurement is determined. This overall level is an indication of market observability of the fair value measurement for the asset or liability. An entity must disclose the level within the fair value hierarchy in which the measurements are classified.

The fair value hierarchy prioritizes the inputs used to measure fair value into three broad levels:

- Level 1 Inputs. Quoted prices (unadjusted) for identical assets or liabilities in an active market that the reporting entity can access on the measurement date.
- Level 2 Inputs. Inputs other than quoted prices within Level 1, that are observable inputs for the asset or liability, either directly or indirectly. If the asset or liability has a specified or contractual term, a Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 inputs include the following: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in markets that are not active; (3) inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates and yield curves that are observable at commonly quoted intervals, and implied volatilities); and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs. Unobservable inputs for the asset or liability.

Each FHLBank reviews its fair value hierarchy classifications on a quarterly basis. Changes in the observability of the valuation inputs may result in a reclassification of certain assets or liabilities. These reclassifications would be reported as transfers in/out at fair value at the beginning of the quarter in which the changes occur. The FHLBanks had no transfers of assets or liabilities between fair value levels during the three and nine months ended September 30, 2019 and 2018.

Table 15.1 presents the carrying value, fair value, and fair value hierarchy of financial assets and liabilities of the FHLBanks at September 30, 2019 and December 31, 2018. The FHLBanks record trading securities, available-for-sale securities, derivative assets, derivative liabilities, certain advances, certain consolidated obligations, and certain other assets at fair value on a recurring basis, and on occasion certain private-label MBS, certain mortgage loans held for portfolio, and certain other assets at fair value on a non-recurring basis. The FHLBanks record all other financial assets and liabilities at amortized cost. Refer to Table 15.2 for further details about the financial assets and liabilities held at fair value on either a recurring or non-recurring basis.

(1) Amounts represent the application of the netting requirements that allow an FHLBank to settle positive and negative positions, and also cash collateral and related accrued interest held or placed by that FHLBank with the same clearing agent and/or counterparty.

(2) Includes \$6,877 million and \$6,168 million of advances recorded under fair value option at September 30, 2019 and December 31, 2018.

(3) Represents mortgage loans held for sale recorded under fair value option, included in other assets on the Combined Statement of Condition.

(4) Includes \$13,914 million and \$4,172 million of consolidated discount notes recorded under fair value option at September 30, 2019 and December 31, 2018.

(5) Includes \$23,022 million and \$13,438 million of consolidated bonds recorded under fair value option at September 30, 2019 and December 31, 2018.

Summary of Valuation Methodologies and Primary Inputs

A description of the valuation methodologies and primary inputs is disclosed in *Note 19 - Fair Value*, pages F-66 to F-68, of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. There were no significant changes in these valuation methodologies and primary inputs during the three and nine months ended September 30, 2019.

Fair Value Measurements

Table 15.2 presents the fair value of assets and liabilities that are recorded on a recurring or non-recurring basis at September 30, 2019 and December 31, 2018, by level within the fair value hierarchy. The FHLBanks measure certain held-to-maturity securities and mortgage loans at fair value on a non-recurring basis due to the recognition of a credit loss. Real estate owned is measured using fair value when the asset's fair value less costs to sell is lower than its carrying amount.

(1) Amounts represent the application of the netting requirements that allow an FHLBank to settle positive and negative positions, and also cash collateral and related accrued interest held or placed by that FHLBank with the same clearing agent and/or counterparty.

(2) Represents financial instruments recorded under fair value option at September 30, 2019 and December 31, 2018.

(3) The fair value information presented is as of the date the fair value adjustment was recorded during the period.

Fair Value Option

The fair value option provides an irrevocable option to elect fair value as an alternative measurement for selected financial assets, financial liabilities, unrecognized firm commitments, and written loan commitments not previously carried at fair value. It requires entities to display the fair value of those assets and liabilities for which the entity has chosen to use fair value on the face of the statement of condition. Fair value is used for both the initial and subsequent measurement of the designated assets, liabilities and commitments, with the changes in fair value recognized in net income. Interest income and interest expense on advances and consolidated obligations at fair value are recognized solely on the contractual amount of interest due or unpaid. Any transaction fees or costs are immediately recognized into non-interest income or non-interest expense.

The FHLBanks of New York, Cincinnati, Chicago, and San Francisco (Electing FHLBanks) have each elected the fair value option for certain financial instruments when a hedge relationship does not qualify for hedge accounting or may be at risk for not meeting hedge effectiveness requirements. These fair value elections were made primarily in an effort to mitigate the potential income statement volatility that can arise when an economic derivative is adjusted for changes in fair value, but the related hedged item is not.

Table 15.4 presents net gains (losses) recognized in earnings related to financial assets and liabilities for which the fair value option was elected during the three and nine months ended September 30, 2019 and 2018.

Table 15.4 - Fair Value Option - Financial Assets and Liabilities
(dollars in millions)

Net Gains (Losses) from Changes in Fair Value Recognized in Earnings	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Advances	\$ 40	\$ (14)	\$ 177	\$ (89)
Mortgage loans held for sale(1)	—	(2)	—	(6)
Consolidated discount notes	(3)	—	(3)	—
Consolidated bonds	(3)	(2)	(75)	22
Total net gains (losses)	\$ 34	\$ (18)	\$ 99	\$ (73)

(1) Included in other assets on the Combined Statement of Condition.

For instruments for which the fair value option has been elected, the related contractual interest income, contractual interest expense, and the discount amortization on fair value option discount notes are recorded as part of net interest income on the Combined Statement of Income. The remaining changes in fair value for instruments for which the fair value option has been elected are recorded as net gains (losses) on financial instruments held under fair value option on the Combined Statement of Income, except for changes in fair value related to instrument specific credit risk, which are recorded in AOCI on the Combined Statement of Condition. Each of the Electing FHLBanks determined that none of the remaining changes in fair value were related to instrument specific credit risk during the three and nine months ended September 30, 2019 and 2018. In determining that there has been no change in instrument specific credit risk period to period, the Electing FHLBanks primarily considered the following factors:

- The FHLBanks are federally chartered GSEs, and as a result of this status, the FHLBanks' consolidated obligations have historically received the same credit ratings as the government bond credit rating of the United States, even though they are not obligations of the United States and are not guaranteed by the United States.
- Each FHLBank is jointly and severally liable with the other FHLBanks for the payment of principal and interest on all consolidated obligations of each of the FHLBanks.

Table 15.5 presents the difference between the aggregate fair value and the aggregate unpaid principal balance outstanding for advances, mortgage loans held for sale, and consolidated obligations for which the fair value option has been elected as of September 30, 2019 and December 31, 2018.

Table 15.5 - Aggregate Fair Value and Aggregate Unpaid Balance
(dollars in millions)

	September 30, 2019			December 31, 2018		
	Aggregate Fair Value	Aggregate Unpaid Principal Balance	Aggregate Fair Value Over/ (Under) Aggregate Unpaid Principal Balance	Aggregate Fair Value	Aggregate Unpaid Principal Balance	Aggregate Fair Value Over/ (Under) Aggregate Unpaid Principal Balance
Advances(1)	\$ 6,877	\$ 6,739	\$ 138	\$ 6,168	\$ 6,209	\$ (41)

(1) At September 30, 2019 and December 31, 2018, none of the advances were 90 days or more past due or had been placed on non-accrual status.

(2) Included in other assets on the Combined Statement of Condition.

Note 16 - Commitments and Contingencies

Off-Balance Sheet Commitments

Table 16.1 - Off-Balance Sheet Commitments
(dollars in millions)

Notional amount	September 30, 2019			December 31, 2018
	Expire Within One Year	Expire After One Year	Total	Total
Standby letters of credit notional amount(1)	\$ 137,254	\$ 29,944	\$ 167,198	\$ 165,839
Unsettled consolidated bonds, principal amount	5,304	—	5,304	1,283
Commitments to purchase mortgage loans	3,102	—	3,102	833
Commitments for standby bond purchases	412	2,194	2,606	2,332
Unused lines of credit - advances	2,337	—	2,337	2,337
Unsettled consolidated discount notes, principal amount	1,525	—	1,525	4,958
Commitments to fund additional advances	917	121	1,038	1,119
Other	2	—	2	2

(1) Excludes unconditional commitments to issue standby letters of credit of \$450 million and \$111 million at September 30, 2019 and December 31, 2018.

Standby Letters of Credit. An FHLBank issues standby letters of credit on behalf of its members to support certain obligations of the members (or member's customers) to third-party beneficiaries. These standby letters of credit are subject to the same collateralization and borrowing limits that are applicable to advances. Standby letters of credit may be offered to assist members in facilitating residential housing finance, community lending, and asset-liability management, and to provide liquidity. In particular, members often use standby letters of credit as collateral for deposits from federal, state, and local government agencies. Standby letters of credit are executed for members for a fee. If an FHLBank is required to make payment for a beneficiary's draw, the member either reimburses the FHLBank for the amount drawn or, subject to the applicable FHLBank's discretion, the amount drawn may be converted into a collateralized advance to the member. However, standby letters of credit usually expire without being drawn upon. At September 30, 2019, standby letters of credit have original expiration periods of up to 20 years, expiring no later than 2038. The carrying value of guarantees related to standby letters of credit are recorded in other liabilities and were \$129 million and \$150 million at September 30, 2019 and December 31, 2018.

Each FHLBank monitors the creditworthiness of its members that have standby letters of credit. In addition, standby letters of credit are subject to the same collateralization and borrowing limits that apply to advances and are fully collateralized at the time of issuance. As a result, each FHLBank has deemed it unnecessary to record any additional liability on these commitments.

Standby Bond-Purchase Agreements. Certain FHLBanks have entered into standby bond-purchase agreements with state housing authorities within their district whereby these FHLBanks agree to provide liquidity for a fee. If required, the affected FHLBanks will purchase and hold the state housing authority's bonds until the designated marketing agent can find a suitable investor or the state housing authority repurchases the bond according to a schedule established by the standby bond-purchase agreement. Each standby bond-purchase agreement dictates the specific terms that would require the affected FHLBank to purchase the bond. The standby bond-purchase commitments entered into by these FHLBanks have original expiration periods of up to seven years, currently expiring no later than 2026, although some are renewable at the option of the affected FHLBank. At both September 30, 2019 and December 31, 2018, the FHLBanks had standby bond-purchase commitments with 13 state housing authorities. During the nine months ended September 30, 2019 and 2018, the FHLBanks were not required to purchase any bonds under these agreements.

Pledged Collateral

Certain FHLBanks pledged securities, as collateral, related to derivatives. (See [Note 10 - Derivatives and Hedging Activities](#) for additional information about the FHLBanks' pledged collateral and other credit-risk-related contingent features.)

Legal Proceedings

The FHLBanks are subject to legal proceedings arising in the normal course of business. The FHLBanks would record an accrual for a loss contingency when it is probable that a loss has been incurred and the amount can be reasonably estimated. After consultation with legal counsel, management of each FHLBank does not anticipate that the ultimate liability, if any, arising out of these matters will have a material effect on its FHLBank's financial condition, results of operations, or cash flows.

Note 17 - Subsequent Events

Subsequent events have been evaluated from October 1, 2019, through the time of this Combined Financial Report publication. No significant subsequent events were identified, except for the declaration of dividends or repurchase or redemption of excess capital stock, which generally occur in the normal course of business unless there are regulatory or self-imposed restrictions.

- (1) Investments consist of interest-bearing deposits, securities purchased under agreements to resell, federal funds sold, trading securities, available-for-sale securities, and held-to-maturity securities.
- (2) FHLBank capital stock is redeemable at the request of a member subject to the statutory redemption periods and other conditions and limitations. (See [Note 13 - Capital](#) to the accompanying combined financial statements for additional information on the statutory redemption periods and other conditions and limitations.)
- (3) Dividend payout ratio is equal to dividends declared in the period expressed as a percentage of net income in the period. This ratio may not be as relevant to the combined balances because there are no shareholders at the FHLBank System-wide level.
- (4) Return on average equity is equal to net income expressed as a percentage of average total capital.
- (5) Mandatorily redeemable capital stock is not included in the calculations of return on average equity or average equity to average assets.
- (6) Net interest margin is equal to net interest income represented as a percentage of average interest-earning assets.
- (7) The regulatory capital-to-assets ratio is calculated based on the FHLBanks' regulatory capital as a percentage of total assets. (See [Note 13 - Capital](#) to the accompanying combined financial statements for a definition and discussion of regulatory capital.)

FINANCIAL DISCUSSION AND ANALYSIS OF COMBINED FINANCIAL CONDITION AND COMBINED RESULTS OF OPERATIONS

Investors should read this financial discussion and analysis of combined financial condition and combined results of operations together with the combined financial statements and the accompanying notes in this Combined Financial Report of the Federal Home Loan Banks (FHLBanks). Each FHLBank discusses its financial condition and results of operations in its periodic reports filed with the U.S. Securities and Exchange Commission (SEC). The results of operations for interim periods are not necessarily indicative of the results to be expected for the year ending December 31, 2019, or for any future period. The unaudited combined financial statements, included in this Combined Financial Report, should be read in conjunction with the audited combined financial statements for the year ended December 31, 2018, included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018.

Each FHLBank's Annual Report on SEC Form 10-K and Quarterly Report on SEC Form 10-Q contain, as required by applicable SEC rules, a "Management's Discussion and Analysis of Financial Condition and Results of Operations," commonly called MD&A. The SEC notes that one of the principal objectives of MD&A is "to provide a narrative explanation of a company's financial statements that enables investors to see the company through the eyes of management." Because there is no centralized management of the FHLBanks that can provide a system-wide "eyes of management" view of the FHLBanks as a whole, this Combined Financial Report does not contain a conventional MD&A. Instead, a "Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations" is prepared by the Office of Finance using information provided by each FHLBank. This Financial Discussion and Analysis does not generally include a separate discussion of how each FHLBank's operations affect the combined financial condition and combined results of operations. That level of information about each FHLBank is addressed in each respective FHLBank's periodic reports filed with the SEC. (See [Explanatory Statement about Federal Home Loan Banks Combined Financial Report](#) and [Supplemental Information - Individual Federal Home Loan Bank Selected Financial Data and Financial Ratios](#).)

The combined financial statements include the financial results of the FHLBanks. (See [Condensed Combining Schedules](#) for information regarding each FHLBank's results.) Transactions between the FHLBanks have been eliminated in accordance with combination accounting principles similar to consolidation under GAAP. (See [Note 1 - Summary of Significant Accounting Policies](#) to the accompanying combined financial statements for more information.)

Unless otherwise stated, dollar amounts disclosed in this Combined Financial Report represent values rounded to the nearest million. Dollar amounts rounding to less than one million are not reflected in this Combined Financial Report.

Forward-Looking Information

Statements contained in this report, including statements describing the objectives, projections, estimates, or future predictions of the FHLBanks and Office of Finance, may be "forward-looking statements." These statements may use forward-looking terminology, such as "anticipates," "believes," "could," "estimates," "expects," "may," "should," "will," "would," or their negatives or other variations on these terms. Investors should note that forward-looking statements, by their nature, involve risks or uncertainties, including those set forth in the *Risk Factors* on pages 21-29 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. Therefore, the actual results could differ materially from those expressed or implied in these forward-looking statements or could affect the extent to which a particular objective, projection, estimate, or prediction is realized.

These forward-looking statements involve risks and uncertainties including, but not limited to, the following:

- changes in the general economy, money and capital markets, the rate of inflation (or deflation), employment rates, housing market activity and housing prices, the size and volatility of the residential mortgage market, and uncertainty regarding the global economy;
- levels and volatility of market prices, interest rates, and indices or other factors that could affect the value of investments or collateral held by the FHLBanks resulting from the effects of, and changes in, various monetary or fiscal policies and regulations, including those determined by the Federal Reserve Board and the Federal Deposit Insurance Corporation (FDIC), or a decline in liquidity in the financial markets;

- political events, including legislative, regulatory, judicial, or other developments that affect the FHLBanks, their members, counterparties, dealers of consolidated obligations, or investors in consolidated obligations, including changes in the Federal Home Loan Bank Act of 1932, as amended (FHLBank Act), housing finance and government-sponsored enterprise (GSE) reform, Federal Housing Finance Agency (FHFA) actions, or regulations that affect FHLBank operations, regulatory oversight, and changes to, and replacement of, the London Interbank Offered Rate (LIBOR) benchmark interest rate, and the use and acceptance of the Secured Overnight Financing Rate (SOFR);
- competitive forces, including other sources of funding available to FHLBank members and other entities borrowing funds in the capital markets;
- disruptions in the credit and debt markets and the effect on the FHLBanks' funding costs, sources, and availability;
- demand for FHLBank advances resulting from changes in FHLBank members' deposit flows and credit demands;
- loss of members and repayment of advances made to those members due to institutional failures, consolidations, voluntary withdrawals, or involuntary terminations from FHLBank membership, and changes in the financial health of members;
- changes in domestic and foreign investor demand for consolidated obligations, including short-term funding, or the terms of derivative transactions and similar transactions, including changes in the relative attractiveness of consolidated obligations as compared to other investment opportunities, changes in the availability of other investment opportunities, changes in support from dealers of consolidated obligations, and changes resulting from any modification of the credit ratings of the U.S. government or the FHLBanks;
- the availability of acceptable institutional counterparties for business transactions, including derivative transactions used to manage interest-rate risk;
- the ability to introduce new products and services and successfully manage the risks associated with those products and services, including new types of collateral used to secure advances;
- the pace of technological change and the ability to develop, secure, and support technology and information systems to effectively manage the risks, including information security; and
- the effect of new accounting guidance, including the development of supporting systems and related internal controls.

Neither the FHLBanks nor the Office of Finance undertakes any obligation to publicly update or revise any forward-looking statements contained in this Combined Financial Report, whether as a result of new information, future events, changed circumstances, or any other reason.

Executive Summary

This executive summary highlights selected information and may not contain all of the information that is important to readers of this Combined Financial Report. For a more complete understanding of events, trends, and uncertainties, this executive summary should be read together with the Financial Discussion and Analysis section in its entirety and the FHLBanks' combined financial statements and related notes.

Overview

The FHLBanks are GSEs, federally-chartered, but privately capitalized and independently managed. The FHLBanks together with the Office of Finance, a joint office of the FHLBanks, comprise the FHLBank System. Each of the FHLBanks and the Office of Finance operate under the supervisory and regulatory framework of the FHFA.

The FHLBanks are cooperative institutions, meaning that their stockholders are also the FHLBanks' primary customers. FHLBank capital stock is not publicly traded; it is purchased by members from, and redeemed or repurchased by, an FHLBank at the stated par value of \$100 per share. The FHLBanks expand and contract in asset size as the needs of member financial institutions and their communities change over time.

Each FHLBank's primary business is to serve as a financial intermediary between the capital markets and its members. This intermediation process involves raising funds by issuing debt, known as consolidated obligations, in the capital markets and lending those proceeds to member institutions in the form of secured loans, known as advances. Each FHLBank's funding is principally obtained from consolidated obligations issued through the Office of Finance on behalf of the FHLBanks. Consolidated obligations are joint and several obligations of each FHLBank. FHLBank debt issuance is generally driven by members' needs for advances.

The FHLBanks seek to maintain a balance between their public policy mission and their goal of providing adequate returns on member capital. The FHLBanks strive to achieve this balance by providing value to their members through advances, mortgage loan purchases, other services, and dividend payments. The FHLBanks' primary sources of earnings are the net interest spread between the yield on interest-earning assets and the yield on interest-bearing liabilities, combined with earnings on invested capital. Due to the FHLBanks' cooperative structures, the FHLBanks generally earn a narrow net interest spread.

External Credit Ratings

The FHLBanks' ability to raise funds in the capital markets at narrow spreads to the U.S. Treasury yield curve is due largely to the FHLBanks' status as GSEs, which is reflected in their consolidated obligations receiving the same credit rating as the government bond credit rating of the United States, even though the consolidated obligations are not obligations of the United States and are not guaranteed by the United States. S&P Global Ratings (S&P), Moody's Investors Service (Moody's), or other rating organizations could downgrade or upgrade the credit rating of the U.S. government and GSEs, including the FHLBanks and their consolidated obligations. In addition to ratings on the FHLBanks' consolidated obligations, each FHLBank is rated individually by S&P and Moody's. Investors should note that a rating issued by a nationally recognized statistical rating organization is not a recommendation to buy, sell, or hold securities, and that the ratings may be revised or withdrawn by the rating organization at any time. Investors should evaluate the rating of each nationally recognized statistical rating organization independently. Investors should not take the historical or current ratings of the FHLBanks and their consolidated obligations as an indication of future ratings for the FHLBanks and their consolidated obligations. (See [External Credit Ratings](#) for more information.)

Business Environment

The primary external factors that affect the FHLBanks' combined financial condition and results of operations include (1) the general state of the economy and financial markets, (2) conditions in the U.S. housing markets, (3) interest rate levels and volatility, and (4) the legislative and regulatory environment.

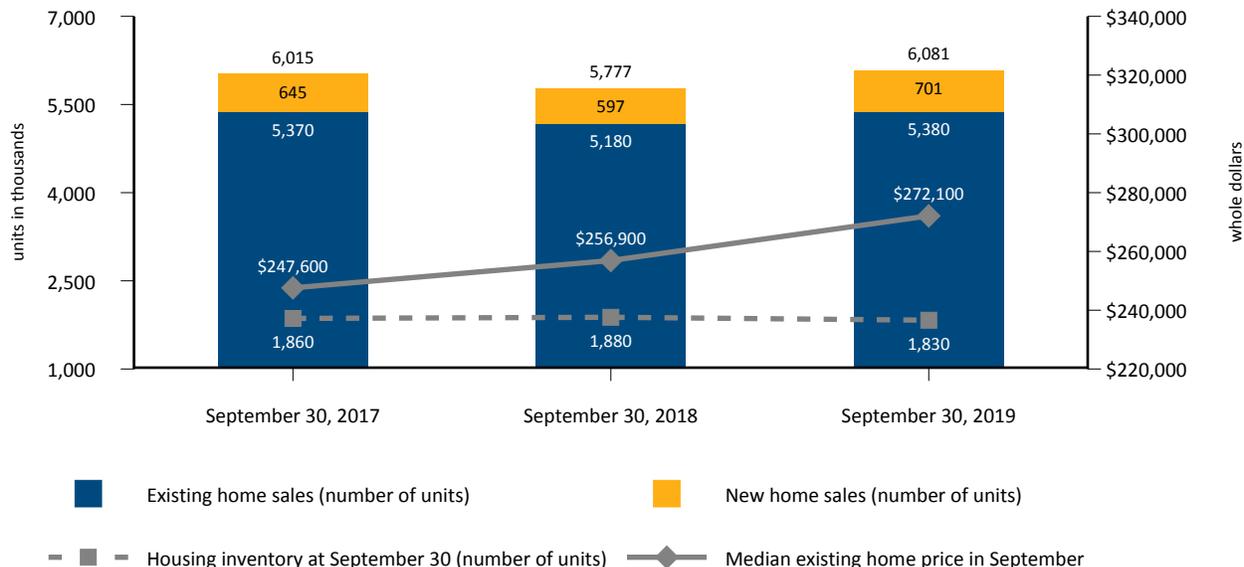

Economy and Financial Markets. The FHLBanks' overall results of operations are influenced by the economy and financial markets, and, in particular, by FHLBank members' demand for advances and the FHLBanks' ability to maintain sufficient access to diverse sources of funding at relatively favorable costs. The FHLBanks' flexibility in utilizing various funding tools, in combination with their diverse investor base and their status as GSEs, have helped ensure reliable market access and demand for consolidated obligations throughout fluctuating market environments and regulatory changes affecting dealers of and investors in consolidated obligations. The FHLBanks continued to meet their funding needs in response to demand for advances during the three and nine months ended September 30, 2019.

Economic and market data received by the Federal Reserve, prior to the Federal Open Market Committee meeting in September 2019, indicated that the U.S. labor market remains strong, U.S. economic activity is rising at a moderate rate, and, on a 12-month basis, overall inflation is below two percent. The Federal Open Market Committee, at its September 2019 meeting, stated that sustained expansion of economic activity, strong labor market conditions, and inflation around two percent are the most likely outcomes, but uncertainties about this outlook remain.

The Bureau of Labor Statistics reported that the U.S. unemployment rate was 3.5% in September 2019, compared to 3.9% in December 2018. U.S. real gross domestic product increased at an annual rate of 1.9% in the third quarter of 2019, according to the advance estimate reported by the Bureau of Economic Analysis, compared to an annual rate of 2.2% (third estimate) in the fourth quarter of 2018.

Conditions in U.S. Housing Markets. Conditions in the U.S. housing markets primarily affect the FHLBanks through the creation of demand for, and yield on, advances and mortgage loans, as well as the yield on investments in mortgage-backed securities. Figure 1 presents U.S. home sales, inventory, and prices. The seasonally adjusted annual rate of U.S. home sales increased in September 2019, compared to September 2018 and 2017, driven by low mortgage interest rates; however, low housing inventory and higher home prices continued to constrain sales growth.

Figure 1 - U.S. Home Sales, Inventory, and Prices

Source: National Association of REALTORS® for existing home sales, housing inventory, and median existing home price.
 Source: U.S. Department of Housing and Urban Development for new home sales.

Interest Rate Levels and Volatility. The level and volatility of interest rates affect FHLBank member demand for advances. In addition, credit spreads and the shape of the yield curve affect investor demand for consolidated obligations. These factors also impact the FHLBanks' combined results of operations, primarily affecting net interest income and the valuation of certain assets and liabilities.

The level and volatility of interest rates and credit spreads were affected by several factors during the three and nine months ended September 30, 2019. In the United States, overall economic conditions, monetary policy, and financial regulation continue to be influencing factors. In the third quarter of 2019, the Federal Reserve Board, acting through its Federal Open Market Committee, lowered the target range for the federal funds rate to 1.75% to 2.00%. In October 2019, the Federal Reserve Board, acting through its Federal Open Market Committee, lowered the target range for the federal funds rate to 1.50% to 1.75%, noting that it will continue to monitor the implications of incoming information for the economic outlook as it assesses the appropriate path of the target range for the federal funds rate.

In mid-September 2019, interest rates for U.S. Treasury repurchase agreements spiked, and the effective federal funds rate briefly moved above the Federal Open Market Committee's target range. In response, the Federal Open Market Committee began conducting temporary open market operations in order to keep the federal funds rate in the target range and to alleviate money market strains more generally. The FHLBanks lend in the U.S. Treasury repurchase and overnight federal funds markets, and also borrow overnight funds in the FHLBank discount notes market. This disruption did not materially affect the FHLBanks' combined financial condition or results of operations.

Table 1 presents the quarterly average and period-end rates for certain key interest rates. Quarterly average short-term interest rates generally trended higher during the three and nine months ended September 30, 2019, compared to the three and nine months ended September 30, 2018, impacting the FHLBanks' combined results of operations, primarily decreasing net interest income and net interest margin. However, at September 30, 2019, both short- and long-term quarter-end rates trended lower compared to December 31, 2018, primarily affecting the fair values of certain assets and liabilities. In addition, the yield curve became inverted in May 2019, and remained inverted during the third quarter of 2019, as short-term rates were higher than longer-term rates.

Table 1 - Key Interest Rates

	Three-Month Average		Nine-Month Average		Period End	
	September 30, 2019	September 30, 2018	September 30, 2019	September 30, 2018	September 30, 2019	December 31, 2018
Federal Funds Effective	2.20%	1.92%	2.33%	1.70%	1.90%	2.40%

Source: Bloomberg

During the three and nine months ended September 30, 2019, the cost of newly issued consolidated obligations increased, as measured by the average indicative spreads to three-month LIBOR, compared to the three and nine months ended September 30, 2018.

Table 2 - Funding Spreads to Three-Month LIBOR
(in basis points)

Borrowing Term	Three-Month Average		Nine-Month Average		Ending Spread	
	September 30, 2019	September 30, 2018	September 30, 2019	September 30, 2018	September 30, 2019	December 31, 2018
3-months	(15.2)	(25.5)	(18.1)	(34.5)	(19.1)	(33.2)
2-years	5.1	(12.2)	(0.7)	(14.7)	3.4	(8.9)
5-years	13.0	(1.5)	9.2	(1.5)	13.0	11.8
10-years	41.4	29.5	40.2	29.5	36.3	45.4

Source: Funding spreads are derived using Office of Finance indications compared to LIBOR.

In July 2017, the United Kingdom's Financial Conduct Authority, which regulates LIBOR, announced that after 2021 it will no longer persuade or compel banks to submit rates for the calculation of LIBOR. In response, the Federal Reserve Board and the Federal Reserve Bank of New York convened the Alternative Reference Rates Committee to identify a set of alternative reference interest rates for possible use as market benchmarks. This committee has proposed SOFR as its recommended alternative to U.S. dollar LIBOR, and the Federal Reserve Bank of New York began publishing SOFR rates in the second quarter of 2018. (See [Quantitative and Qualitative Disclosures about Market Risk](#) for more information on the transition from LIBOR and the use of SOFR as an alternative market benchmark.)

Legislative and Regulatory Environment. Potential legislative and regulatory changes, as well as other rules and regulations issued by the FHFA, could adversely affect the FHLBanks, FHLBank members, counterparties, and dealers of and investors in consolidated obligations. The FHLBanks' business operations, funding costs, rights, obligations, and the environment in which the FHLBanks carry out their mission could be significantly affected by these changes. (See [Legislative and Regulatory Developments](#) for more information.)

FHLBanks' Financial Highlights

Combined Financial Condition. Total assets were \$1,085.9 billion at September 30, 2019, a decrease of 1.5% from \$1,102.9 billion at December 31, 2018.

- Advances totaled \$658.8 billion at September 30, 2019, a decrease of 9.6% from \$728.8 billion at December 31, 2018. Commercial banks represented the largest segment of member borrowers with 60.0% of the total principal amount of advances outstanding at September 30, 2019, compared to 64.5% at December 31, 2018. The top 10 advance holding company borrowers represented 29.8% of the total principal amount of advances outstanding at September 30, 2019, compared to 34.7% at December 31, 2018. The FHLBanks protect against credit risk on advances by collateralizing all advances. At September 30, 2019, each FHLBank had rights to collateral with an estimated value greater than the related outstanding advances.
- Investments were \$351.7 billion at September 30, 2019, an increase of 14.6% from \$306.8 billion at December 31, 2018, driven by an increase in liquidity investments, primarily U.S. Treasury obligations. The FHLBanks maintain investment portfolios to provide funds to meet the credit needs of their members, maintain liquidity, and earn interest income.
- Mortgage loans held for portfolio, net, increased to \$69.4 billion at September 30, 2019, an increase of 11.0% from \$62.5 billion at December 31, 2018, as the FHLBanks continued to grow their mortgage loan portfolios. Mortgage loan purchases of \$14.3 billion outpaced principal repayments of \$7.3 billion during the nine months ended September 30, 2019. An FHLBank may purchase mortgage loans to support the FHLBank's housing mission, provide an additional source of liquidity to its members, diversify its investments, and generate additional earnings.

Total liabilities were \$1,030.3 billion at September 30, 2019, a decrease of 1.4% from \$1,044.5 billion at December 31, 2018, primarily the result of a decrease in consolidated obligations.

- Consolidated obligations totaled \$1,010.8 billion at September 30, 2019, a decrease of 1.8% from \$1,029.5 billion at December 31, 2018, in line with the decrease in total assets and consisting of an 8.8% decrease in consolidated discount notes, partially offset by a 3.1% increase in consolidated bonds. Consolidated obligations are the principal funding source used by the FHLBanks to make advances and to purchase mortgage loans and investments.

Total GAAP capital was \$55.6 billion at September 30, 2019, a decrease of 4.7% from \$58.3 billion at December 31, 2018, driven primarily by a decrease in capital stock. The GAAP capital-to-assets ratio was 5.12% and the regulatory capital-to-assets ratio was 5.23% at September 30, 2019, compared to 5.29% and 5.36% at December 31, 2018. Each FHLBank was in compliance with FHFA regulatory capital requirements at September 30, 2019.

- Capital stock was \$35.2 billion at September 30, 2019, a decrease of 8.6% from \$38.5 billion at December 31, 2018, resulting from the net repurchases and redemptions of activity-based capital stock driven primarily by the decrease in advances.

Combined Results of Operations. Net income was \$689 million and \$2,298 million for the three and nine months ended September 30, 2019, decreases of \$253 million and \$473 million, or 26.9% and 17.1%, compared to the three and nine months ended September 30, 2018, primarily the result of decreases in net interest income.

Net interest income after provision for credit losses was \$1,081 million and \$3,457 million for the three and nine months ended September 30, 2019, decreases of \$259 million and \$479 million, or 19.3% and 12.2%, compared to the three and nine months ended September 30, 2018. Net interest margin was 0.40% and 0.43% for the three and nine months ended September 30, 2019, decreases of 9 and 4 basis points compared to the three and nine months ended September 30, 2018.

Non-interest income was \$41 million and \$137 million for the three and nine months ended September 30, 2019, increases of \$1 million and \$34 million, or 2.5% and 33.0%, compared to the three and nine months ended September 30, 2018, due primarily to net gains on investment securities and net gains on financial instruments held under fair value option, partially offset by net losses on derivatives and hedging activities.

Non-interest expense consists principally of compensation and benefits and other operating expenses. Non-interest expense was \$355 million and \$1,035 million for the three and nine months ended September 30, 2019, increases of \$24 million and \$81 million, or 7.3% and 8.5%, compared to the three and nine months ended September 30, 2018.

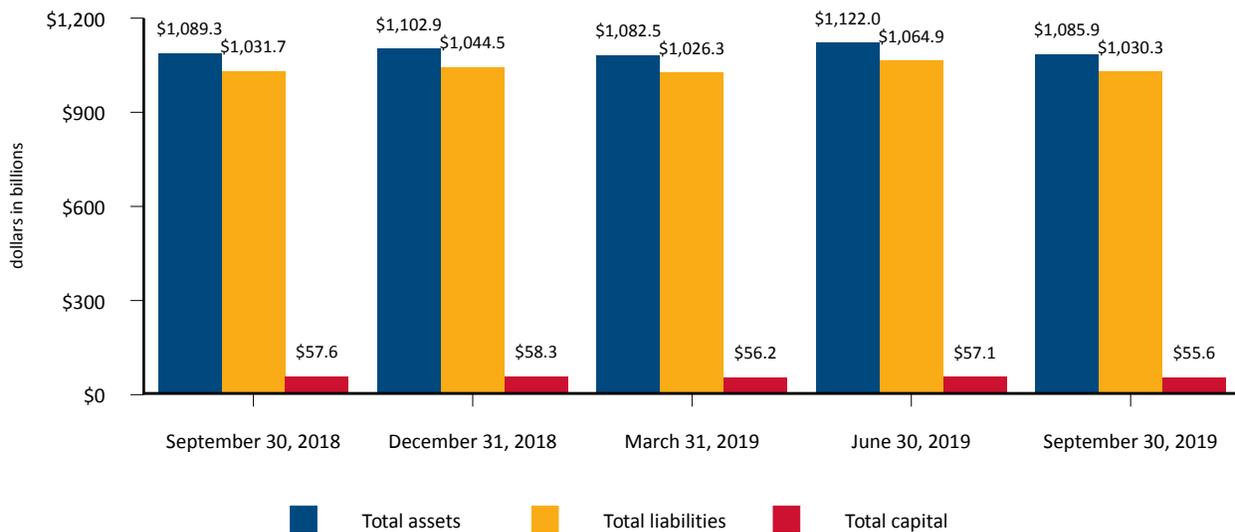

Affordable Housing Program assessments result from individual FHLBank income subject to assessment. Affordable Housing Program assessments were \$78 million and \$261 million for the three and nine months ended September 30, 2019, decreases of \$29 million and \$53 million, or 27.1% and 16.9%, compared to the three and nine months ended September 30, 2018.

See [Combined Financial Condition](#) and [Combined Results of Operations](#) for further information.

Combined Financial Condition

The FHLBanks' asset composition includes cash and due from banks, investments, advances, mortgage loans held for portfolio, and other assets. The FHLBanks' liability composition includes deposits, consolidated discount notes, consolidated bonds, mandatorily redeemable capital stock, and other liabilities. The FHLBanks' capital composition includes capital stock, retained earnings, and accumulated other comprehensive income (loss) (AOCI). Figure 2 presents the total assets, liabilities, and capital for the most recent five quarters.

Figure 2 - Total Assets, Liabilities, and Capital

Figures 3 and 4 present the total assets and total liabilities and capital composition at September 30, 2019.

Figure 3 - Total Assets (dollars in billions)

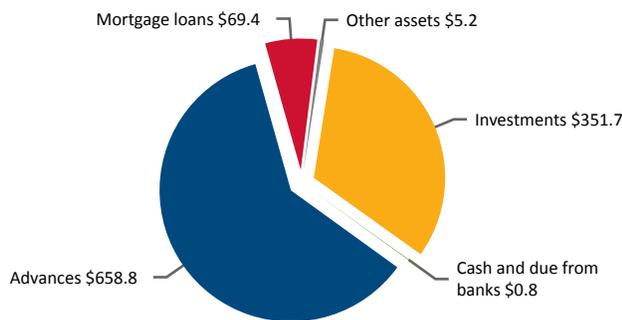

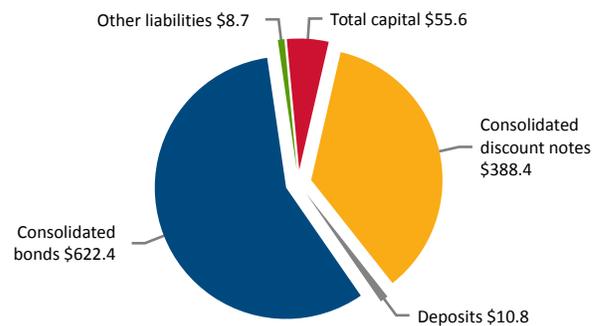

Figure 4 - Total Liabilities and Capital (dollars in billions)

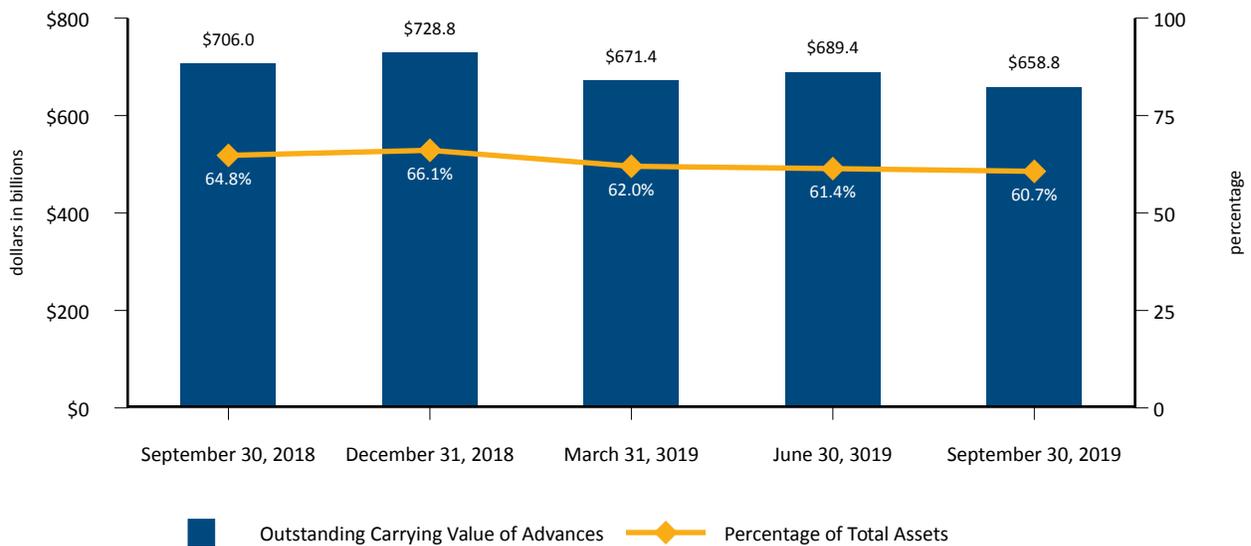

The following discussion contains information on the major categories of the Combined Statement of Condition: advances, investments, mortgage loans, consolidated obligations, deposits, and capital.

- Total assets were \$1,085.9 billion at September 30, 2019, a decrease of 1.5% from \$1,102.9 billion at December 31, 2018.
- Total liabilities were \$1,030.3 billion at September 30, 2019, a decrease of 1.4% from \$1,044.5 billion at December 31, 2018.
- Total GAAP capital was \$55.6 billion at September 30, 2019, a decrease of 4.7% from \$58.3 billion at December 31, 2018.

Advances

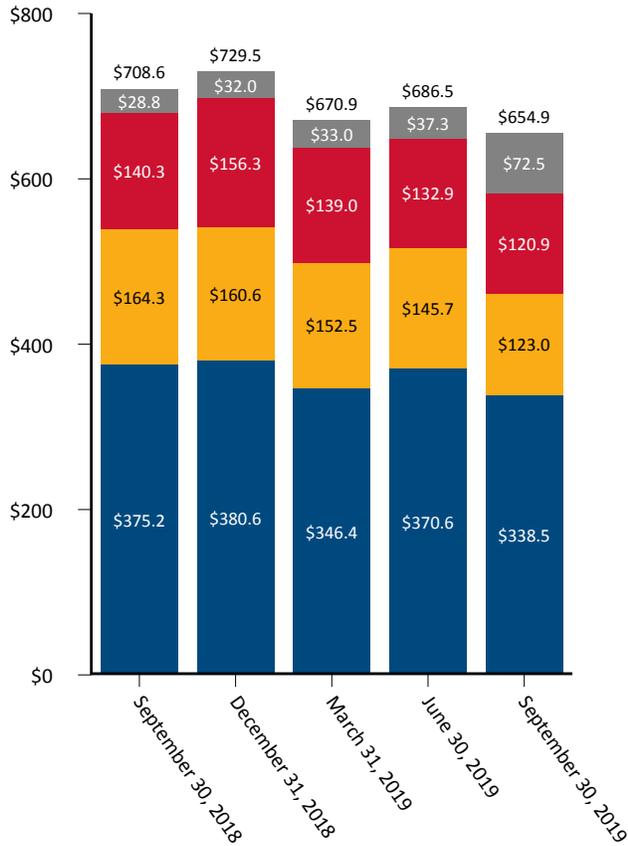

The FHLBanks provide funding to members and housing associates through secured loans (advances), which may be used for residential mortgages, community investments, and other services for housing and community development. Each FHLBank makes advances based on the security of mortgage loans and other types of eligible collateral pledged by, and the creditworthiness and financial condition of, the borrowing institutions. Figure 5 presents advances for the most recent five quarters.

Figure 5 - Advances Outstanding (Carrying Value)

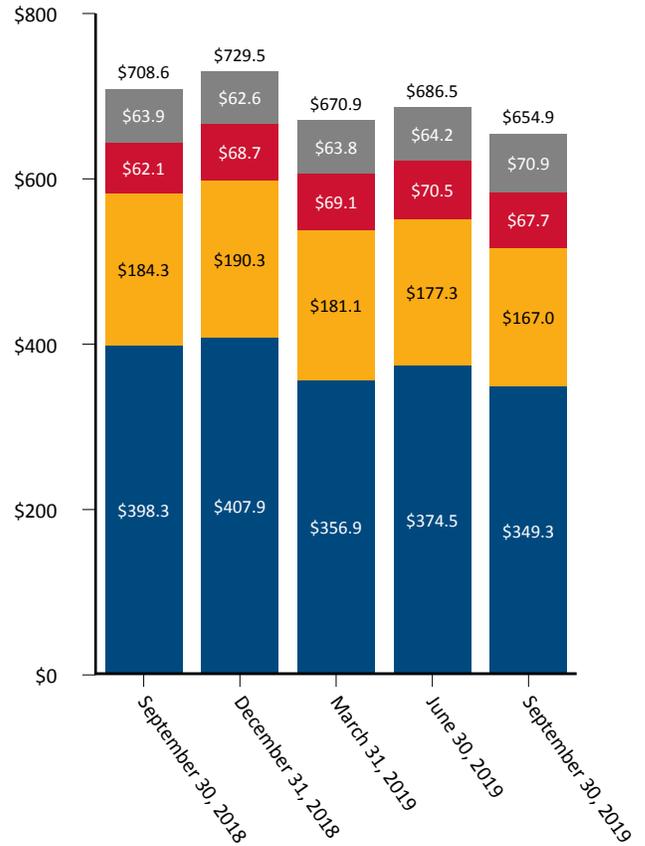

The outstanding carrying value of advances totaled \$658.8 billion at September 30, 2019, a decrease of \$70.0 billion, or 9.6%, from \$728.8 billion at December 31, 2018, due primarily to a decrease in short-term advances, principally those made to large members. The percentage of members with outstanding advances was 53.8% at September 30, 2019, compared to 56.8% at December 31, 2018. Figures 6 and 7 present the principal amount of advances by product type and by redemption term for the most recent five quarters.

Table 3 presents advances outstanding by product type and redemption term, some of which include advances that contain embedded put or call options. A member either can sell an embedded option to an FHLBank or it can purchase an embedded option from an FHLBank. (See [Note 7 - Advances](#) to the accompanying combined financial statements for additional information on puttable and callable advances and their potential effects on advance redemptions.)

Table 3 - Types of Advances by Redemption Term
(dollars in millions)

	September 30, 2019		December 31, 2018		Change	
	Amount	Percentage	Amount	Percentage	Amount	Percentage

Other adjustments(3)	3,866		(734)			
Total advances	\$ 658,756		\$ 728,767			

(1) Prepayable advances are those advances that may be contractually prepaid by the borrower on specified dates without incurring prepayment or termination fees.

(2) Includes hybrid, fixed-rate amortizing/mortgage matched, convertible, fixed-rate callable or prepayable, and other advances.

(3) Consists of hedging and fair value option valuation adjustments, and unamortized premiums, discounts, and commitment fees.

Certain of the FHLBanks have begun to offer SOFR-linked advances to their members. Table 4 presents the principal amount of variable-rate advances by interest-rate index and LIBOR-indexed advances by redemption term at September 30, 2019. (See [Quantitative and Qualitative Disclosures about Market Risk](#) for more information on the transition from LIBOR and the use of SOFR as an alternative market benchmark.)

Table 4 - Variable-Rate Advances by Interest-Rate Index and LIBOR-Indexed Advances by Redemption Term
(dollars in millions)

LIBOR	\$ 149,061
SOFR	2,757
Other	94,561
Total principal amount of variable-rate advances	<u>\$ 246,379</u>
LIBOR-Indexed Advances by Redemption Term	
Due in 2019	\$ 26,144
Due in 2020	73,035
Due in 2021	36,694
Due in 2022 and thereafter	13,188
Total principal amount of LIBOR-indexed advances	<u>\$ 149,061</u>

Table 5 presents cash flows related to advance originations and advance repayments. During the three and nine months ended September 30, 2019, advance repayments exceeded originations, resulting in lower advances outstanding. Both advance originations and advance repayments decreased during the three and nine months ended September 30, 2019, compared to the three and nine months ended September 30, 2018, driven by a decrease in short-term advance activity.

Table 5 - Advance Originations and Repayments

Total principal amount	<u>\$ 654,890</u>		<u>\$ 729,501</u>	
Total members		<u>6,787</u>		<u>6,863</u>

(1) Includes \$20.2 billion and \$20.9 billion of the principal amount of advances outstanding to captive insurance members at September 30, 2019 and December 31, 2018.

Figures 8 and 9 present the percentage of principal amount of advances by type of borrower and percentage of member borrowers by type of member at September 30, 2019.

Figure 8 - Percentage of Principal Amount of Advances by Type of Borrower

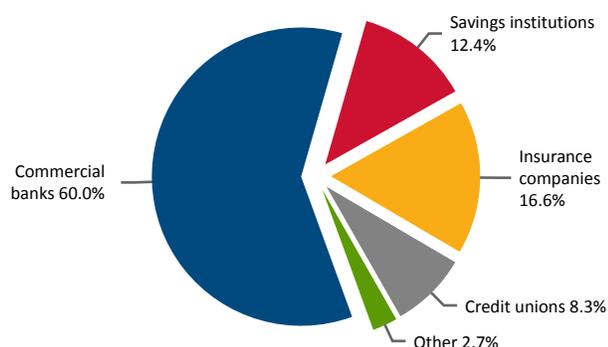

Figure 9 - Percentage of Member Borrowers by Type of Member

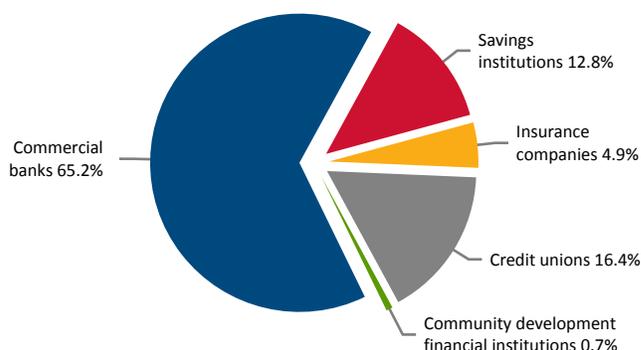

Table 7 presents the FHLBanks' top 10 advance holding borrowers at the holding-company level on a combined basis based on the principal amount of advances outstanding at September 30, 2019. The percentage of total advances for each holding company was computed by dividing the principal amount of advances by subsidiaries of that holding company by the principal amount of total combined advances. These percentage concentrations do not represent borrowing concentrations in an individual FHLBank.

Table 7 - Top 10 Advance Holding Borrowers by Holding Company at September 30, 2019
(dollars in millions)

Holding Company Name(1)	FHLBank Districts(2)	Principal Amount	Percentage of Total Principal Amount of Advances
Wells Fargo & Company	Des Moines, San Francisco	\$ 38,941	5.9%
JPMorgan Chase & Co.	Pittsburgh, Cincinnati, Chicago, Des Moines, San Francisco	32,165	4.9%

MetLife, Inc.	Boston, New York, Pittsburgh, Des Moines	15,970	2.4%
Citigroup Inc.	New York	14,945	2.3%
Mitsubishi UFJ Financial Group, Inc.	San Francisco	14,100	2.2%
New York Community Bancorp, Inc.	New York	12,172	1.9%
Navy Federal Credit Union	Atlanta	11,469	1.8%
		<u>\$ 194,980</u>	<u>29.8%</u>

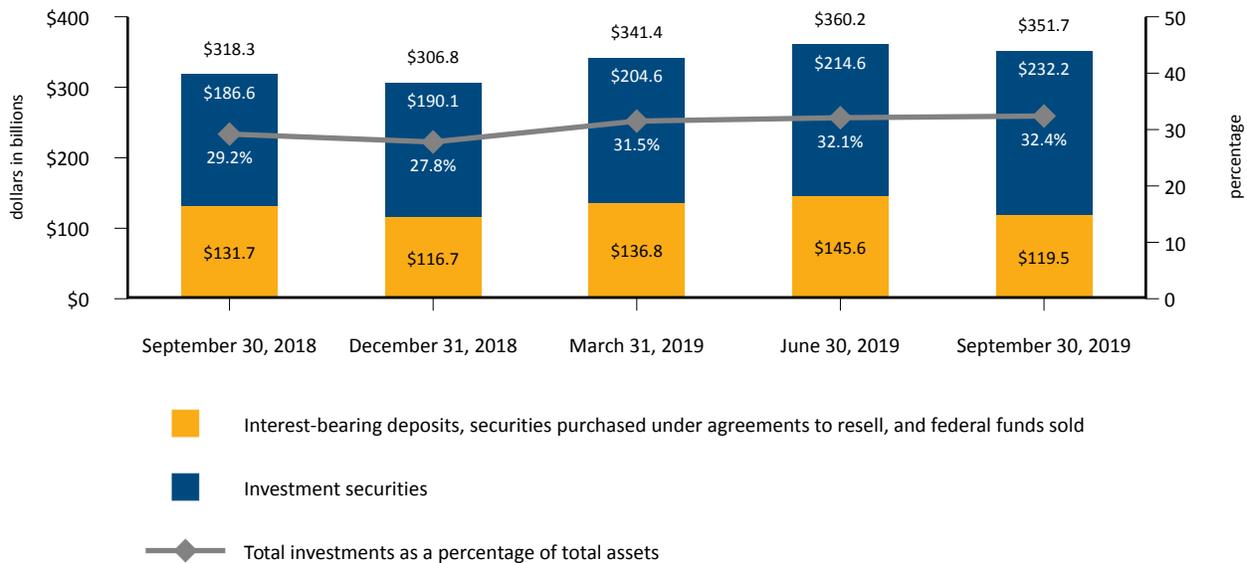

(1) Holding company information was obtained from the Federal Reserve System's web site, the National Information Center (NIC), and SEC filings. The NIC is a central repository of data about banks and other institutions for which the Federal Reserve System has a supervisory, regulatory, or research interest, including both domestic and foreign banking organizations operating in the United States.

(2) At September 30, 2019, each holding company had subsidiaries with advance borrowings in these FHLBank districts.

Investments

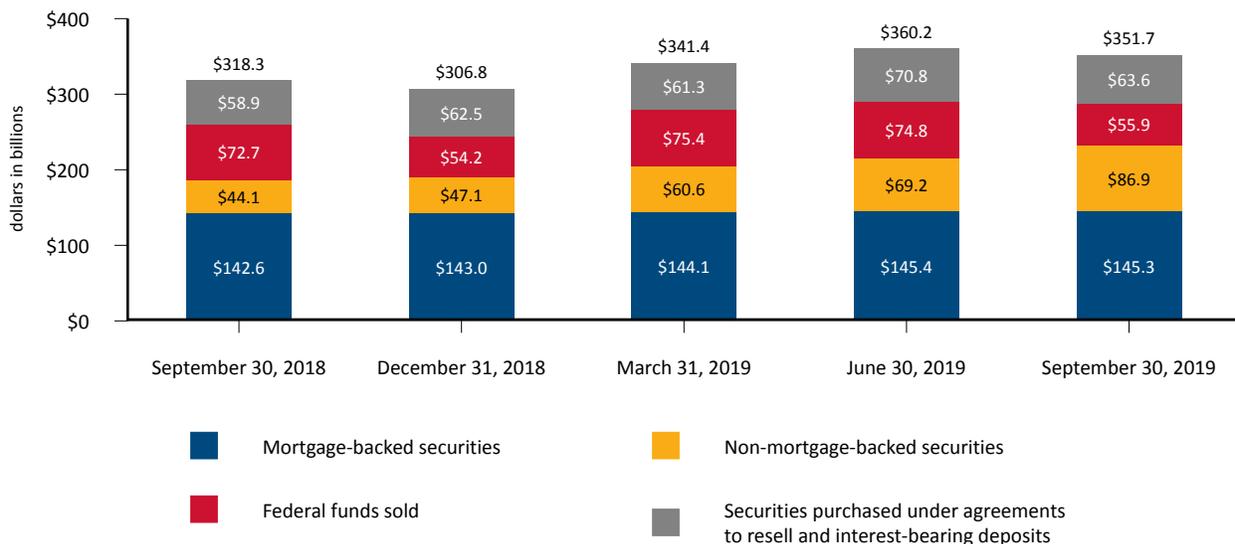

The FHLBanks maintain investment portfolios for liquidity purposes and to generate additional earnings. The income from these investment portfolios also bolsters the FHLBanks' capacity to support affordable housing and community investment. The FHLBanks invest in investment-quality securities to mitigate credit risk inherent in these portfolios. FHFA regulations prohibit the FHLBanks from investing in certain types of securities and limit the FHLBanks' investment in mortgage-backed securities (MBS) and asset-backed securities (ABS). (See [Risk Management - Credit Risk - Investments](#) for additional information.) Figure 10 presents total investments for the most recent five quarters.

Figure 10 - Total Investments (Carrying Value)

Total investments were \$351.7 billion at September 30, 2019, an increase of \$44.9 billion, or 14.6%, from \$306.8 billion at December 31, 2018, driven by an increase in liquidity investments, primarily U.S. Treasury obligations. (See [Liquidity and Capital Resources](#) for additional information.) Figure 11 presents the composition of investments by product type for the most recent five quarters.

Figure 11 - Investments by Product Type

The FHLBanks maintain short-term investment portfolios, the proceeds of which may provide funds to meet the credit needs of their members and to maintain liquidity. These portfolios may include:

- interest-bearing deposits;
- securities purchased under agreements to resell;
- federal funds sold;
- certificates of deposit;
- U.S. obligations; and
- GSE obligations.

The yield earned on these short-term investments is highly correlated with short-term market interest rates. At September 30, 2019, the FHLBanks continued to maintain significant short-term investment balances as part of their ongoing investment strategy and to satisfy liquidity needs. (See [Liquidity and Capital Resources](#) for further discussion related to liquidity management.)

The FHLBanks maintain long-term investment portfolios as an additional source of liquidity and to earn interest income. These investments generally provide the FHLBanks with higher returns than those available on short-term investments. These portfolios may include:

- U.S. obligations;
- GSE obligations;
- Agency obligations; and
- Other MBS and ABS.

Table 8 presents the composition of investments, including investment securities, at September 30, 2019 and December 31, 2018.

The FHLBanks classify investment securities as held-to-maturity (HTM), available-for-sale (AFS), or trading securities. The interest-rate and prepayment risks associated with these investment securities are managed through a combination of debt issuance and derivatives. An FHLBank may manage the prepayment and interest-rate risks by funding investment securities with consolidated obligations that have call features or by hedging the prepayment risk with caps or floors, callable swaps, or swaptions. An FHLBank may manage prepayment and duration risk by funding investment securities with consolidated obligations that contain call features. An FHLBank may also manage the risk arising from changing market prices and volatility of investment securities by matching the cash outflow on the derivatives with the cash inflow on the investment securities. Derivatives held by an FHLBank that are associated with trading and HTM securities are designated as economic hedges, and derivatives held by an FHLBank associated with AFS securities may qualify as either a fair value hedge or a cash flow hedge, or may be designated as an economic hedge. (See [Note 10 - Derivatives and Hedging Activities](#) to the accompanying combined financial statements for additional information.) Figure 12 summarizes the interest-rate payment terms of investment securities by product type for the most recent five quarters. (Trading securities are presented at fair value; AFS and HTM securities are presented at amortized cost.)

Figure 12 - Interest-Rate Payment Terms of Investment Securities by Product Type

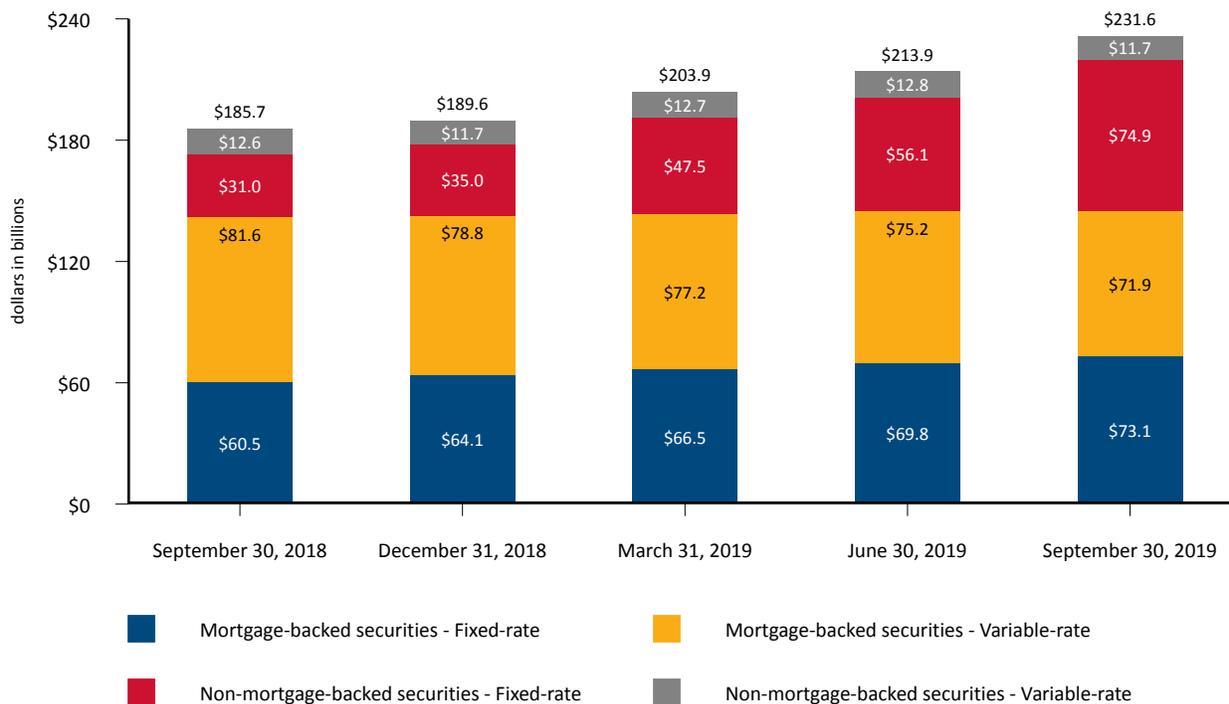

Table 9 presents the interest-rate payment terms of investment securities at September 30, 2019 and December 31, 2018.

Total principal amount of LIBOR-indexed investment securities	<u>\$ 9,170</u>	<u>\$ 71,432</u>	<u>\$ 80,602</u>

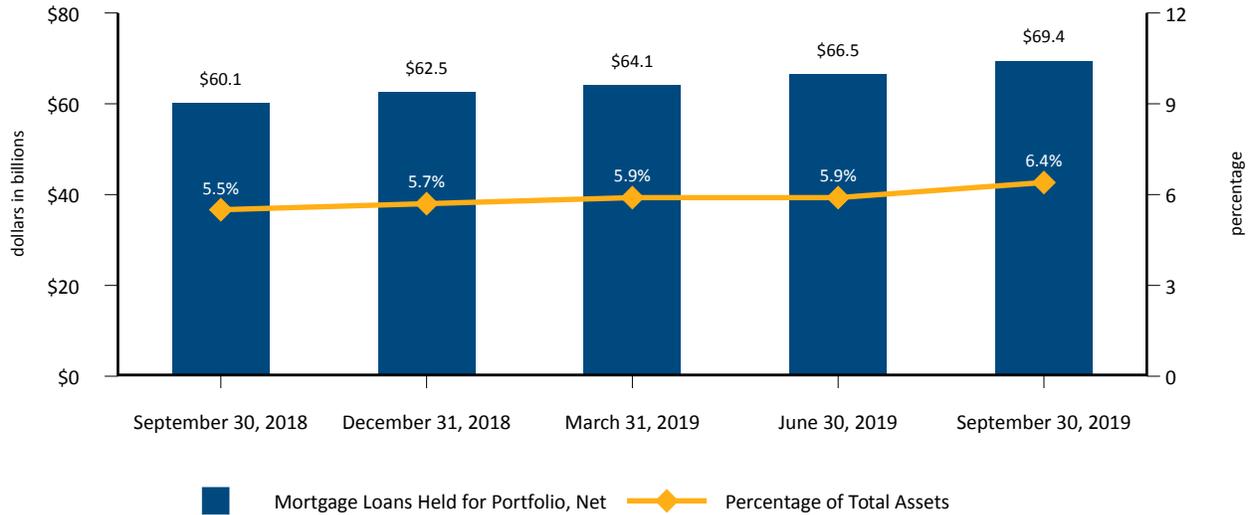

(1) Federal Family Education Loan Program ABS and MBS are presented by contractual maturity. However, their expected maturities will likely differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment fees.

Limits on Certain Investments. FHFA regulations prohibit an FHLBank from purchasing MBS/ABS if its investment in these securities exceeds 300% of that FHLBank's previous month-end regulatory capital on the day it intends to purchase the securities. Each of the FHLBanks was in compliance with the regulatory requirement at the time of its respective securities purchases. However, at September 30, 2019, each of the FHLBanks of Cincinnati and Dallas exceeded the 300% regulatory limit and was precluded from purchasing additional MBS/ABS investments until its respective MBS/ABS to total regulatory capital percentage declined below 300%. Neither of these FHLBanks was required to sell any previously purchased securities. On a combined basis, the FHLBanks' percentage of MBS/ABS (net of regulatory excluded MBS) was 261% of total combined regulatory capital at September 30, 2019.

Mortgage Loans Held for Portfolio, Net

An FHLBank may purchase mortgage loans to support the FHLBank's housing mission, provide an additional source of liquidity to FHLBank members, diversify its investments, and generate additional earnings. The two primary programs are the Mortgage Purchase Program (MPP) and the Mortgage Partnership Finance® (MPF) Program. (See [Risk Management - Credit Risk - Mortgage Loans Held for Portfolio](#) for more information.) Figure 13 presents mortgage loans held for portfolio, net, for the most recent five quarters.

Figure 13 - Mortgage Loans Held for Portfolio, Net (Carrying Value)

Mortgage loans grew to \$69.4 billion at September 30, 2019, an increase of 11.0% from \$62.5 billion at December 31, 2018. During the nine months ended September 30, 2019, mortgage loan purchases of \$14.3 billion outpaced principal repayments of \$7.3 billion, as the FHLBanks continued to grow their mortgage loan portfolios. The allowance for credit losses on mortgage loans was \$15 million at September 30, 2019, unchanged compared to December 31, 2018.

Table 11 - Mortgage Loans Held for Portfolio, Net
(dollars in millions)

	September 30, 2019	December 31, 2018	Change
Mortgage loans held for portfolio	\$ 69,432	\$ 62,549	\$ 6,883

Mortgage loans held for portfolio, net	<u>\$ 69,417</u>	<u>\$ 62,534</u>	<u>\$ 6,883</u>

At September 30, 2019, the FHLBank of Atlanta was not accepting additional master commitments to acquire loans for its own portfolio. The FHLBank of Des Moines was not accepting additional master commitments to purchase mortgage loans under the MPP at September 30, 2019, and expects the balance of its existing MPP loans, acquired through the merger with the FHLBank of Seattle, to decrease as they are paid off. The remaining FHLBanks participating in the MPP and MPF Program continue to have the ability to purchase both conventional and government-guaranteed or -insured fixed-rate mortgage loans.

Allowance for Credit Losses on Mortgage Loans. Table 12 presents the risk elements and credit losses of mortgage loans held for portfolio. Periodically, each FHLBank evaluates the allowance for credit losses for its mortgage loans based on its policies and procedures to determine if an allowance for credit losses is necessary.

Table 12 - Mortgage Loans Held for Portfolio - Risk Elements and Credit Losses
(dollars in millions)

Allowance for credit losses, beginning of period	\$ 15	\$ 16
Charge-offs, net of recoveries	(2)	(3)
Provision (reversal) for credit losses	2	2
Allowance for credit losses, end of period	\$ 15	\$ 15

See [Note 9 - Allowance for Credit Losses](#) to the accompanying combined financial statements and [Note 1 - Summary of Significant Accounting Policies](#) on pages F-18 to F-19 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for more information.

Consolidated Obligations

Consolidated obligations consist of consolidated bonds and consolidated discount notes, which are joint and several obligations of all FHLBanks. The FHLBanks issue consolidated obligations through the Office of Finance as their agent. Consolidated obligations are the principal funding source used by the FHLBanks to make advances and to purchase mortgage loans and investments. Figure 14 presents consolidated bonds and consolidated discount notes for the most recent five quarters.

Figure 14 - Consolidated Obligations Outstanding (Carrying Value)

The carrying value of consolidated obligations totaled \$1,010.8 billion at September 30, 2019, a decrease of \$18.7 billion, or 1.8%, from \$1,029.5 billion at December 31, 2018, in line with the decrease in total assets and consisting of an 8.8% decrease in consolidated discount notes, partially offset by a 3.1% increase in consolidated bonds.

Consolidated bonds may be issued to raise short-, intermediate-, or long-term funds. Consolidated bonds are issued with either fixed-rate coupon payment terms, or variable-rate coupon payment terms that are indexed primarily to LIBOR or SOFR, and have maturities ranging from three months to 30 years. The carrying value of consolidated bonds was \$622.4 billion at September 30, 2019, an increase of \$18.9 billion, or 3.1%, from \$603.5 billion at December 31, 2018. Consolidated bonds represented 61.6% and 58.6% of total consolidated obligations outstanding at September 30, 2019 and December 31, 2018.

Consolidated discount notes are issued to provide short-term funding and have a maturity range of one day to one year. They are generally issued below face value and mature at face value. A significant portion of consolidated discount note activity typically results from the refinancing of maturing discount notes. The carrying value of consolidated discount notes was \$388.4 billion at September 30, 2019, a decrease of \$37.7 billion, or 8.8%, from \$426.0 billion at December 31, 2018. Consolidated discount notes represented 38.4% and 41.4% of total consolidated obligations outstanding at September 30, 2019 and December 31, 2018.

Figures 15 and 16 present the principal amount of consolidated obligations by product type and by contractual maturity for the most recent five quarters.

Table 15 presents cash flows related to consolidated obligations, which illustrates payments exceeding proceeds for the three and nine months ended September 30, 2019 and 2018, resulting in lower consolidated obligations outstanding. The volume of both net proceeds and total payments of consolidated obligations increased during the three months ended September 30, 2019, compared to the three months ended September 30, 2018, due primarily to an increase in consolidated bond redemptions and an increase in the issuance of discount notes maturing in 30 days or less. The volume of both net proceeds and total payments of consolidated obligations decreased during the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, due primarily to a decrease in the issuance of discount notes driven by a decrease in short-term advance activity.

Consolidated bonds often have investor-determined features. The decision to issue a consolidated bond using a particular structure is based on the desired amount of funding and the ability of the FHLBank(s) receiving the proceeds of the consolidated bond to hedge the risks. This strategy of issuing consolidated obligations while simultaneously entering into derivative transactions enables an FHLBank to offer a wider range of attractively priced advances to its members and may allow an FHLBank to reduce its funding costs. The continued attractiveness of this strategy depends on yield relationships between the FHLBanks' consolidated obligations and the derivatives markets. If conditions change, an FHLBank may alter the types or terms of the consolidated obligations that it issues. The increase in funding alternatives available to the FHLBanks through negotiated debt/swap transactions is beneficial to the FHLBanks because it may diversify the investor base, reduce funding costs, and/or provide additional asset/liability management tools.

Table 16 presents the bond types the FHLBanks issued for their bond funding needs. The types of consolidated bonds issued can fluctuate based on comparative changes in their cost levels, supply and demand conditions, advance demand, and the FHLBanks' individual balance sheet management strategies. During the three and nine months ended September 30, 2019, investor preference for variable-rate consolidated obligations declined compared to the three and nine months ended September 30, 2018. Investor expectations that interest rates will decrease resulted in a decline in demand for variable-rate consolidated obligations.

Table 16 - Percentage of Total Consolidated Bonds Issued by Bond Type

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Single-index, variable-rate(1)	59.3%	78.7%	67.3%	84.0%
Fixed-rate, callable	26.1%	5.5%	18.1%	4.7%
Fixed-rate, noncallable	14.5%	10.0%	14.4%	9.0%
Step-up/step-down(2)	0.1%	5.8%	0.2%	2.3%
Total	100.0%	100.0%	100.0%	100.0%

(1) Includes SOFR-linked consolidated bonds of \$75.6 billion and \$132.0 billion, which represent 78.4% and 44.3% of the single-index variable-rate consolidated bonds issued during the three and nine months ended September 30, 2019.

(2) Primarily consists of step-up bonds.

Deposits

The FHLBanks offer demand and overnight deposit programs to members and to qualifying non-members. In addition, certain FHLBanks offer short-term interest-bearing deposit programs to members, and in certain cases, to qualifying non-members. Deposits represent a relatively small portion of the FHLBanks' funding, totaling \$10.8 billion at September 30, 2019, an increase of \$3.2 billion, or 42.5%, from December 31, 2018. Deposit balances vary depending on market factors, such as the attractiveness of the FHLBanks' deposit pricing relative to the rates available on alternative money market instruments, FHLBank members' investment preferences with respect to the maturity of their investments, and FHLBank members' liquidity. Interest-bearing demand and overnight deposits represented 88.5% and 89.9% of deposits at September 30, 2019 and December 31, 2018, with the remaining deposits primarily being term deposits and non-interest-bearing deposits. Interest-bearing demand and overnight deposits pay interest based on a daily interest rate. Term deposits pay interest based on a fixed rate determined at the issuance of the deposit.

Capital

GAAP capital consists of capital stock, retained earnings, and accumulated other comprehensive income (loss). Figure 17 presents the components of GAAP capital and the GAAP capital-to-assets ratio for the most recent five quarters.

Figure 17 - GAAP Capital

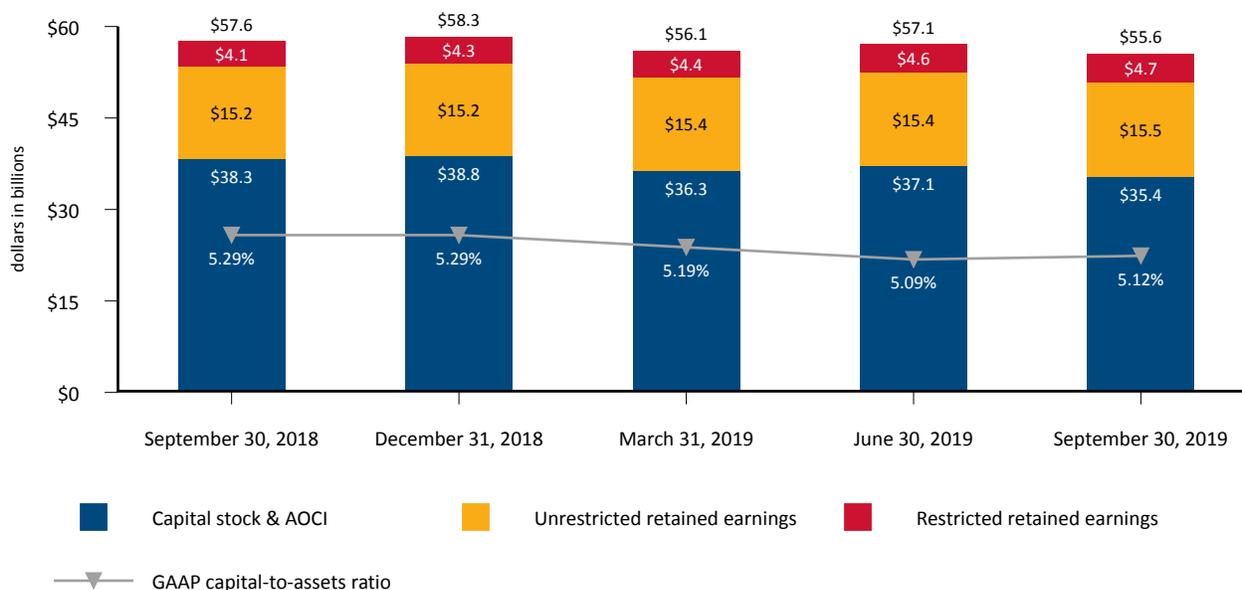

Table 17 - Total Capital and Capital-to-Assets Ratios
(dollars in millions)

	September 30, 2019	December 31, 2018	Change
Capital stock	\$ 35,195	\$ 38,498	\$ (3,303)
Retained earnings:			
Unrestricted	15,460	15,241	219
Restricted	4,723	4,263	460
Total retained earnings	20,183	19,504	679
AOCI	247	342	(95)
Total GAAP capital	55,625	58,344	(2,719)
Exclude: AOCI	(247)	(342)	95
Add: Mandatorily redeemable capital stock	1,390	1,062	328
Total combined regulatory capital(1)	\$ 56,768	\$ 59,064	\$ (2,296)
Total assets	\$ 1,085,878	\$ 1,102,850	\$ (16,972)
Combined GAAP capital-to-assets ratio	5.12%	5.29%	
Combined regulatory capital-to-assets ratio(2)	5.23%	5.36%	

- (1) Regulatory capital requirements apply to individual FHLBanks, and the combined amounts are for analysis only. The sum of the individual FHLBank regulatory capital amounts does not agree to the total combined regulatory capital due to combining adjustments.
- (2) The combined regulatory capital-to-assets ratio is calculated based on the FHLBanks' combined regulatory capital as a percentage of combined total assets. (See [Note 13 - Capital](#) to the accompanying combined financial statements for a definition and discussion of regulatory capital.)

GAAP Capital. Total GAAP capital was \$55.6 billion at September 30, 2019, a decrease of 4.7% from \$58.3 billion at December 31, 2018. This decrease was due primarily to a decrease in capital stock. The combined GAAP capital-to-assets ratio was 5.12% at September 30, 2019, a decrease of 17 basis points from 5.29% at December 31, 2018.

Capital Stock. Capital stock was \$35.2 billion at September 30, 2019, a decrease of 8.6% from \$38.5 billion at December 31, 2018, resulting from the net repurchases and redemptions of activity-based capital stock driven primarily by the decrease in advances.

Retained Earnings. Retained earnings grew to \$20.2 billion at September 30, 2019, an increase of 3.5% from \$19.5 billion at December 31, 2018, resulting from net income of \$2,298 million, partially offset by dividends of \$1,634 million. Unrestricted retained earnings were \$15.5 billion at September 30, 2019, a growth of 1.4% from \$15.2 billion at December 31, 2018. Restricted retained earnings were \$4.7 billion at September 30, 2019, a growth of 10.8% from \$4.3 billion at December 31, 2018.

Figures 18 and 19 present the components of capital as a percentage of total GAAP capital at September 30, 2019 and December 31, 2018.

Figure 18 - Capital Components as a Percentage of Total GAAP Capital at September 30, 2019

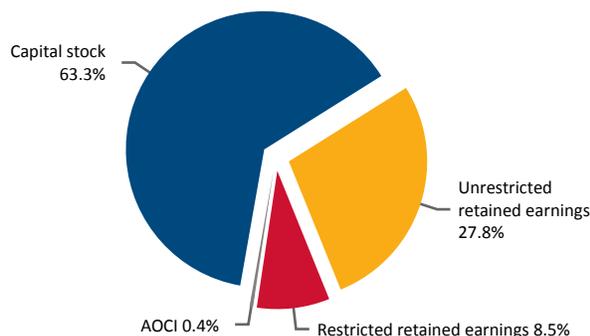

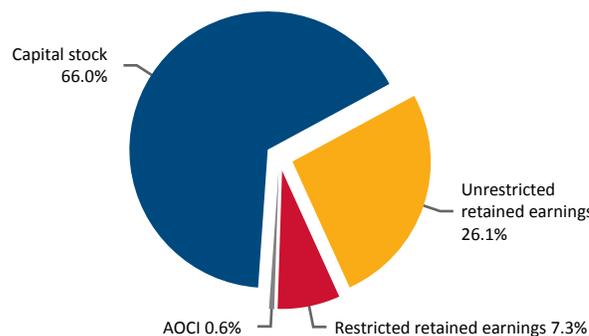

Figure 19 - Capital Components as a Percentage of Total GAAP Capital at December 31, 2018

Regulatory Capital. Total combined regulatory capital was \$56.8 billion at September 30, 2019, a decrease of 3.9% from \$59.1 billion at December 31, 2018, due primarily to a decrease in capital stock.

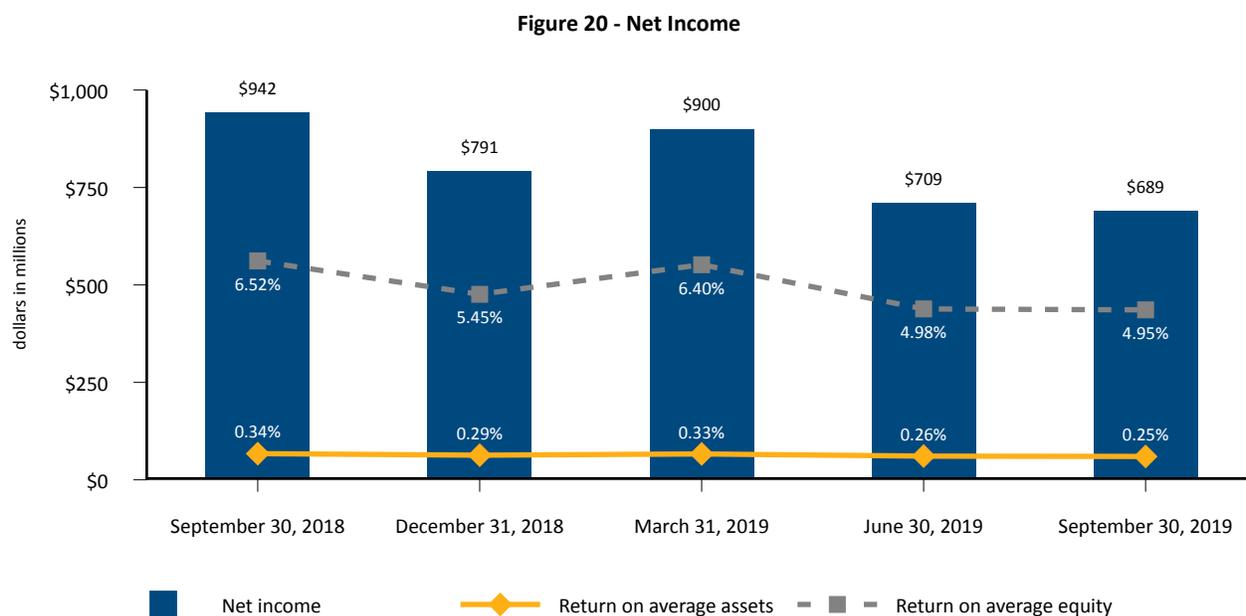

Combined Results of Operations

Net Income

The primary source of revenue for the FHLBanks is interest income earned on advances, mortgage loans held for portfolio, and investments. The primary items of expense for the FHLBanks are interest paid on consolidated obligations; operating expenses, including employee compensation and benefits; and Affordable Housing Program assessments. The FHLBanks may also recognize non-interest gains and losses, such as gains and losses on derivatives and hedging activities and gains and losses on investment securities. Due to the FHLBanks' cooperative structures, the FHLBanks generally earn a narrow net interest spread. Accordingly, the FHLBanks' net income is relatively small compared to total assets and total liabilities.

With the adoption of the new hedge accounting guidance, beginning on January 1, 2019, changes in fair value of the derivative and the hedged item attributable to the hedged risk for designated fair value hedges are recorded in net interest income in the same line as the earnings effect of the hedged item. For designated cash flow hedges, the entire change in the fair value of the derivative (assuming it is included in the assessment of hedge effectiveness) is reported in other comprehensive income (OCI) until the hedged transaction affects earnings. At that time, this amount is reclassified from AOCI and recorded in net interest income in the same income statement line as the earnings effect of the hedged item. Prior to January 1, 2019, for both fair value and cash flow hedges, any hedge ineffectiveness (which represented the amount by which the change in the fair value of the derivative differed from the change in the fair value of the hedge item or the variability in the cash flows of the forecasted transaction attributable to the hedged risk) was recorded in non-interest income as net gains (losses) on derivatives and hedging activities.

Figure 20 presents net income, return on average assets, and return on average equity for the most recent five quarters.

Net income was \$689 million and \$2,298 million for the three and nine months ended September 30, 2019, decreases of 26.9% and 17.1% compared to the three and nine months ended September 30, 2018, primarily the result of decreases in net interest income.

Table 18 - Changes in Net Income
(dollars in millions)

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2019	2018(1)	Change	2019	2018(1)	Change

Affordable Housing Program assessments	78	107	(29)	261	314	(53)
Net income	\$ 689	\$ 942	\$ (253)	\$ 2,298	\$ 2,771	\$ (473)

(1) Prior period amounts do not conform to new hedge accounting guidance adopted January 1, 2019.

Net Interest Income after Provision (Reversal) for Credit Losses

The primary source of each FHLBank's earnings is net interest income, which is the interest income on advances, mortgage loans, and investments, less the interest expense on consolidated obligations, deposits, and mandatorily redeemable capital stock. Figure 21 presents net interest income after provision (reversal) for credit losses, net interest margin, and net interest spread for the most recent five quarters.

Figure 21 - Net Interest Income after Provision (Reversal) for Credit Losses

Net interest income after provision (reversal) for credit losses was \$1,081 million and \$3,457 million for the three and nine months ended September 30, 2019, decreases of 19.3% and 12.2% compared to the three and nine months ended September 30, 2018.

Table 20 presents average balances of and yields on the major categories of interest-earning assets and interest-bearing liabilities; net interest spread, which is the difference between the annualized yield on total interest-earning assets and the annualized yield on total interest-bearing liabilities; and net interest margin, which is net interest income expressed as a percentage of the average balance of total interest-earning assets. Due to the FHLBanks' cooperative structures, the FHLBanks generally earn a narrow net interest spread.

(1) Prior period amounts do not conform to new hedge accounting guidance adopted January 1, 2019.

(2) Investment securities consist of Trading, AFS, and HTM securities.

(3) The average balances of AFS securities and HTM securities are reflected at amortized cost; therefore, the resulting yields do not give effect to changes in fair value or the non-credit component of previously recognized other-than-temporary impairment (OTTI) reflected in AOCI.

Changes in both interest rates and average balances of interest-earning assets and interest-bearing liabilities have a direct influence on changes in net interest income, net interest margin, and net interest spread. Table 21 presents changes in interest income and interest expense due to rate-related and volume-related factors. Changes in interest income and interest expense not identifiable as either rate-related or volume-related, but rather attributable to both rate and volume changes, have been allocated to the rate and volume categories based on the proportion of the absolute value of the rate and volume changes.

Table 21 - Rate and Volume Analysis
(dollars in millions)

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2019 vs. 2018			2019 vs. 2018

Changes in net interest income	\$ 37	\$ (295)	\$ (258)	\$ 188	\$ (666)	\$ (478)

(1) Investment securities consist of Trading, AFS, and HTM securities.

Net interest income was \$1,082 million and \$3,459 million for the three and nine months ended September 30, 2019, decreases of 19.3% and 12.1% compared to the three and nine months ended September 30, 2018. Net interest margin was 0.40% and 0.43% for the three and nine months ended September 30, 2019, decreases of 9 and 4 basis points compared to the three and nine months ended September 30, 2018. The decreases in net interest margin for the three and nine months ended September 30, 2019 were due to several factors, including:

- The effect of higher short-term interest rates on variable rate consolidated obligations and the replacement of maturing consolidated obligations at higher rates.
- The change in composition of interest-earning assets, including decreases in the average balances of advances and other higher-yielding assets and increases in the average balance of lower-yielding liquidity investments, primarily U.S. Treasury securities.
- The impact of the new hedge accounting guidance adopted prospectively on January 1, 2019, which requires gains (losses) for designated fair value hedges, previously recorded in non-interest income, to be recorded in net interest income.

Interest income grew to \$6,971 million and \$22,104 million for the three and nine months ended September 30, 2019, increases of 3.7% and 19.6% compared to the three and nine months ended September 30, 2018. These increases were the result of higher yields on advances and other interest-earning assets, partially offset by lower average balances of advances. The yields on average interest-earning assets were 2.58% and 2.73% for the three and nine months ended September 30, 2019, increases of 12 and 50 basis points compared to the three and nine months ended September 30, 2018.

Interest expense was \$5,889 million and \$18,645 million for the three and nine months ended September 30, 2019, increases of 9.4% and 28.2% compared to the three and nine months ended September 30, 2018. These increases were primarily the result of higher yields on interest-bearing liabilities. The yields on interest-bearing liabilities were 2.30% and 2.43% for the three and nine months ended September 30, 2019, increases of 22 and 58 basis points compared to the three and nine months ended September 30, 2018.

Factors Affecting Net Interest Income.

Advances. Interest income on advances was \$4,046 million for the three months ended September 30, 2019, a decrease of 3.4% compared to the three months ended September 30, 2018, resulting primarily from a decrease in the average balance of advances, partially offset by an increase in the yield on advances. The average balance of advances was \$641.9 billion for the three months ended September 30, 2019, a decrease of 9.3% compared to the three months ended September 30, 2018. The decline in the average balance of advances was due primarily to a decrease in short-term advances, principally those made to large members. The yield on advances was 2.50% for the three months ended September 30, 2019, an increase of 15 basis points compared to the three months ended September 30, 2018. The increase in the yield on advances was the result of higher interest rates on advances driven by the higher short-term interest-rate environment.

Interest income on advances was \$13,410 million for the nine months ended September 30, 2019, an increase of 16.6% compared to the nine months ended September 30, 2018, due primarily to an increase in the yield on advances, partially offset by a decrease in the average balance of advances. The yield on advances was 2.66% for the nine months ended September 30, 2019, an increase of 57 basis points compared to the nine months ended September 30, 2018. The increase in the yield on advances was the result of higher interest rates on advances and the effect of derivatives and hedging activities on interest income from advances, driven by the higher short-term interest-rate environment. (See *Table 22* for additional information regarding the effect of derivatives and hedging activities on net interest income.) The average balance of advances was \$673.6 billion for the nine months ended September 30, 2019, a decrease of 8.5% compared to the nine months ended September 30, 2018. The decline in the average balance of advances was due primarily to a decrease in short-term advances, principally those made to large members.

Mortgage Loans. Interest income on mortgage loans was \$554 million and \$1,666 million for the three and nine months ended September 30, 2019, increases of 9.9% and 15.1% compared to the three and nine months ended September 30, 2018, resulting primarily from increases in the average balances of mortgage loans. The average balance of mortgage loans was \$68.0 billion and \$65.5 billion for the three and nine months ended September 30, 2019, increases of 16.0% and 16.3% compared to the three and nine months ended September 30, 2018, as the FHLBanks continued to grow their mortgage loan portfolios.

Total Investments. Interest income on investments was \$2,371 million and \$7,028 million for the three and nine months ended September 30, 2019, increases of 17.0% and 27.0% compared to the three and nine months ended September 30, 2018, resulting primarily from increases in the yields on, and average balances of, investments. The increase in the yields on investments was the result of higher interest rates on investments, driven by the higher short-term interest-rate environment. The increase in the average balances of investments was primarily the result of increases in the average balance of U.S. Treasury obligations and securities purchased under agreements to resell. (See [Liquidity and Capital Resources](#) for additional information on the FHFA's Advisory Bulletin on liquidity.)

Consolidated Obligations. Interest expense on consolidated obligations was \$5,825 million and \$18,466 million for the three and nine months ended September 30, 2019, increases of 9.3% and 28.2% compared to the three and nine months ended September 30, 2018, resulting from higher yields on consolidated bonds and consolidated discount notes. The yields on consolidated bonds were 2.33% and 2.45% for the three and nine months ended September 30, 2019, increases of 22 and 54 basis points compared to the three and nine months ended September 30, 2018. The yields on consolidated discount notes were 2.24% and 2.38% for the three and nine months ended September 30, 2019, increases of 23 and 64 basis points compared to the three and nine months ended September 30, 2018. The increases in the yields on consolidated discount notes and consolidated bonds were due primarily to the effect of higher short-term interest rates on variable-rate consolidated obligations and the replacement of maturing consolidated obligations at higher rates.

Effect of Derivatives and Hedging Activities on Net Interest Income

Net interest income includes components related to the effect of derivatives and hedging activities resulting from the FHLBanks' hedging strategies. *Table 22* presents the effect of derivatives and hedging activities on net interest income.

If a hedging relationship is designated and qualifies for hedge accounting treatment, the net interest settlements of interest receivables or payables related to derivatives designated in fair value or cash flow hedge relationships are recognized as adjustments to interest income or expense of the designated hedged item. In addition, when hedge accounting is discontinued, the cumulative basis adjustment on the hedged item is amortized or accreted into net interest income over the remaining life of the hedged item using a level-yield methodology.

With the adoption of the new hedge accounting guidance, beginning on January 1, 2019, changes in fair value of the derivative and the hedged item attributable to the hedged risk for designated fair value hedges are recorded in net interest income in the same line as the earnings effect of the hedged item. For designated cash flow hedges, the entire change in the fair value of the derivative is reported in OCI until the hedged transaction affects earnings. Prior to January 1, 2019, for both fair value and cash flow hedges, any hedge ineffectiveness was recorded in non-interest income as net gains (losses) on derivatives and hedging activities. The change in the hedging guidance decreased net interest income by \$15 million and \$110 million during the three and nine months ended September 30, 2019. Prior to the adoption of the new hedge accounting guidance, these amounts would have been included in non-interest income.

(See [Note 10 - Derivatives and Hedging Activities](#) to the accompanying combined financial statements for additional information on the effect of derivatives and hedging activities.)

Table 22 - Effect of Derivatives and Hedging Activities on Net Interest Income
(dollars in millions)

	Three Months Ended September 30, 2019					
	Advances	Investment Securities	Mortgage Loans	Consolidated Bonds	Consolidated Discount Notes	Total

(1) Prior period amounts do not conform to new hedge accounting guidance adopted January 1, 2019.

Non-Interest Income

Non-interest income consists of certain realized and unrealized gains (losses) on investment securities, derivatives activities, financial instruments held under fair value option, and other non-interest-earning activities. Figure 22 presents non-interest income for the most recent five quarters.

Figure 22 - Non-Interest Income

Non-interest income was \$41 million and \$137 million for the three and nine months ended September 30, 2019, increases of 2.5% and 33.0% compared to the three and nine months ended September 30, 2018, due primarily to net gains on investment securities and financial instruments held under fair value option, partially offset by net losses on derivatives and hedging activities.

Table 23 - Changes in Non-Interest Income
(dollars in millions)

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2019	2018	Change	2019	2018	Change
Net other-than-temporary impairment losses	\$ (7)	\$ (5)	\$ (2)	\$ (16)	\$ (12)	\$ (4)

Net gains (losses) on derivatives and hedging activities	(137)	24	(161)	(611)	116	(727)
Other, net	51	60	(9)	148	143	5
Total non-interest income	\$ 41	\$ 40	\$ 1	\$ 137	\$ 103	\$ 34

Gains (Losses) on Investment Securities. The FHLBanks classify investment securities as AFS, HTM, or trading securities. The realized gains (losses) from the sale of AFS and HTM securities are recognized in current period earnings. Trading securities are recorded at fair value, with changes in fair value reflected in non-interest income. There are a number of factors that affect the fair value of trading securities, including current and projected levels of interest rates, credit spreads, and volatility, as well as the passage of time. The increases in net gains on investment securities for the three and nine months ended September 30, 2019, compared to the three and nine months ended September 30, 2018, resulted primarily from an increase in net gains on trading securities. Net gains on trading securities were \$100 million and \$516 million for the three and nine months ended September 30, 2019, increases of \$124 million and \$622 million compared to the three and nine months ended September 30, 2018.

Gains (Losses) on Financial Instruments Held under Fair Value Option. Certain FHLBanks elect the fair value option for certain financial assets and certain financial liabilities and recognize the changes in fair value on these assets and liabilities as unrealized gains and losses in current period earnings. The use of the fair value option allows these FHLBanks to mitigate potential income statement volatility that can arise when an economic derivative is adjusted for changes in fair value but the related hedged item is not. (See *Table 24* for additional information regarding the gains (losses) on financial instruments held under fair value option and the effect of derivatives and hedging activities on non-interest income.)

Gains (Losses) on Derivatives and Hedging Activities. Fair value estimates for an FHLBank's derivatives and hedging positions fluctuate with changes in market conditions. In general, an FHLBank holds derivatives and associated hedged items to the maturity, call, or put date. Therefore, as a matter of timing, nearly all of the cumulative net gains and losses for these financial instruments generally reverse over the remaining contractual terms of the hedged items. However, there may be instances when an FHLBank terminates these instruments prior to maturity or prior to the call or put dates. Terminating the financial instrument may result in a realized gain or loss.

Fair values are based on a wide range of factors, including current and projected levels of interest rates, credit spreads, and volatility, as well as the passage of time. Hedge ineffectiveness occurs when changes in the fair value of the derivative and the associated hedged item do not perfectly offset. With the adoption of the new hedge accounting guidance, beginning January 1, 2019, hedge ineffectiveness is no longer recognized within this line item. Prior to January 1, 2019, for both fair value and cash flow hedges, the amount by which the change in the fair value of the derivative differed from the change in the fair value of the hedged item or in the variability in the cash flows of the forecasted transaction attributable to the hedged risk was recorded in non-interest income as net gains (losses) on derivatives and hedging activities. (See [Note 10 - Derivatives and Hedging Activities](#) to the accompanying combined financial statements for additional information on the financial effect of derivatives and hedging activities.) Table 24 presents the effect of derivatives and hedging activities on non-interest income.

Table 24 - Effect of Derivatives and Hedging Activities on Non-Interest Income

Total effect on non-interest income	\$ 73	\$ 47	\$ 14	\$ (201)	\$ 44	\$ 2	\$ (39)	\$ (60)

(1) Prior period amounts do not conform to new hedge accounting guidance adopted January 1, 2019.

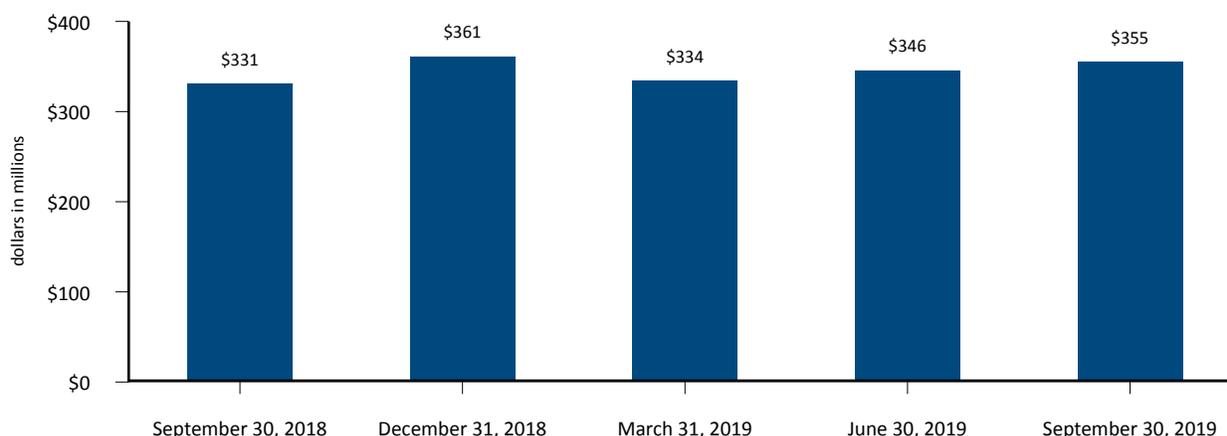

Net losses on derivatives and hedging activities were \$137 million and \$611 million for the three and nine months ended September 30, 2019, resulting primarily from losses related to economic hedges of investment securities and advances.

Net gains on derivatives and hedging activities were \$24 million and \$116 million for the three and nine months ended September 30, 2018, resulting primarily from gains related to fair value hedge ineffectiveness and economic hedges.

Non-Interest Expense

Non-interest expense consists of compensation and benefits, other operating expenses, FHFA expenses, Office of Finance expenses, and other expenses. Figure 23 presents non-interest expense for the most recent five quarters.

Figure 23 - Non-Interest Expense

Non-interest expense was \$355 million and \$1,035 million for the three and nine months ended September 30, 2019, increases of 7.3% and 8.5% compared to the three and nine months ended September 30, 2018. The increases in non-interest expense for both periods were due primarily to increases in other operating expenses, driven by higher professional fees for ongoing technology and operational initiatives, as well as a higher level of investment in information technology at certain FHLBanks.

Table 25 - Changes in Non-Interest Expense
(dollars in millions)

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2019	2018	Change	2019	2018	Change
Compensation and benefits	\$ 174	\$ 181	\$ (7)	\$ 523	\$ 515	\$ 8
Other operating expenses	129	108	21	367	305	62
Federal Housing Finance Agency	18	15	3	53	47	6
Office of Finance	16	14	2	45	42	3
Other expenses	18	13	5	47	45	2
Total non-interest expense	\$ 355	\$ 331	\$ 24	\$ 1,035	\$ 954	\$ 81

Affordable Housing Program (AHP) Assessments

By regulation, each FHLBank is required to contribute to its AHP the greater of 10% of its annual income subject to assessment, or the prorated sum required to ensure the aggregate contribution by the FHLBanks is no less than \$100 million for each year. In addition to the required assessment, an FHLBank's board of directors may elect to make voluntary contributions to the AHP. For purposes of the AHP calculation, each FHLBank's income subject to assessment is defined as the individual FHLBank's net income before assessments, plus interest expense related to mandatorily redeemable capital stock.

AHP helps members provide subsidized and other low-cost funding, as well as grants, to create affordable rental and homeownership opportunities. All FHLBank operating costs for the AHP are included in operating expenses, so all AHP assessments go directly to support affordable housing projects. Figure 24 presents AHP assessments for the most recent five quarters.

Figure 24 - Affordable Housing Program Assessments

Comprehensive Income

Comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income is reported on the Combined Statement of Comprehensive Income and presents the net change in the accumulated other comprehensive income (loss) balances.

Other comprehensive income was a loss of \$176 million for the three months ended September 30, 2019, a decrease in other comprehensive income of \$231 million compared to the three months ended September 30, 2018, due primarily to net unrealized losses relating to cash flow hedging activities and fair value losses on AFS securities. Other comprehensive income was a loss of \$95 million for the nine months ended September 30, 2019, a decrease in other comprehensive income of \$237 million compared to the nine months ended September 30, 2018, due primarily to net unrealized losses relating to cash flow hedging activities, partially offset by fair value gains on AFS securities.

Table 26 - Comprehensive Income
(dollars in millions)

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2019	2018	Change	2019	2018	Change
Net income	\$ 689	\$ 942	\$ (253)	\$ 2,298	\$ 2,771	\$ (473)

Total changes in non-credit OTTI losses	17	22	(5)	51	16	35
Net unrealized gains (losses) relating to hedging activities	(56)	61	(117)	(254)	261	(515)
Other	(2)	2	(4)	3	(2)	5
Total other comprehensive income (loss)	(176)	55	(231)	(95)	142	(237)
Comprehensive income	\$ 513	\$ 997	\$ (484)	\$ 2,203	\$ 2,913	\$ (710)

Changes in Fair Value of AFS securities. Changes in the fair value of AFS securities are recorded in other comprehensive income. The net change in unrealized gains (losses) on AFS securities, which have not been other-than-temporarily impaired, is due primarily to changes in interest rates, credit spreads, the passage of time, and volatility. The net change in the fair value of other-than-temporarily impaired AFS securities is driven by housing prices and the economic outlook, as well as changes in interest rates, credit spreads, the passage of time, and volatility. The distinction between the two categories is whether the AFS security has ever incurred an OTTI loss.

Changes in Non-Credit OTTI Losses. Changes in non-credit OTTI losses are comprised of the net amount of AFS and HTM impairment losses reclassified to (from) non-interest income, the accretion of the non-credit portion on HTM securities, and the reclassification of (gains) losses of the non-credit portion on AFS securities included in net income.

Net Amount of AFS and HTM Impairment Losses Reclassified to (from) Non-interest Income. For AFS and HTM securities with OTTI, the net decrease or increase in the non-credit component is reclassified between AOCI and earnings.

Accretion of the Non-credit Portion on HTM Securities. For HTM securities with non-credit-related impairment losses recognized in AOCI, the non-credit-related impairment is accreted as an increase in the carrying value over the remaining life of the security, based on the amount and timing of future estimated cash flows.

Net Unrealized Gains (Losses) Relating to Hedging Activities. Net unrealized gains (losses) relating to hedging activities is comprised of changes in the fair value of a derivative that is designated and qualifies as a cash flow hedge, to the extent that the hedge is highly effective, until earnings are affected by the variability of the cash flows of the hedged transaction and the amounts are reclassified to interest income or interest expense. The FHLBanks' gains (losses) on hedging activities fluctuate with volatility in the overall interest-rate environment and with the positions taken by the FHLBanks to hedge their risk exposure using cash flow hedges.

Liquidity and Capital Resources

Liquidity

Each FHLBank is required to maintain liquidity in accordance with the FHLBank Act, FHFA regulations and guidance, and policies established by its management and board of directors. Each FHLBank seeks to be in a position to meet the credit and liquidity needs of its members and to meet all current and future financial commitments of the FHLBank. Each FHLBank seeks to achieve this objective by managing liquidity positions to maintain stable, reliable, and cost-effective sources of funds while taking into account market conditions, member demand, and the maturity profile of the assets and liabilities of the FHLBank.

The FHLBanks may not be able to predict future trends in member credit needs because member credit needs are driven by complex interactions among a number of factors, including members' mortgage loan originations, other loan portfolio growth, deposit growth, and the attractiveness of advances compared to other wholesale borrowing alternatives. Each FHLBank monitors current trends and anticipates future debt issuance needs to fund its members' credit needs and investment opportunities of the FHLBank. An FHLBank's ability to expand its balance sheet and corresponding liquidity requirements in response to its members' increased credit needs is correlated to its members' requirements for advances and mortgage loans. Alternatively, in response to reduced member credit needs, an FHLBank may allow its consolidated obligations to mature without replacement, or repurchase and retire outstanding consolidated obligations, allowing its balance sheet to shrink. Over time, the FHLBanks historically have had comparatively stable access to funding through a diverse investor base.

Sources of Liquidity. The FHLBanks' primary sources of liquidity are proceeds from the issuance of consolidated obligations, as well as cash and investment holdings that are primarily high-quality, short-, and intermediate-term financial instruments. The FHLBanks' consolidated obligations are not obligations of the United States and are not guaranteed by the United States, but have historically received the same credit rating as the government bond credit rating of the United States. S&P, Moody's, or other rating organizations could downgrade or upgrade the credit ratings of the U.S. government and GSEs, including the FHLBanks and their consolidated obligations. Investors should note that a rating issued by a nationally recognized statistical rating organization is not a recommendation to buy, sell, or hold securities, and that the ratings may be revised or withdrawn at any time. Investors should evaluate the rating of each nationally recognized statistical rating organization independently. As of October 31, 2019, the FHLBanks' consolidated obligations were rated AA+/A-1+ and Aaa/P-1 (with outlook stable) by S&P and Moody's. Investors should not take the historical or current ratings of the FHLBanks and their consolidated obligations as an indication of future ratings for FHLBanks and their consolidated obligations.

Other sources of liquidity include advance repayments, payments collected on mortgage loans, proceeds from the issuance of capital stock, and deposits from members. In addition, by law, the Secretary of the Treasury is authorized to purchase up to \$4 billion aggregate principal amount of consolidated obligations of the FHLBanks. This authority may be exercised only if alternative means cannot be effectively employed to permit the FHLBanks to continue to supply reasonable amounts of funds to the mortgage market, and the ability to supply such funds is substantially impaired because of monetary stringency and a high level of interest rates. Any funds borrowed from the U.S. Treasury shall be repaid by the FHLBanks at the earliest practicable date.

Uses of Liquidity. The FHLBanks' primary uses of liquidity are advance originations and consolidated obligation payments. Other uses of liquidity are mortgage loan and investment purchases, dividend payments, and other contractual payments. An FHLBank also maintains liquidity to redeem or repurchase excess capital stock, at its discretion, upon the request of a member or under an FHLBank's capital plan.

See [Combined Financial Condition - Advances](#) for advance originations and repayments and [Combined Financial Condition - Consolidated Obligations](#) for net proceeds and payments for consolidated obligations.

FHLBank Funding and Debt Issuance. Changes or disruptions in the capital markets could limit the FHLBanks' ability to issue consolidated obligations. During the nine months ended September 30, 2019, the FHLBanks maintained continual access to funding and managed their debt issuance to meet the needs of their members. The FHLBanks' short-term funding was generally driven by member demand and was achieved through the issuance of consolidated discount notes and short-term consolidated bonds during the nine months ended September 30, 2019. Access to short-term debt markets has been supported by strong demand from investors. This has led to advantageous funding opportunities and continued utilization of debt maturing in one year or less.

Refinancing Risk and Investor Concentration Risk. There are inherent risks in utilizing short-term funding to support longer-dated assets and the FHLBanks may be exposed to refinancing risk and investor concentration risk. Refinancing risk includes the risk that the FHLBanks could have difficulty rolling over short-term obligations when market conditions change or investor confidence in short-term consolidated obligations declines. In managing and monitoring the amounts of financial assets that require refinancing, the FHLBanks consider their contractual maturities, as well as certain assumptions regarding expected cash flows (i.e., estimated prepayments, embedded call optionality, and scheduled amortizations). Investor concentration risk includes the risk that a market-driven or regulatory disruption to certain investor classes could lead to significant investor outflows causing unfavorable market conditions for consolidated obligations. (See the notes to the accompanying combined financial statements for additional information regarding contractual maturities of certain financial assets and financial liabilities and *Risk Factors - Liquidity Risk* on page 27 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for more information on refinancing risk and investor concentration risk.)

Interest-Rate Risk. The FHLBanks may use a portion of the short-term consolidated obligations issued to fund both short- and long-term variable-rate assets. However, funding longer-term variable-rate assets with shorter-term liabilities generally does not expose the FHLBanks to interest-rate risk because the rates on the variable-rate assets reset similarly to the liabilities (either through rate resets or re-issuance of the obligations). The FHLBanks measure and monitor interest-rate risk with commonly used methods and metrics, which include the calculations of market value of equity, duration of equity, and duration gap. (See [Quantitative and Qualitative Disclosures about Market Risk](#) for additional discussion and analysis regarding the FHLBanks' sensitivity to interest rate changes and the use of derivatives to manage their exposure to interest-rate risk.)

Asset/Liability Maturity Profile. Each FHLBank is focused on maintaining an adequate amount of liquidity, and the FHLBanks work collectively to manage system-wide liquidity and funding needs. The FHLBanks are committed to prudent risk management practices and jointly monitor FHLBank system risks, including by tracking the funding gap, which is a measure of the difference in the projected cash flows from financial assets and financial liabilities. External factors, including FHLBank member borrowing needs, supply and demand in the debt markets, and other factors may affect the amount of liquidity and the balance between the cash flows from financial assets and financial liabilities. However, due to the FHLBanks' status as GSEs, they have traditionally had ready access to funding at relatively favorable rates. In the first nine months of 2019, each of the FHLBanks was required, in accordance with the FHFA's Advisory Bulletin on liquidity (Liquidity Guidance AB), to measure specified funding gap ratios for three-month and one-year maturity horizons. During the nine months ended September 30, 2019, each of the FHLBanks was in compliance with the FHFA's funding gap requirements.

Regulatory Liquidity Requirements. To protect the FHLBanks against temporary disruptions in access to the debt markets in response to a rise in capital markets volatility, the FHFA regulations require each FHLBank to:

- maintain contingency liquidity sufficient to meet liquidity needs that shall, at a minimum, cover five business days of inability to access consolidated obligations in the debt markets;
- have available at all times an amount greater than or equal to its members' current deposits invested in advances with maturities not to exceed five years, deposits in banks or trust companies, and obligations of the U.S. Treasury;
- maintain, in the aggregate, unpledged qualifying assets in an amount at least equal to the amount of its participation in total consolidated obligations outstanding; and
- maintain, through short-term investments, an amount at least equal to its anticipated cash outflows under two hypothetical scenarios (the Former Scenarios).

Each FHLBank also maintains a contingency liquidity plan designed to enable it to meet its obligations and the liquidity needs of members in the event of operational disruptions at the FHLBanks and/or the Office of Finance, or short-term capital market disruptions. As defined by FHFA regulations, contingency liquidity means the sources of cash an FHLBank may use to meet its operational requirements when its access to capital markets is impeded, and includes:

- marketable securities with a maturity of one year or less;
- self-liquidating assets with a maturity of seven days or less;
- assets that are generally accepted as collateral in the repurchase agreement market; and
- irrevocable lines of credit from financial institutions rated not lower than the second highest rating category by a nationally recognized statistical rating organization.

In August 2018, the FHFA issued the Liquidity Guidance AB. Beginning March 31, 2019, the two Former Scenarios for liquidity measurement were discontinued and replaced with a two-component base case liquidity metric.

- The cash flow component requires each FHLBank to maintain a liquidity reserve equal to a specified number of days (between 10 and 30 calendar days) of the FHLBank's projected funding needs assuming an inability to access capital markets for consolidated obligations and renewal of all maturing advances. The FHFA provided initial, phased-in, measures for the cash flow component beginning March 31, 2019 and full measurement on December 31, 2019.
- The standby letters of credit component requires each FHLBank to hold additional liquid assets equal to a specified percentage (between 1% and 20%) of the FHLBank's outstanding standby letter of credit commitments. This component was fully implemented March 31, 2019.

In addition, each of the FHLBanks is required to perform and report to FHFA the results of an annual liquidity stress test. The Liquidity Guidance AB may require the FHLBanks to hold an additional amount of liquid assets to meet the requirements of the guidance. (See *Legislative and Regulatory Developments* on page 91 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for additional information.)

During the nine months ended September 30, 2019, each of the FHLBanks was in compliance with the FHFA's regulatory liquidity requirements.

Capital Resources

The FHLBanks' ability to expand their balance sheets as member credit needs increase is based, in part, on the capital stock requirements for advances. In addition, FHFA regulations stipulate that each FHLBank must comply with three limits on capital. Although each FHLBank's minimum total regulatory capital-to-assets ratio requirement is 4.0%, each FHLBank strives to maintain a level of retained earnings to support its regulatory capital compliance, stable dividend payments to members, and business growth. At September 30, 2019, each FHLBank was in compliance with its statutory minimum capital requirements. (See [Note 13 - Capital](#) to the accompanying combined financial statements for additional information regarding minimum regulatory capital requirements.) Regulatory guidance requires each FHLBank to assess, at least once a year, the adequacy of its retained earnings under various future financial and economic scenarios, including:

- parallel and non-parallel interest-rate shifts;
- changes in the interest-rate relationship between different yield curves; and
- changes in the credit quality of the FHLBank's assets.

Management and the board of directors of each FHLBank review the capital structure of that FHLBank on a periodic basis to ensure the capital structure supports the risk associated with its assets and addresses applicable regulatory and supervisory matters. In addition, an individual FHLBank may, at its discretion, institute a higher capital requirement to meet internally-established thresholds or to address supervisory matters, limit dividend payments, or restrict excess capital stock repurchases as part of its retained earnings policies.

Joint Capital Enhancement Agreement. The Joint Capital Enhancement Agreement, as amended (Capital Agreement), is intended to enhance the capital position of each FHLBank. The Capital Agreement provides that each FHLBank will allocate 20% of its net income each quarter to a separate restricted retained earnings account until the balance of that account equals at least one percent of that FHLBank's average balance of outstanding consolidated obligations for the previous quarter. These restricted retained earnings are not available to pay dividends.

Critical Accounting Estimates

The preparation of financial statements in accordance with GAAP requires each FHLBank's management to make a number of judgments, estimates, and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities (if applicable), and the reported amounts of income and expense during the reported periods. Although each FHLBank's management believes that its judgments, estimates, and assumptions are reasonable, actual results may differ from these estimates.

In the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, certain accounting estimates and assumptions were identified as critical because they are generally considered by each FHLBank's management to be the most critical to an understanding of its financial statements and the financial data it provides to the Office of Finance for preparing the combined financial report. These estimates and assumptions consist of those used in conjunction with (1) OTTI for investment securities; (2) fair value estimates; (3) derivative hedging relationships; (4) amortization of premiums and accretion of discounts on investment securities and purchased mortgage loans; and (5) calculation of allowance for credit losses for each identified portfolio segment of financing receivables. For a description of accounting policies related to these estimates and assumptions, see [Note 1 - Summary of Significant Accounting Policies](#) in the accompanying combined financial statements and *Note 1 - Summary of Significant Accounting Policies* on pages F-12 to F-23 of the audited combined financial statements included in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018.

There have been no significant changes to the critical accounting estimates disclosed in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. For a detailed discussion of Critical Accounting Estimates, see *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Critical Accounting Estimates* on pages 80 to 88 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. Each FHLBank describes its critical accounting estimates in its periodic reports filed with the SEC.

Derivative Hedging Relationships

Beginning January 1, 2019, the FHLBanks adopted new hedge accounting guidance, which, among other things, impacts the presentation of gains (losses) on derivatives and hedging activities for qualifying hedges. Changes in the fair value of a derivative that is designated and qualifies as a fair value hedge, along with changes in the fair value of the hedged asset or liability that are attributable to the hedged risk, are recorded in net interest income in the same line as the earnings effect of the hedged item. Changes in the fair value of a derivative that is designated and qualifies as a cash flow hedge are recorded in OCI. These amounts remain in AOCI, a component of capital, until earnings are affected by the variability of the cash flows of the hedged transaction, at which time these amounts are reclassified from AOCI to the same income statement line as the earnings effect of the hedged item. Net gains (losses) on derivatives and hedging activities for qualifying hedges recorded in net interest income include unrealized and realized gains (losses), which include net interest settlements.

See [Note 1 - Summary of Significant Accounting Policies](#) and [Note 10 - Derivatives and Hedging Activities](#) to the accompanying combined financial statements for additional discussion regarding the FHLBanks' accounting for derivatives and hedging activities, including the accounting for derivative hedging relationships prior to the adoption of the new hedging guidance on January 1, 2019.

Recent Accounting Developments

See [Note 2 - Recently Issued and Adopted Accounting Guidance](#) to the accompanying combined financial statements for a discussion regarding the effect of recently issued and adopted accounting guidance on the FHLBanks' combined financial condition, combined results of operations, or combined cash flows.

Legislative and Regulatory Developments

Certain regulatory actions and developments are summarized in this section. (See *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Legislative and Regulatory Developments* in the Federal Home Loan Banks Combined Financial Reports for the year ended December 31, 2018 (pages 89 to 92) and the quarterly periods ended March 31, 2019 (pages 38 to 39) and June 30, 2019 (pages 40 to 41), for a description of certain legislative and regulatory developments that occurred prior to the publication of those reports.)

FHFA Supervisory Letter - Planning for LIBOR Phase-Out. On September 27, 2019, the FHFA issued a Supervisory Letter (the Supervisory Letter) to the FHLBanks and the Office of Finance to help ensure that the FHLBanks will be able to identify and prudently manage the risks associated with the termination of LIBOR in a safe and sound manner. The Supervisory Letter provides that the FHLBanks should, by March 31, 2020, cease entering into new LIBOR referenced financial assets, liabilities, and derivatives with maturities beyond December 31, 2021 for all product types except investments. With respect to investments, the FHLBanks should, by December 31, 2019, stop purchasing investments that reference LIBOR and mature

after December 31, 2021. These phase-out dates do not apply to collateral accepted by the FHLBanks. The Supervisory Letter also directs the FHLBanks to update their pledged collateral certification reporting requirements by March 31, 2020 in an effort to encourage members to distinguish LIBOR-linked collateral maturing after December 31, 2021.

Each FHLBank expects to cease entering into LIBOR-indexed financial instruments maturing after December 31, 2021 by the deadlines specified in the Supervisory Letter, subject to limited exceptions granted by the FHFA under the Supervisory Letter for LIBOR-linked products serving compelling mission, risk mitigating, and/or hedging purposes that do not currently have readily available alternatives.

The FHLBanks continue to evaluate the potential impact of the Supervisory Letter on the FHLBanks' combined financial condition and combined results of operations.

FHFA Advisory Bulletin 2019-03 Capital Stock Management. On August 14, 2019, the FHFA issued an Advisory Bulletin providing guidance that augments existing statutory and regulatory capital requirements to require each FHLBank to maintain a ratio of at least two percent of capital stock to total assets in order to help preserve the cooperative structure incentives that encourage members to remain fully engaged in the oversight of their investment in their respective FHLBank. Beginning in February 2020, the FHFA will consider the proportion of capital stock to assets, measured on a daily average basis at month end, when assessing each FHLBank's capital management practices.

The FHLBanks do not currently expect the Advisory Bulletin to have a material impact on the FHLBanks' combined financial condition or combined results of operations.

External Credit Ratings

Since December 31, 2018, no changes to external credit ratings have occurred with regard to the FHLBanks or their consolidated obligations. At October 31, 2019, consolidated obligations were rated AA+/A-1+ by S&P and Aaa/P-1 by Moody's, with outlook stable. S&P, Moody's, or other rating organizations could downgrade or upgrade the credit ratings of the U.S. government and GSEs, including the FHLBanks and their consolidated obligations. Investors should note that a rating issued by a nationally recognized statistical rating organization is not a recommendation to buy, sell, or hold securities, and that the ratings may be revised or withdrawn at any time. Investors should evaluate the rating of each nationally recognized statistical rating organization independently. Investors should not take the historical or current ratings of the FHLBanks and their consolidated obligations as an indication of future ratings for FHLBanks and their consolidated obligations. Table 27 presents each FHLBank's long-term credit rating, short-term credit rating, and outlook at October 31, 2019.

Table 27 - FHLBanks' Long-Term Credit Ratings, Short-Term Credit Ratings, and Outlook at October 31, 2019

FHLBank	S&P		Moody's	
	Long-Term/ Short-Term Rating	Outlook	Long-Term/ Short-Term Rating	Outlook
Boston	AA+/A-1+	Stable	Aaa/P-1	Stable
New York	AA+/A-1+	Stable	Aaa/P-1	Stable
Pittsburgh	AA+/A-1+	Stable	Aaa/P-1	Stable
Atlanta	AA+/A-1+	Stable	Aaa/P-1	Stable
Cincinnati	AA+/A-1+	Stable	Aaa/P-1	Stable
Indianapolis	AA+/A-1+	Stable	Aaa/P-1	Stable
Chicago	AA+/A-1+	Stable	Aaa/P-1	Stable
Des Moines	AA+/A-1+	Stable	Aaa/P-1	Stable
Dallas	AA+/A-1+	Stable	Aaa/P-1	Stable
Topeka	AA+/A-1+	Stable	Aaa/P-1	Stable
San Francisco	AA+/A-1+	Stable	Aaa/P-1	Stable

Risk Management

The fundamental business of each FHLBank is to provide a readily available, competitively-priced source of funds, in a wide range of maturities, to meet the borrowing demands of its members and housing associates. The principal sources of funds for these activities are the proceeds from the issuance of consolidated obligations and, to a lesser extent, capital and deposits from members. Lending and investing funds, and engaging in derivative transactions, can potentially expose the FHLBanks to a number of risks, including market risk and credit risk. (See [Quantitative and Qualitative Disclosures about Market Risk](#) for a discussion of market risk.) The FHLBanks are also subject to liquidity, operational, and business risks. (See *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Risk Management*, pages 111 to 112 and *Risk Factors*, pages 21 to 29, of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for more information.)

Credit Risk

Advances. Each FHLBank manages its credit exposure to advances through an integrated approach that provides for the ongoing review of the financial condition of its borrowers coupled with collateral and lending policies and procedures designed to limit its risk of loss while balancing its borrowers' needs for a reliable source of funding. Each FHLBank uses a methodology to evaluate its borrowers, based on financial, regulatory, and other qualitative information, including examination reports. Each FHLBank reviews its borrowers' financial condition on an ongoing basis using current information and makes changes to its collateral guidelines to mitigate the credit risk on advances. As of September 30, 2019, the management of each FHLBank believed it had adequate policies and procedures in place to manage its credit risk on advances effectively.

The FHLBanks protect against credit risk on advances by collateralizing all advances. Advances and other credit product obligations to an FHLBank are fully secured with eligible collateral, the value of which is discounted to protect the FHLBanks from credit loss. Eligible collateral values are determined by the market value for securities collateral, and the market value or unpaid principal balance for all loan collateral. For collateral which market prices are not readily available, the FHLBanks may use internal or external valuation models or methodologies to determine the fair value of the collateral. These valuation models incorporate assumptions related to factors that may affect collateral values, such as market liquidity, discounts rates, potential prepayments, and liquidation and servicing costs in the event of default, among others, which may be adjusted in response to changes in economic and market conditions in order to produce reliable results. The FHLBanks also have policies and procedures for validating the reasonableness of their collateral valuations. In addition, collateral verifications and on-site reviews are performed by the FHLBanks based on the risk profile of the borrower. At September 30, 2019, each FHLBank had rights to collateral with an estimated value greater than the related outstanding advances. (See *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Risk Management - Credit Risk - Advances*, pages 93 to 97 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for information on eligible collateral and effective lending values.)

As of September 30, 2019, there were 112 individual FHLBank borrowers (109 FHLBank members and 3 non-members) that each held advance balances of at least \$1.0 billion. When a non-member financial institution acquires some or all of the assets and liabilities of an FHLBank member, including outstanding advances and FHLBank capital stock, an FHLBank may allow those advances to remain outstanding to that non-member financial institution. The non-member borrower would be required to meet all of that FHLBank's credit and collateral requirements, including requirements regarding creditworthiness and collateral borrowing capacity.

A borrower's total credit obligation to an FHLBank could include outstanding advances, notional amount of letters of credit, collateralized derivative contracts, and credit enhanced obligations on mortgage loans sold to the FHLBank. Eligible collateral values include market values for securities and the unpaid principal balance for all other collateral pledged by the blanket lien, listing, or delivery method. The collateralization ratio was 2.9 at September 30, 2019, which represents the total of these 112 individual FHLBank borrowers' eligible collateral divided by these borrowers' advances and other credit products outstanding. The collateralization ratio for all borrowers was 3.4 at September 30, 2019. However, individual borrower credit obligations to the FHLBanks are not cross-collateralized between borrowers.

Table 28 presents advances, other credit products (which primarily includes notional amount of letters of credit), and collateral outstanding for borrowers with at least \$1.0 billion of advances outstanding as compared to all borrowers.

Table 28 - Advances, Other Credit Products, and Collateral Outstanding at September 30, 2019

(dollars in millions)

	Borrowers with at Least \$1.0 Billion of Advances Outstanding	All Borrowers	Percentage
Advances outstanding, principal amount	\$ 471,154	\$ 654,890	71.9%
Other credit products	\$ 84,822	\$ 162,682	52.1%
Collateral outstanding	\$ 1,623,102	\$ 2,757,396	58.9%

Based on the financial condition of the borrower, each FHLBank classifies each borrower by the method of pledging collateral into one of three collateral categories: (1) blanket lien status; (2) listing (specific identification) status; or (3) delivery (possession) status. The blanket lien status is the least restrictive collateral status, and is generally assigned to lower risk institutions pledging collateral. Under the blanket lien status, an individual FHLBank allows a borrower to retain possession of eligible collateral pledged to that FHLBank, provided the borrower executes a written security agreement and agrees to hold the collateral for the benefit of that FHLBank. Origination of new advances or renewal of advances must only be supported by certain eligible collateral categories. A blanket lien is typically accepted by the FHLBanks only for loan collateral; most securities collateral must be delivered to an FHLBank, or an FHLBank-approved third-party custodian, and pledged for the benefit of that FHLBank.

An FHLBank may require borrowers to provide a detailed listing of eligible advance collateral being pledged to the FHLBank due to their high usage of FHLBank credit products, the type of assets being pledged, or the credit condition of the borrower. Under the listing status, the borrower retains physical possession of specific collateral pledged to an FHLBank, but the borrower provides listings of loans pledged to its FHLBank with detailed loan information, such as loan amount, payments, maturity date, interest rate, loan-to-value, collateral type, and FICO® scores. From a borrower's perspective, the benefit of listing collateral relative to a blanket lien security agreement is that, in some cases, the discount or haircut applicable to that collateral may be lower than that for blanket lien collateral. From an FHLBank's perspective, the benefit of listing collateral is that it provides more detailed loan information to arrive at a more precise valuation.

Under the delivery status, an FHLBank requires the borrower to place physical possession of eligible collateral with the FHLBank or a third-party custodian to sufficiently secure all outstanding obligations. Typically, an FHLBank would take physical possession or control of collateral if the financial condition of the borrower was deteriorating or if the borrower exceeded certain credit product usage triggers. However, an FHLBank may require insurance company borrowers, and certain other borrowers, to place physical possession of all pledged eligible collateral with the FHLBank or deposit it with a custodian or control agent in order to establish control over the pledged collateral. Delivery of collateral may also be required if there is a regulatory action against the borrower by its regulator that would indicate inadequate controls or other conditions that would be of concern to that FHLBank.

Table 29 presents information on a combined basis regarding the type of collateral securing advances and other credit products outstanding.

Table 29 - Type of Collateral Securing Advances and Other Credit Products Outstanding at September 30, 2019
(dollars in millions)

Collateral Type	Blanket Lien		Listing		Delivery		Total	
	Amount	Percentage	Amount	Percentage	Amount	Percentage	Amount	Percentage
Single-family mortgage loans(1)	\$ 513,044	18.6%	\$ 946,530	34.3%	\$ 5,094	0.2%	\$ 1,464,668	53.1%
Commercial real estate loans	376,783	13.7%	138,008	5.0%	33,755	1.2%	548,546	19.9%

U.S. obligations	n/a	n/a	n/a	n/a	14,763	0.5%	14,763	0.5%
Private-label MBS and CMOs	n/a	n/a	n/a	n/a	7,890	0.3%	7,890	0.3%
Other	543	—	2	—	16,002	0.6%	16,547	0.6%
Total collateral	\$ 1,138,263	41.3%	\$ 1,368,436	49.6%	\$ 250,697	9.1%	\$ 2,757,396	100.0%

(1) Includes Federal Housing Administration and Department of Veterans Affairs loans.
n/a Collateral is not pledged using this pledging method.

Figures 25 and 26 present the percentage of collateral securing advances and other credit products by type and the percentage of collateral securing advances and other credit products by pledging method at September 30, 2019.

Figure 25 - Percentage of Collateral Securing Advances and Other Credit Products by Type

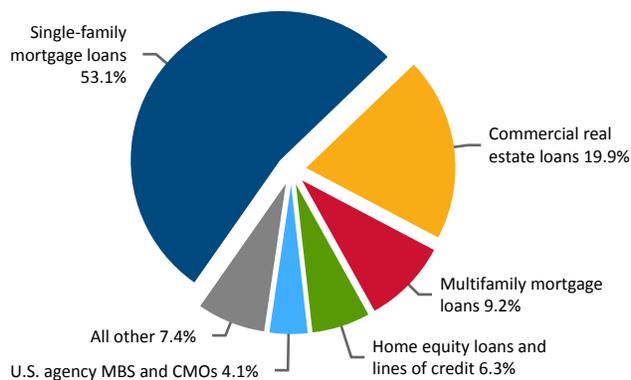

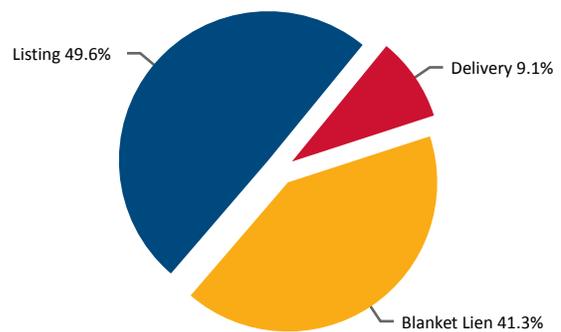

Figure 26 - Percentage of Collateral Securing Advances and Other Credit Products by Pledging Method

Investments. The FHLBanks are subject to credit risk on investments consisting of investment securities, interest-bearing deposits, securities purchased under agreements to resell, and federal funds sold. These investments are generally transacted with government agencies and large financial institutions that are considered by an individual FHLBank to be of investment quality. FHFA regulation defines investment quality as a determination by an FHLBank, with respect to a security, that there is adequate financial backing so that full and timely payment of principal and interest on such a security is expected, and there is minimal risk that the timely payment of principal and interest would not occur because of adverse changes in economic and financial conditions during the projected life of the security.

The FHLBanks maintain short-term investment portfolios, the proceeds of which may provide funds to meet the credit needs of their members and to maintain liquidity. Within this portfolio of short-term investments, the FHLBanks have unsecured credit exposure on certain investments.

The FHLBanks maintain long-term investment portfolios as an additional source of liquidity and to earn interest income. These investments generally provide the FHLBanks with higher returns than those available on short-term investments. Within this portfolio of long-term investments, the FHLBanks are primarily subject to credit risk related to private-label mortgage-backed securities that are either directly or indirectly supported by underlying mortgage loans.

Regulatory Restrictions on Investments. To minimize credit risk on investments, the FHLBanks are prohibited by FHFA regulations from investing in certain security types. (See *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operation - Risk Management* on pages 97 to 98 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for additional information regarding the regulatory restrictions on investments.)

Investment Quality and Ratings. The FHLBanks seek to reduce the credit risk by investing in investment-quality securities. The FHLBanks consider a variety of credit quality factors when analyzing potential investments, including collateral performance, marketability, asset class or sector considerations, local and regional economic conditions, credit ratings based on the nationally recognized statistical rating organization(s), and/or the financial health of the underlying issuer. Figures 27 and 28 present the composition of total investments by credit rating at September 30, 2019 and December 31, 2018.

Figure 27 - Total Investments by Credit Rating at September 30, 2019 (dollars in billions)

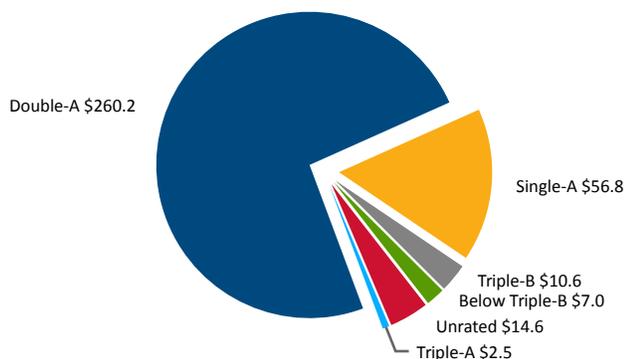

Figure 28 - Total Investments by Credit Rating at December 31, 2018 (dollars in billions)

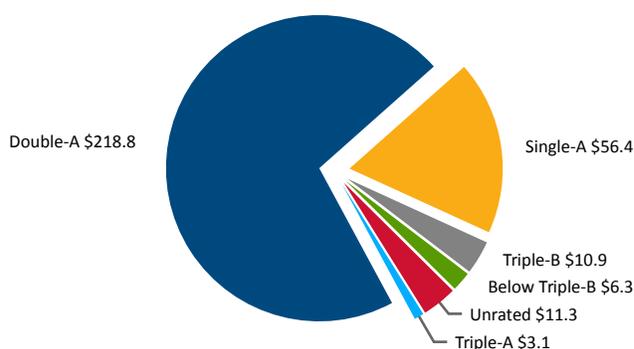

Table 30 presents the credit ratings of the investment securities held by the FHLBanks as of September 30, 2019 and December 31, 2018, using the lowest long-term credit rating for each security owned by an individual FHLBank based on the nationally recognized statistical rating organization(s) used by that FHLBank. The internal ratings of an individual FHLBank may differ from those obtained from the nationally recognized statistical rating organization(s) and other FHLBank internal ratings. Investors should not take the historical or current ratings displayed in this table as an indication of future ratings.

(1) Does not reflect any changes in ratings, outlook, or watch status occurring after September 30, 2019.

(2) Investment amounts represent the carrying value and do not include related accrued interest.

(3) Does not reflect any changes in ratings, outlook, or watch status occurring after December 31, 2018.

Long-term Investments. Within the portfolio of long-term investments, the FHLBanks are primarily subject to credit risk related to private-label mortgage-backed securities that are either directly or indirectly supported by underlying mortgage loans. The FHLBanks invested in private-label mortgage-backed securities, which consisted of private-label residential MBS, manufactured housing loan ABS, and home equity loan ABS. Each private-label mortgage-backed security may contain one or more forms of credit protection/enhancements, including, but not limited to, (1) guarantee of principal and interest, (2) subordination, (3) over-collateralization and excess interest, and (4) third-party insurance. Credit enhancement achieved through subordination features results in the subordination of payments to junior classes to support cash flows received by senior classes held by investors such as the FHLBanks.

Although the FHLBanks invested in private-label mortgage-backed securities that at the date of purchase were substantially all rated triple-A, many of these securities have incurred credit losses based on economic conditions and housing market trends since the FHLBanks originally purchased them.

Current credit enhancement percentages reflect the ability of subordinated classes of securities to absorb principal losses and interest shortfalls before the senior classes held by the FHLBanks are affected (i.e., the losses, expressed as a percentage of the outstanding principal balances, that could be incurred in the underlying loan pools before the securities held by the FHLBanks would be affected, assuming that all of those losses occurred on the measurement date). Depending on the timing and amount of losses in the underlying loan pools, it is possible that the senior classes held by the FHLBanks could have losses in scenarios where the cumulative loan losses do not exceed the current credit enhancement percentage.

Table 31 presents collateral performance and credit enhancement information related to private-label mortgage-backed securities at September 30, 2019. No FHLBank has purchased private-label mortgage-backed securities since 2008.

Table 31 - Credit Ratings of Private-Label Mortgage-Backed Securities at September 30, 2019
(dollars in millions)

	Total	Prime(1)	Alt-A(1)(2)	Subprime(1)
Unpaid Principal Balance (UPB) by credit rating(3)				
Triple-A	\$ 4	\$ —	\$ 4	\$ —

Double-B	435	217	203	15
Single-B	200	59	132	9
Triple-C	2,272	281	1,979	12
Double-C	675	23	425	227
Single-C	125	—	81	44
Single-D	266	108	143	15
Unrated	2,049	1,042	1,006	1
Total	\$ 6,913	\$ 2,286	\$ 4,201	\$ 426
Amortized cost	\$ 5,610	\$ 2,016	\$ 3,334	\$ 260
Gross unrealized losses(4)	(122)	(79)	(18)	(25)
Fair value	6,238	2,136	3,751	351
Weighted-average percentage				
Fair value to UPB	90.2%	93.4%	89.3%	82.4%
Original credit support(5)	20.7%	11.9%	24.1%	35.3%
Remaining credit support(6)	7.6%	7.2%	6.3%	22.4%
Collateral delinquency(7)	12.5%	10.3%	13.1%	18.7%

- (1) The FHLBanks classify securities as prime, Alt-A, and subprime based on the originator's classification at the time of origination or based on classification by a nationally recognized statistical rating organization upon issuance of the securities.
- (2) The FHLBanks held a total of \$1,045 million in Alt-A option adjustable-rate mortgages, of which \$47 million are in a gross unrealized loss position based on their unpaid principal balance at September 30, 2019.
- (3) Represents the lowest rating available at September 30, 2019, for each security owned by an individual FHLBank based on the nationally recognized statistical rating organization(s) used by that FHLBank. The internal ratings of an individual FHLBank may differ from those obtained from the nationally recognized statistical rating organization(s) and other FHLBank internal ratings.
- (4) Represents total gross unrealized losses including non-credit-related other-than-temporary impairment recognized in AOCL. The unpaid principal balance and amortized cost of private-label mortgage-backed securities in a gross unrealized loss position was \$1,583 million and \$1,331 million at September 30, 2019.
- (5) Original weighted-average credit support is based on the credit support at the time of issuance and is determined based on the unpaid principal balance of the individual securities in the category and their respective original credit support.
- (6) Remaining weighted-average credit support is based on the credit support as of September 30, 2019, and is determined based on the unpaid principal balance of the individual securities in the category and their respective credit support as of September 30, 2019.
- (7) Weighted-average collateral delinquency rate is determined based on the underlying loans that are 60 days or more past due and is determined based on the unpaid principal balance of the individual securities in the category and their respective delinquencies.

Monoline Bond Insurance. Certain FHLBank investment securities portfolios include a limited number of investments that are insured by monoline bond insurers. The monoline bond insurance on these investments guarantees the timely payment of principal and interest if these payments cannot be satisfied from the cash flows of the underlying mortgage collateral.

The monoline bond insurers continue to be subject to adverse ratings and weak financial performance measures, which imply an increased risk that the monoline bond insurer will fail to fulfill its obligations to reimburse the insured investor for claims made under the related insurance policies. There are four monoline bond insurers that insure certain FHLBanks' investment securities. Of the four monoline bond insurers, the financial guarantee from Assured Guaranty Municipal Corp. is considered sufficient to cover all future claims. Conversely, the financial guarantees from monoline bond insurers Financial Guaranty Insurance Company and MBIA Insurance Corp. are not considered applicable due to regulatory intervention that has suspended all claims, and the affected FHLBanks have placed no reliance on these monoline insurers. For the remaining monoline bond insurer, Ambac Assurance Corp., the affected FHLBanks assessed an expected reimbursement rate of 100% for new claims through September 30, 2025.

As of September 30, 2019, total monoline bond insurance coverage was \$146 million, of which \$131 million represents the FHLBanks' private-label MBS covered by the monoline bond insurance that the FHLBanks were relying on at September 30, 2019, for modeling cash flows. Of the \$131 million, 75.6% represents subprime loans and 24.4% represents Alt-A loans. The FHLBanks classify securities as prime, Alt-A, and subprime based on the originator's classification at the time of origination or based on classification by a nationally recognized statistical rating organization upon issuance of the securities.

Short-term Investments. The FHLBanks maintain short-term investment portfolios, the proceeds of which may provide funds to meet the credit needs of their members and to maintain liquidity. The FHLBank Act and FHFA regulations set liquidity requirements for the FHLBanks, and an individual FHLBank's board of directors may also adopt additional liquidity policies. In addition, each FHLBank maintains a contingency liquidity plan in the event of operational disruptions at either the FHLBanks or the Office of Finance. (See [Liquidity and Capital Resources](#) for a discussion of the FHLBanks' liquidity management.)

Within the portfolio of short-term investments, the FHLBanks are subject to credit risk from unsecured credit exposures with private counterparties. Each FHLBank manages its own credit risk independently. The FHLBanks' unsecured credit investments have maturities ranging between overnight and nine months, and generally include the following types:

- *Interest-bearing deposits.* Primarily consists of unsecured deposits that earn interest.
- *Federal funds sold.* Unsecured loans of reserve balances at the Federal Reserve Banks between financial institutions that are made on an overnight and term basis.
- *Certificates of deposit.* Unsecured negotiable promissory notes issued by banks and payable to the bearer on demand.

Table 32 presents the FHLBanks' unsecured credit exposure with private counterparties by investment type. At September 30, 2019, the FHLBanks had aggregate unsecured credit exposure from investments of \$1 billion or more to each of 22 private counterparties. The aggregate unsecured credit exposure to these counterparties represented 73.1% of the FHLBanks' total unsecured investment credit exposure to private counterparties. The unsecured investment credit exposure presented in Table 32 does not reflect the average or maximum exposure during the period, as the balances presented reflect the balances at period end.

Table 32 - Unsecured Credit Exposure by Investment Type
(dollars in millions)

Carrying Value(1)(2)	September 30, 2019	December 31, 2018
Interest-bearing deposits	\$ 10,964	\$ 17,182
Federal funds sold	55,944	54,216
Certificates of deposit	300	3,050
Total	<u>\$ 67,208</u>	<u>\$ 74,448</u>

(1) Excludes unsecured investment credit exposure to U.S. government, U.S. government agencies, government instrumentalities, government-sponsored enterprises, and supranational entities, and does not include related accrued interest.

(2) May include unsecured investment credit exposure to members.

Each FHLBank actively monitors its credit exposures and the credit quality of its counterparties, including an assessment of each counterparty's financial performance, capital adequacy, sovereign support, and the current market perceptions of the counterparties. General macroeconomic, political, and market conditions may also be considered when deciding on unsecured exposure. As a result, the FHLBanks may limit or suspend existing exposures.

FHFA regulations include limits on the amount of unsecured credit an individual FHLBank may extend to a counterparty or to a group of affiliated counterparties. This limit is based on a percentage of eligible capital and the counterparty's overall credit rating. Under these regulations, the level of eligible capital is determined as the lesser of an individual FHLBank's total regulatory capital or the eligible amount of Tier 1 capital or regulatory capital of the counterparty. The eligible amount of capital is then multiplied by a stated percentage. The percentage that an FHLBank may offer for term extensions of unsecured credit ranges from 1% to 15% based on the counterparty's credit rating. The calculation of term extensions of unsecured credit includes on-balance sheet transactions, off-balance sheet commitments, and derivative transactions. (See [Credit Risk - Derivative Counterparties](#) for additional information related to derivatives exposure.)

FHFA regulation also permits the FHLBanks to extend additional unsecured credit for sales of federal funds with a maturity of one day or less and sales of federal funds subject to a continuing contract that renews automatically. An FHLBank's total unsecured exposure to a counterparty may not exceed twice the regulatory limit for term exposures, or a total of 2% to 30% of the eligible amount of capital, based on the counterparty's credit rating. As of September 30, 2019, each of the FHLBanks was in compliance with the regulatory limits established for unsecured credit.

The FHLBanks are prohibited by FHFA regulation from investing in financial instruments issued by non-U.S. entities, other than those issued by U.S. branches and agency offices of foreign commercial banks. The FHLBanks' unsecured credit exposures to U.S. branches and agency offices of foreign commercial banks include the risk that, as a result of political or economic conditions in a country, the counterparty may be unable to meet its contractual repayment obligations. The FHLBanks' unsecured credit exposures to domestic counterparties and U.S. subsidiaries of foreign commercial banks include the risk that these counterparties have extended credit to foreign counterparties. As of September 30, 2019, an FHLBank held full faith and credit U.S. guaranteed securities with foreign issuers totaling \$454 million. Other than these investments, the FHLBanks are in compliance with the FHFA regulation as of September 30, 2019.

As of September 30, 2019, the FHLBanks' unsecured investment credit exposure to U.S. branches and agency offices of foreign commercial banks was comprised of federal funds sold and certificates of deposit. As of September 30, 2019, 71.9% of the FHLBanks' unsecured investments in federal funds sold and all of the FHLBanks' unsecured investments in certificates of deposit were to U.S. branches and agency offices of foreign commercial banks.

Figures 29 and 30 present total unsecured investment credit exposure by credit rating and by contractual maturity at September 30, 2019.

Figure 29 - Total Unsecured Investment Credit Exposure by Credit Rating (dollars in billions)

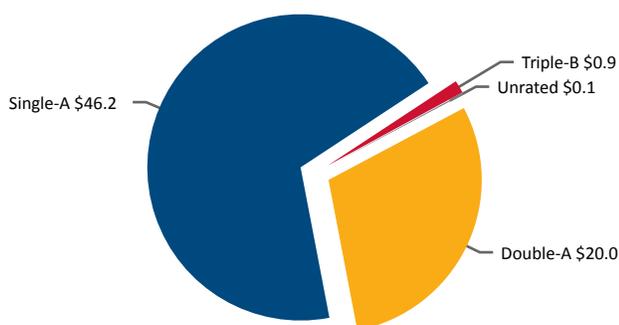

Figure 30 - Total Unsecured Investment Credit Exposure by Contractual Maturity (dollars in billions)

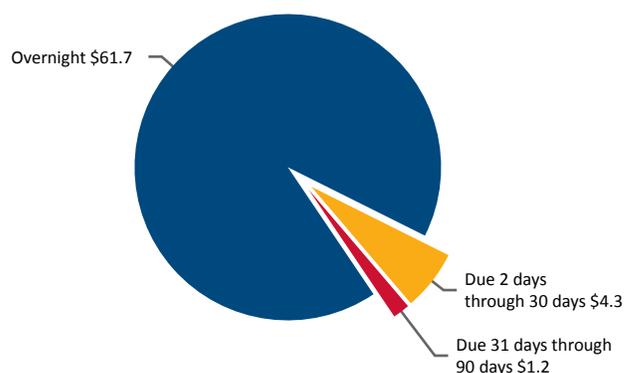

Table 33 presents the lowest long-term credit ratings of the unsecured investment credit exposures presented by the domicile of the counterparty or the domicile of the counterparty's immediate parent for U.S. branches and agency offices of foreign commercial banks based on the nationally recognized statistical rating organization(s) used by the individual FHLBank holding the investment. This table does not reflect the foreign sovereign government's credit rating. The internal ratings of an individual FHLBank may differ from those obtained from the nationally recognized statistical rating organization(s) and other FHLBank internal ratings. Investors should not take the historical or current ratings displayed in this table as an indication of future ratings.

(1) Does not reflect any changes in ratings, outlook, or watch status occurring after September 30, 2019.

(2) Excludes unsecured investment credit exposure to U.S. government, U.S. government agencies, government instrumentalities, government-sponsored enterprises, and supranational entities, and does not include related accrued interest.

Table 34 presents the contractual maturity of the FHLBanks' unsecured investment credit exposure by the domicile of the counterparty or the domicile of the counterparty's immediate parent for U.S. branches and agency offices of foreign commercial banks. The FHLBanks also reduce the credit risk on investments by generally investing in investments that have short-term maturities. At September 30, 2019, 91.9% of the carrying value of the total unsecured investments held by the FHLBanks had overnight maturities.

Table 34 - Contractual Maturity of Unsecured Investment Credit Exposure by Domicile of Counterparty at September 30, 2019
(dollars in millions)

Carrying Value(1)	Overnight	Due 2 days through 30 days	Due 31 days through 90 days	Total

(1) Excludes unsecured investment credit exposure to U.S. government, U.S. government agencies, government instrumentalities, government-sponsored enterprises, and supranational entities and does not include related accrued interest.

Mortgage Loans Held for Portfolio. The FHFA's Acquired Member Asset (AMA) regulation permits the FHLBanks to purchase and hold specified mortgage loans from their members. Each FHLBank has established or participated in the Acquired Member Asset programs such as the MPF Program and MPP as services to their members. Members and eligible housing associates may apply to become a participating financial institution (PFI) of their respective FHLBank. The mortgage loans purchased under these programs may carry more credit risk than advances, even though the respective member or housing associate provides credit enhancement and bears a portion of the credit risk.

In addition to credit risk associated with mortgage loans purchased or funded through the AMA programs, the FHLBanks are exposed to the risk of non-performance of mortgage insurers that provide primary mortgage insurance and supplemental mortgage insurance coverage on mortgage loans.

The FHFA's AMA regulation on credit risk sharing allows an FHLBank to utilize its own model and methodology to determine the credit enhancement for AMA loan assets and pool loans. The assets delivered must be credit enhanced by the members up to an FHLBank determined "AMA investment-grade" instead of a specific nationally recognized statistical rating organization's ratings.

Management at each FHLBank believes that it has adequate policies and procedures in place to manage credit risk on mortgage loans appropriately. (See [Note 9 - Allowance for Credit Losses](#) to the accompanying combined financial statements for additional information about mortgage loan credit quality indicators, allowance for credit losses, and delinquency statistics.)

See *Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Risk Management - Credit Risk - Mortgage Loans Held for Portfolio*, on pages 105 to 109 of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for information on loss allocation structures, mortgage insurance, and state concentrations for MPF Program and MPP loans.

Derivative Counterparties. Each FHLBank transacts most of its derivatives with large banks and major broker-dealers. Derivative transactions may be either executed with a counterparty (uncleared derivatives) or cleared through a Futures Commission Merchant (i.e., clearing agent) with a Derivative Clearing Organization (cleared derivatives).

Each FHLBank is subject to credit risk due to the risk of non-performance by counterparties to its derivative transactions. The amount of credit risk on derivatives depends on the extent to which netting procedures, collateral requirements, and other credit enhancements are used and are effective in mitigating the risk. Each FHLBank manages credit risk through credit analysis, collateral management, and other credit enhancements. The FHLBanks are also required to follow the requirements set forth by applicable regulation.

The contractual or notional amount of derivative transactions reflects the involvement of an FHLBank in the various classes of financial instruments. The maximum credit risk of an FHLBank with respect to derivative transactions is the estimated cost of replacing the derivative transactions if there is a default, minus the value of any related collateral. In determining maximum credit risk, each FHLBank considers accrued interest receivables and payables, as well as the netting requirements to net assets and liabilities.

Uncleared Derivatives. Each FHLBank is subject to the risk of non-performance by the counterparties to its uncleared derivative transactions. An FHLBank generally requires collateral on uncleared derivative transactions. Unless the collateral delivery threshold is set to zero, the amount of net unsecured credit exposure that is permissible with respect to each counterparty depends on the credit rating of that counterparty. A counterparty generally must deliver collateral if the total market value of the FHLBank's exposure to that counterparty rises above a specific threshold. As a result of these risk mitigation initiatives, the management of each FHLBank did not anticipate any credit losses on its uncleared derivative transactions as of September 30, 2019.

Cleared Derivatives. Each FHLBank is subject to the risk of non-performance by the Derivative Clearing Organization(s) (Clearinghouse) and the clearing agents. The requirement that an FHLBank posts initial and variation margin through the clearing agent, to the Clearinghouse, exposes an FHLBank to credit risk in the event that the clearing agent or the Clearinghouse fails to meet its obligations. However, the use of cleared derivatives is intended to mitigate an FHLBank's overall credit risk exposure because a central counterparty is substituted for individual counterparties and collateral/payment is posted daily for changes in the value of cleared derivatives through a clearing agent. The management of each FHLBank did not anticipate any credit losses on its cleared derivatives as of September 30, 2019.

Table 35 presents the derivative positions with non-member counterparties and member institutions to which the FHLBanks had credit exposure at September 30, 2019. The ratings presented in this table represent the lowest long-term counterparty credit rating available for each counterparty of an individual FHLBank, based on the nationally recognized statistical rating organization(s) used by that FHLBank. Investors should not take the historical or current ratings displayed in this table as an indication of future ratings.

Table 35 - Derivative Counterparty Credit Exposure at September 30, 2019*(dollars in millions)*

Credit Rating(1)	Notional Amount	Net Derivatives Fair Value Before Collateral	Cash Collateral Pledged To (From) Counterparties	Non-cash Collateral Pledged To (From) Counterparties	Net Credit Exposure to Counterparties
Non-member counterparties					
Asset positions with credit exposure					
Uncleared derivatives					
Double-A	\$ 2,145	\$ 8	\$ (7)	\$ —	\$ 1
Single-A	8,531	113	5	(107)	11
Triple-B	898	6	(6)	—	—
Cleared derivatives(2)	324,969	42	1,332	1,794	3,168
Liability positions with credit exposure					
Uncleared derivatives					
Double-A	3,194	(107)	109	—	2
Single-A	51,167	(988)	990	11	13
Triple-B	15,172	(391)	406	1	16
Cleared derivatives(2)	88,788	(5)	199	139	333
Total derivative positions with credit exposure to non-member counterparties	494,864	(1,322)	3,028	1,838	3,544
Member institutions(3)	1,479	6	—	—	6
Total	\$ 496,343	\$ (1,316)	\$ 3,028	\$ 1,838	\$ 3,550

(1) This table does not reflect any changes in rating, outlook, or watch status occurring after September 30, 2019.

(2) Represents derivative transactions cleared with LCH Ltd. and CME Clearing, the FHLBanks' clearinghouses. LCH Ltd. is rated AA- by S&P, and CME Clearing is not rated, but its parent company, CME Group Inc., is rated Aa3 by Moody's and AA- by S&P.

(3) Member institutions include mortgage delivery commitments and derivatives with members where an FHLBank is acting as an intermediary. Collateral held with respect to derivatives with member institutions where an FHLBank is acting as an intermediary represents the amount of eligible collateral physically held by or on behalf of the FHLBank or collateral assigned to the FHLBank, as evidenced by a written security agreement, and held by the member institution for the benefit of that FHLBank.

The FHLBanks continue to execute LIBOR-indexed derivative transactions to manage interest-rate risk and continue to monitor market-wide efforts to address fallback language related to LIBOR-linked derivative transactions. Certain FHLBanks have begun to implement Overnight Index Swap (OIS) as an alternative interest-rate hedging strategy for certain financial instruments rather than use LIBOR when entering into new derivative transactions. In addition, a SOFR-based derivative market has begun to emerge.

Table 36 presents the notional amount of variable-rate derivatives by interest-rate index and LIBOR-indexed derivatives by termination date at September 30, 2019. (See [Quantitative and Qualitative Disclosures about Market Risk](#) for more information on the transition from LIBOR and the use of SOFR as an alternative market benchmark.)

Table 36 - Variable-Rate Derivatives Outstanding by Interest-Rate Index and LIBOR-Indexed Derivatives by Termination Date*(dollars in millions)*

	September 30, 2019
Variable-Rate Derivatives by Interest-Rate Index	
LIBOR	\$ 441,467
SOFR	34,356
OIS	119,542
Other	2,400
Total notional amount of variable-rate derivatives	<u>\$ 597,765</u>
LIBOR-Indexed Derivatives by Termination Date	
Terminates in 2019	\$ 49,022
Terminates in 2020	137,531
Terminates in 2021	84,254
Terminates in 2022 and thereafter	170,660
Total notional amount of LIBOR-indexed derivatives	<u>\$ 441,467</u>

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Each FHLBank is responsible for establishing its own risk management philosophies, practices, and policies. Each FHLBank describes its risk management policies for its business, including quantitative and qualitative disclosures about its market risk, in its periodic reports filed with the SEC. (See [Explanatory Statement about Federal Home Loan Banks Combined Financial Report](#).)

Each FHLBank has established policies and procedures to evaluate, manage, and mitigate market risks. The FHFA has established regulations governing the risk management practices of the FHLBanks. The FHLBanks must file periodic compliance reports with the FHFA. The FHFA conducts annual on-site examinations, interim on-site visits, and off-site analyses of each FHLBank and the Office of Finance.

Interest-Rate Risk

Interest-rate risk is the risk that relative and absolute changes in interest rates may adversely affect an institution's financial condition. The goal of an interest-rate risk management strategy is not necessarily to eliminate interest-rate risk, but to manage it by setting, and operating within, an appropriate framework and limits. The FHLBanks generally manage interest-rate risk by acquiring and maintaining a portfolio of assets and liabilities and entering into related derivative transactions to limit the expected mismatches in duration and market value of equity sensitivity. The FHLBanks measure and monitor interest-rate risk with commonly used methods, which include the calculations of market value of equity, duration of equity, and duration gap. (See *Quantitative and Qualitative Disclosures about Market Risk*, pages 113 to 118, of the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018, for additional information.)

Transition from LIBOR to an Alternative Reference Rate

In July 2017, the United Kingdom's Financial Conduct Authority, which regulates LIBOR, announced that after 2021 it will no longer persuade or compel banks to submit rates for the calculation of LIBOR. In response, the Federal Reserve Board and the Federal Reserve Bank of New York convened the Alternative Reference Rates Committee to identify a set of alternative reference interest rates for possible use as market benchmarks. This committee has proposed the Secured Overnight Financing Rate (SOFR) as its recommended alternative to U.S. dollar LIBOR, and the Federal Reserve Bank of New York began publishing SOFR rates in the second quarter of 2018. SOFR is based on a broad segment of the overnight Treasury repurchase market and is intended to be a measure of the cost of borrowing cash overnight collateralized by Treasury securities.

Many of the FHLBanks' assets and liabilities are indexed to LIBOR, with exposure extending past December 31, 2021. The FHLBanks are currently evaluating and planning for the eventual replacement of the LIBOR benchmark interest rate, including the possibility of SOFR as the dominant replacement. As a result, each of the FHLBanks and the Office of Finance has developed a LIBOR transition plan, which addresses considerations such as LIBOR exposure, fallback language, operational preparedness, and balance sheet management.

In assessing their current exposure to LIBOR, the FHLBanks have developed an inventory of affected financial instruments and identified contracts that may require adding or adjusting the fallback language, which includes advances, investment securities, consolidated bonds, and derivatives. The FHLBanks have added or adjusted fallback language related to a majority of their advances to members and have added or adjusted fallback language applicable to their consolidated bonds. The FHLBanks continue to monitor the market-wide efforts to address fallback language related to derivatives and investment securities, as well as fallback language for new activities and issuances of financial instruments. The FHLBanks are in the process of assessing their operational readiness, including updating their processes and information technology systems to support the transition from LIBOR to an alternative reference rate. In order to manage their balance sheet exposure to LIBOR-indexed assets and liabilities, including those with maturities beyond 2021, the FHLBanks continue to issue SOFR-indexed consolidated bonds and certain FHLBanks have begun to issue SOFR-linked advances. In addition, the FHLBanks have begun to execute derivative transactions to swap certain financial instruments to SOFR or other alternative reference rates.

Market activity in SOFR-indexed financial instruments continues to increase and the FHLBanks continue to issue SOFR-indexed consolidated bonds since the FHLBanks' initial issuance in the fourth quarter of 2018. During the nine months ended September 30, 2019, the FHLBanks have issued \$132.0 billion in SOFR-linked consolidated bonds. The FHLBanks continue to execute LIBOR-indexed derivative transactions to manage interest-rate risk. Certain FHLBanks have begun to implement Overnight Index Swap (OIS) as an alternative interest-rate hedging strategy for certain financial instruments rather than use LIBOR when entering into new derivative transactions. In addition, a SOFR-based derivative market has begun to emerge. Certain FHLBanks have begun to offer SOFR-linked advances to their members, and during the nine months ended September 30, 2019, have issued \$967 million in SOFR-linked advances.

In September 2019, the FHFA issued a Supervisory Letter to the FHLBanks providing LIBOR transition guidance. The Supervisory Letter states that by March 31, 2020, the FHLBanks should no longer enter into new financial assets, liabilities, and derivatives that reference LIBOR and mature after December 31, 2021, for all product types except investments. By December 31, 2019, the FHLBanks should stop purchasing investments that reference LIBOR and mature after December 31, 2021. (See [Financial Discussion and Analysis of Combined Financial Condition and Combined Results of Operations - Legislative and Regulatory Developments](#) for more information.)

The FHLBanks have advances, investment securities, consolidated bonds, and derivatives with interest rates indexed to LIBOR. Table 37 presents LIBOR-indexed variable-rate financial instruments at September 30, 2019.

Table 37 - LIBOR-Indexed Variable-Rate Financial Instruments at September 30, 2019
(dollars in millions)

	Due in 2019	Due in 2020	Due in 2021	Due in 2022 and thereafter	Total
Advances by redemption term	\$ 26,144	\$ 73,035	\$ 36,694	\$ 13,188	\$ 149,061
Investment securities by contractual maturity(1)					
Non-mortgage-backed securities	175	1,173	160	7,662	9,170
Mortgage-backed securities	19	391	206	70,816	71,432
Total investment securities	194	1,564	366	78,478	80,602
Consolidated bonds by contractual maturity	77,370	124,368	4,420	919	207,077
Total principal amount	\$ 103,708	\$ 198,967	\$ 41,480	\$ 92,585	\$ 436,740
	Terminates in 2019	Terminates in 2020	Terminates in 2021	Terminates in 2022 and thereafter	Total
Derivatives, notional amount by termination date	\$ 49,022	\$ 137,531	\$ 84,254	\$ 170,660	\$ 441,467

(1) Federal Family Education Loan Program ABS and MBS are presented by contractual maturity. However, their expected maturities will likely differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment fees.

Market Value of Equity and Duration of Equity

Each FHLBank has an internal modeling system for measuring its duration of equity; therefore, individual FHLBank measurements may not be directly comparable. Each FHLBank reports the results of its duration of equity calculations to the FHFA each quarter. However, not all FHLBanks manage to the duration of equity risk measure. The capital adequacy rules of the FHFA require each FHLBank to hold permanent capital in an amount sufficient to cover the sum of its credit, market, and operations risk-based capital requirements, which are defined by applicable regulations. Each FHLBank has implemented a market-risk model that calculates the market-risk component of this requirement.

Table 38 presents each FHLBank that includes quantitative market value of equity and duration of equity information in its individual 2019 Third Quarter SEC Form 10-Q.

Table 38 - Individual FHLBank's Market Value of Equity and Duration of Equity Disclosures

FHLBank	Market Value of Equity	Duration of Equity
Boston	✓	✓
New York	✓	✓
Pittsburgh	(1)	✓
Atlanta	✓	✓
Cincinnati	✓	✓
Indianapolis	✓	✓
Chicago	(2)	✓
Des Moines	(3)	(3)
Dallas	✓	✓
Topeka	(4)	✓
San Francisco	✓	(5)

- (1) The FHLBank of Pittsburgh monitors and measures market value of equity to par value of capital stock, as described in its 2019 Third Quarter SEC Form 10-Q. In addition, the FHLBank of Pittsburgh also monitors return on equity spread volatility relative to a return on equity spread volatility limit, established and approved by its board of directors.
- (2) The FHLBank of Chicago disclosed the dollar loss limits on changes in market value of equity under parallel interest rate shocks in its 2019 Third Quarter SEC Form 10-Q.
- (3) Although the FHLBank of Des Moines measures and monitors market value of equity and duration of equity, those measures are not disclosed as key market risk measures. The FHLBank of Des Moines disclosed, in its 2019 Third Quarter SEC Form 10-Q, market value of capital stock (MVCS) sensitivity and projected income sensitivity as key market risk measures and MVCS and regulatory capital as its key capital adequacy measures.
- (4) The FHLBank of Topeka measures and monitors market value of equity (MVE); however, the FHLBank of Topeka measures market value risk in terms of its MVE in relation to its total regulatory capital stock outstanding instead of to its book value of equity. As described in its 2019 Third Quarter SEC Form 10-Q, the FHLBank of Topeka believes this is a reasonable metric because, as a cooperative, the metric reflects the market value of the FHLBank of Topeka relative to the book value of its capital stock.
- (5) The FHLBank of San Francisco does not disclose duration of equity, rather it discloses a comparable metric, "Market Value of Capital Sensitivity" as a key market risk measure.

Table 39 presents the duration of equity reported by each FHLBank to the FHFA in accordance with the FHFA's guidance, which prescribes that down and up interest-rate shocks equal 200 basis points. However, the applicable guidance restricts the down rate from assuming a negative interest rate. Therefore, each FHLBank adjusts the down rate accordingly in periods of very low levels of interest rates.

Table 39 - Duration of Equity
(in years)

FHLBank	September 30, 2019			December 31, 2018		
	Down	Base	Up	Down	Base	Up
Boston	2.5	(0.7)	3.2	(5.5)	(0.3)	1.5
New York	1.6	0.1	0.7	(0.8)	(0.1)	0.3
Pittsburgh	0.9	0.0	1.6	0.2	0.1	0.5
Atlanta	0.2	(0.4)	2.3	(2.0)	(0.8)	1.0
Cincinnati	0.1	(2.5)	1.8	(5.6)	1.2	1.0
Indianapolis	0.8	2.4	(2.1)	1.4	2.9	(0.3)
Chicago	2.6	0.9	2.1	1.1	0.7	1.9
Des Moines	(0.2)	0.2	2.0	(1.1)	0.9	1.9
Dallas	(6.1)	(2.1)	1.5	(3.3)	(1.8)	0.4
Topeka	2.0	(0.7)	1.0	2.8	1.3	2.3
San Francisco	1.7	1.3	1.7	2.1	1.2	2.2

Duration Gap

A related measure of interest-rate risk is duration gap, which is the difference between the estimated durations (market value sensitivity) of assets and liabilities, and reflects the extent to which estimated maturity and repricing cash flows for assets and liabilities are matched. Duration gap determines the sensitivity of assets and liabilities to interest-rate changes. Each FHLBank has an internal modeling system for measuring its duration gap; therefore, individual FHLBank measurements may not be directly comparable. Duration generally indicates the expected change in an instrument's market value resulting from an increase or a decrease in interest rates. Higher duration numbers, whether positive or negative, indicate greater volatility in the market value of equity in response to changing interest rates. Duration gap numbers in Table 40 include the effect of derivative transactions.

Table 40 - Duration Gap
(in months)

FHLBank	September 30, 2019	December 31, 2018
Boston	(0.5)	(0.2)
New York	(0.3)	(0.4)
Pittsburgh	(0.2)	(0.2)
Atlanta	(0.4)	0.6
Cincinnati	(0.1)	0.0
Indianapolis	1.0	1.1
Chicago	0.6	0.5
Des Moines	(0.3)	0.3
Dallas	(1.4)	(1.3)
Topeka	(0.4)	0.8
San Francisco	1.0	0.7

Use of Derivatives to Manage Interest-Rate Risk

An FHLBank enters into derivatives to manage interest-rate risk, prepayment risk, and other exposure inherent in otherwise unhedged assets and funding positions. An FHLBank attempts to use derivatives to reduce interest-rate exposure in the most cost-efficient manner. Derivatives are also used to manage the effective maturity, repricing frequency, or option characteristics of financial instruments to achieve risk-management objectives. (See [Note 10 - Derivatives and Hedging Activities](#) to the accompanying combined financial statements for a discussion of managing interest-rate risk exposure and [Financial Discussion and Analysis - Combined Results of Operations](#) for the effect of derivatives and hedging activities on net interest income and non-interest income resulting from the FHLBanks' hedging strategies.)

CONTROLS AND PROCEDURES

FHLBanks

The management of each FHLBank is required under applicable laws and regulations to establish and maintain effective disclosure controls and procedures as well as effective internal control over financial reporting, as such disclosure controls and procedures and internal control over financial reporting relate to that FHLBank only. Each FHLBank's management assessed the effectiveness of its individual internal control over financial reporting as of December 31, 2018, based on the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management of each FHLBank, other than the FHLBank of Des Moines, concluded, as of December 31, 2018, that its individual internal control over financial reporting was effective based on the criteria established in *Internal Control-Integrated Framework*. Additionally, the independent registered public accounting firm of each FHLBank, other than the FHLBank of Des Moines, opined that the respective individual FHLBank maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018. (See *Part II. Item 8 - Financial Statements and Supplementary Data* or *Item 9A - Controls and Procedures* of each FHLBank's 2018 SEC Form 10-K for its *Management's Report on Internal Control over Financial Reporting*.)

Each FHLBank, other than the FHLBank of Des Moines, indicated that there were no changes to its internal control over financial reporting during the quarter ended September 30, 2019, that materially affected, or are reasonably likely to materially affect, its internal control over financial reporting. Additionally, the management of each FHLBank, other than the FHLBank of Des Moines, concluded that its disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by its 2019 Third Quarter SEC Form 10-Q. (See *Part I. Item 4 - Controls and Procedures* of each FHLBank's 2019 Third Quarter SEC Form 10-Q.)

FHLBank of Des Moines

The FHLBank of Des Moines' management identified two material weaknesses in its internal controls as of December 31, 2018: 1) ineffective user access controls needed to ensure appropriate segregation of duties and adequate restrictions on user and privileged access to the FHLBank's information technology applications, programs, and data, and 2) ineffective control over information technology change management, including controls to monitor developers' access to production and testing of program changes. (See *Part II. Item 8 - Financial Statements and Supplementary Data* and *Item 9A - Controls and Procedures* of the FHLBank of Des Moines' 2018 SEC Form 10-K for additional information.)

During the quarter ended September 30, 2019, the management of the FHLBank of Des Moines continued to take steps to remediate the material weaknesses identified at December 31, 2018. Other than these remediation steps, there were no changes to its internal control over financial reporting during the quarter ended September 30, 2019, that materially affected, or are reasonably likely to materially affect, its internal control over financial reporting. Additionally, the FHLBank of Des Moines' management concluded, based on its previous identification of material weaknesses in its internal control over financial reporting at December 31, 2018, that its disclosure controls and procedures were not effective at a reasonable assurance level as of the end of the period covered by its 2019 Third Quarter SEC Form 10-Q. (See *Part I. Item 4 - Controls and Procedures* of the FHLBank of Des Moines' 2019 Third Quarter SEC Form 10-Q.)

Office of Finance Controls and Procedures over the Combined Financial Reporting Combining Process

The Office of Finance is not responsible for the preparation, accuracy, or adequacy of the information or financial data provided by the FHLBanks to the Office of Finance for use in preparing the combined financial reports, or for the quality or effectiveness of the disclosure controls and procedures or internal control over financial reporting of the FHLBanks as they relate to that information and financial data. Each FHLBank is responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting with respect to the information and financial data provided to the Office of Finance. Although the Office of Finance is not an SEC registrant, FHFA regulations require that the combined financial report form and content generally be consistent with SEC Regulations S-K and S-X, as interpreted by the FHFA. The Office of Finance is not required to establish and maintain, and in light of the nature of its role has not established and maintained, disclosure controls and procedures and internal control over financial reporting in the same manner as those maintained by each FHLBank. The Office of Finance has established controls and procedures concerning the FHLBanks' submission of information and financial data to the Office of Finance, the process of combining the financial statements and other financial information of the individual FHLBanks, and the review of that information.

The Office of Finance does not independently verify the financial information submitted by each FHLBank that comprise the combined financial statements, the condensed combining schedules, and other disclosures included in this Combined Financial Report. Instead, the Office of Finance relies on each FHLBank management's certification and representation regarding the accuracy and completeness, in all material respects, of its data submitted to the Office of Finance for use in preparing this Combined Financial Report.

Audit Committee Charter

The charter of the audit committee of the Office of Finance's board of directors is available on the Office of Finance's web site at fhfb-of.com. This web site address is provided as a matter of convenience only, and its contents are not made part of or incorporated by reference into this report.

LEGAL PROCEEDINGS

The FHLBanks are subject to various pending legal proceedings arising in the normal course of business. The FHLBanks and the Office of Finance do not believe they are a party to, or subject to, any pending legal proceedings where the ultimate liability of the FHLBanks, if any, arising out of these proceedings is likely to have a material effect on the results of operations, financial condition, or liquidity of the FHLBanks on a combined basis or that are otherwise material to the FHLBanks on a combined basis. (See each FHLBank's 2019 Third Quarter SEC Form 10-Q under *Part II. Item 1 - Legal Proceedings* for additional information, including updates, to its legal proceedings.)

Legal Proceedings Relating to the Purchase of Certain Private-label MBS

As of September 30, 2019, each of the FHLBanks of Boston, Chicago, and Des Moines is a plaintiff in continued legal proceedings that relate to the purchases of certain private-label MBS. Defendants in these lawsuits include entities and their affiliates that buy, sell, or distribute the FHLBanks' consolidated obligations or are derivative counterparties. These defendants and their affiliates may be members or former members of the plaintiff FHLBanks or other FHLBanks.

RISK FACTORS

There were no material changes to the risk factors disclosed in the Federal Home Loan Banks Combined Financial Report for the year ended December 31, 2018. (See each FHLBank's 2019 Third Quarter SEC Form 10-Q for any updates to the risk factors included in such FHLBank's 2018 SEC Form 10-K under *Part I. Item 1A - Risk Factors.*)

OTHER INFORMATION

On October 2, 2019, the Financing Corporation (FICO), formed pursuant to the Federal Savings and Loan Insurance Corporation Recapitalization Act of 1987 to provide financing for the resolution of failed savings and loan associations, commenced the process of dissolution in accordance with relevant statutory requirements and the terms of a plan of dissolution approved by the Director of the FHFA. Subject to the satisfaction of any claims and the payment of other administrative expenses upon FICO's dissolution, which is expected to occur in the first half of 2020, any surplus and remaining cash on hand of FICO is expected to be distributed to the FHLBanks, as FICO's sole stockholders, in proportion to their ownership in FICO's nonvoting capital stock. The receipt by the FHLBanks of any such distribution from FICO will be treated as a partial return of their prior capital contributions to FICO and credited to their unrestricted retained earnings. The FHLBanks do not expect any distribution from FICO to materially affect the FHLBanks' combined financial condition or combined results of operations.

MARKET FOR CAPITAL STOCK AND RELATED STOCKHOLDER MATTERS

As a cooperative, each FHLBank conducts its advances business and mortgage loan programs almost exclusively with its members. Members and certain former members own all of the FHLBanks' capital stock. There is no established marketplace for the FHLBanks' stock and it is not publicly traded. FHLBank stock is purchased by members at the stated par value of \$100 per share and may be redeemed/repurchased at its stated par value of \$100 per share, subject to applicable redemption periods and certain conditions and limitations.

At September 30, 2019, the FHLBanks had 366 million shares of capital stock outstanding, including mandatorily redeemable capital stock. The FHLBanks are not required to register their securities under the Securities Act of 1933, as amended; however, each FHLBank is required to register a class of its stock under the Securities Exchange Act of 1934, as amended. (See [Note 13 - Capital](#) to the accompanying combined financial statements for additional information on regulatory capital stock and mandatorily redeemable capital stock.)

Table 41 presents combined regulatory capital stock, which includes mandatorily redeemable capital stock, held by type of member and FHLBank membership by type of member.

Table 41 - Regulatory Capital Stock Held and Membership by Type of Member
(dollars in millions)

	September 30, 2019		December 31, 2018	
	Regulatory Capital Stock Amount	Number of Members	Regulatory Capital Stock Amount	Number of Members
Commercial banks	\$ 21,639	4,080	\$ 24,864	4,186
Insurance companies	5,007	461	4,675	436
Savings institutions	4,539	668	4,859	691
Credit unions	3,995	1,518	4,088	1,490
Community development financial institutions	15	60	12	60
Total	35,195	6,787	38,498	6,863
Mandatorily redeemable capital stock	1,390		1,062	
Total combined regulatory capital stock	\$ 36,585		\$ 39,560	

Figures 31 and 32 present the percentage of regulatory capital stock held, and membership, by type of member at September 30, 2019.

Figure 31 - Percentage of Regulatory Capital Stock Held by Type of Member

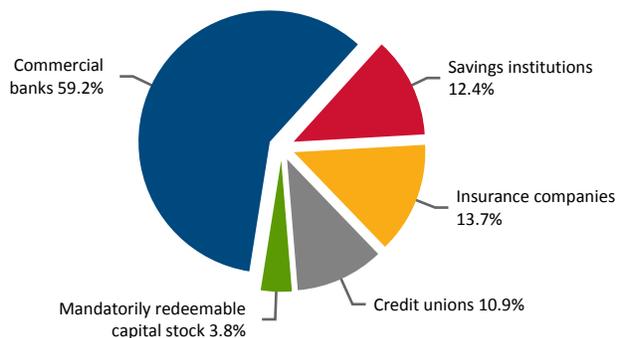

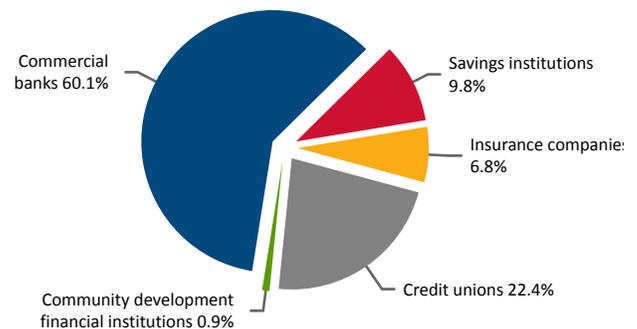

Figure 32 - Percentage of Membership by Type of Member

The information on regulatory capital stock presented in Table 42 is accumulated at the holding-company level. The percentage of total regulatory capital stock identified in Table 42 for each holding company was computed by dividing all regulatory capital stock owned by subsidiaries of that holding company by total combined regulatory capital stock. These percentage concentrations do not represent ownership concentrations in an individual FHLBank.

Table 42 - Top 10 Regulatory Capital Stockholders by Holding Company at September 30, 2019
(dollars in millions)

Holding Company Name(1)	FHLBank Districts(2)	Regulatory Capital Stock(3)	Percentage of Total Regulatory Capital Stock	Mandatorily Redeemable Capital Stock
JPMorgan Chase & Co.	Pittsburgh, Cincinnati, Chicago, Des Moines, San Francisco	\$ 1,564	4.3%	\$ 712
Wells Fargo & Company	Des Moines, Dallas, Topeka, San Francisco	1,484	4.1%	17
The PNC Financial Services Group, Inc.	Pittsburgh, Atlanta, Cincinnati	1,120	3.1%	13
MetLife, Inc.	Boston, New York, Pittsburgh, Des Moines	813	2.2%	17
Citigroup Inc.	New York	773	2.1%	—
Bank of America Corporation	Boston, Atlanta, Des Moines, San Francisco	728	2.0%	5
Ally Financial Inc.	Pittsburgh	712	1.9%	—
New York Community Bancorp, Inc.	New York	606	1.7%	—
TIAA	New York, Atlanta	515	1.4%	—
Navy Federal Credit Union	Atlanta	502	1.4%	—
		<u>\$ 8,817</u>	<u>24.2%</u>	<u>\$ 764</u>

- (1) Holding company information was obtained from the Federal Reserve System's web site, the National Information Center (NIC), and SEC filings. The NIC is a central repository of data about banks and other institutions for which the Federal Reserve System has a supervisory, regulatory, or research interest, including both domestic and foreign banking organizations operating in the United States.
- (2) At September 30, 2019, each holding company had subsidiaries with regulatory capital stock holdings in these FHLBank districts.
- (3) Includes FHLBank capital stock that is considered to be mandatorily redeemable, which is classified as a liability under GAAP.

SUPPLEMENTAL INFORMATION

Individual Federal Home Loan Bank Selected Financial Data and Financial Ratios

The following individual Federal Home Loan Bank (FHLBank) selected financial data and financial ratios are provided as a convenience to the reader. Please refer to [Explanatory Statement about Federal Home Loan Banks Combined Financial Report](#), which discusses the independent management and operation of the FHLBanks; identifies the availability of other information about the FHLBanks; and describes where to find the periodic reports and other information filed by each FHLBank with the SEC.

Year-to-date September 30, 2018	0.40%	0.43%	0.40%

- (5) The regulatory capital-to-assets ratio is calculated based on the FHLBank's total regulatory capital as a percentage of total assets held at period-end. (See [Note 13 - Capital](#) to the accompanying combined financial statements for a definition and discussion of regulatory capital.)
- (6) Return on average equity is net income expressed as a percentage of average total capital. Mandatorily redeemable capital stock is not included in the calculation of return on average equity.
- (7) Net interest margin is equal to net interest income represented as a percentage of average interest-earning assets.
